PART I.

SUMMARY.

SUMMARY

OF

THE ADMINISTRATION REPORT OF BURMA FOR THE YEAR 1900-1901.

THE HON'BLE SIR FREDERIC FRYER, K.C.S.I., held charge of the administration throughout the period under review.

The number of divisions and districts remained the same as last year. Various changes were effected in district, subdivisional, and township boundaries. The number of subdivisions was reduced by one and the number of townships by three.

Southern Shan States.

2. The report of the year's administration of the Southern Shan States showed general progress. The census was carried out punctually and effectively. Regular communication was established between Kēngtūng and the French officials at Möng Hseng and with the Consul at Ssumao. Disturbances in the trans-frontier State of Kēnghūng were put down by the Chinese officials. The Shan States Civil Justice Order came into force on the 16th May 1900, and a subsidiary order on the 30th January 1901. Violent crime decreased though cattle-theft by raiders was not uncommon. The working of the police was good. The tribute demand was unchanged. The crops on the whole were good and the food-supply ample. Trade was unusually brisk. The Lieutenant-Governor held a darbar at Taunggyi on the 27th March. The health of the people was generally good, but vaccination is still very backward. Great progress was made in road and bridge-making and a number of new bazaars were built.

Northern Shan States.

3. Outstanding disputes between the border inhabitants of North Hsenwi and Chefang were settled. The erection of permanent boundary pillars along the demarcated frontier in the Shweli valley was completed. The administration of Tawngpeng was successful, and crime was light. In North Hsenwi progress was made in road-making and in the construction of the bridge over the Namtu. The year was prosperous in South Hsenwi, but little progress was made in the construction of roads. Gambling and cattle-theft increased. A local dispute between the sub-States of Ngekting and Manghseng caused some disturbance in Manglün. Crops were good and crime was not heavy.

Hsipaw.

4. Trade with Burma, both import and export, increased in volume. Five reserved forests were demarcated during the year. The health of the people was good, and the number of persons vaccinated increased considerably. There was an epidemic of small-pox in Hsipaw. There was a further improvement in the administration of the State. The revenue again increased and expenditure rose. The tribute was paid punctually. The accounts and finances of the State were placed on a more satisfactory footing. Crime was small and cattle-theft was kept under. The administration of the sub-States was satisfactory.

Other Shan States.

5. Möng Mit continued to be administered as a subdivision of the Ruby Mines district. The Kachin population behaved well. Crime was light throughout the State. In Hsawnghsup tranquillity has now been assured. The year was prosperous and population is on the increase.

The Chin Hills.

6. In the Chin Hills proper the year passed without untoward events. There were no raids into Burma proper and the internal relations of the tribes were peaceful. The boundary between the Lushai and Chin Hills was satisfactorily determined during the year. The Chins showed more inclination to take advantage of the medical services provided by Government. The tribute due was collected punctually. The Peya Chins beyond the administrative border of the Upper Chindwin district continued to steal cattle from villages near the Chindwin. The Chindwin border was otherwise peaceful during the year and trade is reported to be steadily increasing. The only event of special importance in the Pakôkku Chin Hills was a murderous raid committed by a party of Chins from beyond the border on a tribute-paying village. A force of Military police inflicted punishment.

The Kachin Hills.

7. Apart from minor Kachin forays the frontier continued undisturbed throughout the year. The census of the Hill tracts was successfully carried out. The amount collected as tribute was Rs. 31,355 as compared with Rs. 27,729 in the previous year. Much opium continued to be smuggled into Burma from China.

Legislation.

8. Two Acts passed by the Council of His Honour the Lieutenant-Governor of Burma became law during the year 1900, namely, Act I (The Rangoon Water-works Act Amendment Act, 1900) and Act II (The Burma Vaccination Law Amendment Act, 1900). During the year 1900 several other Bills were under the consideration of the Local Government; of these, three were introduced before the close of the year 1900 and one at the beginning of the year 1901, and have since become law, namely—

I.—The Burma Military Police Act Amendment Bill;
II.—The (Lower) Burma Land and Revenue Act Amendment Bill;
III.—The Burma Towns Law Amendment Bill; and
IV.—The Lower Burma Courts Act Amendment Bill.

Of the several Acts passed by the Governor-General in Council affecting Burma, the most important was the Lower Burma Courts Act, 1900, which provided for the establishment of the Chief Court and effected important changes in the denomination and jurisdiction of the subordinate Courts of Lower Burma.

The Upper Burma Land and Revenue Regulation, 1889, and the Upper Burma Civil Courts Regulation, 1896, were respectively amended by Regulations IV and VIII of 1900. By an order entitled the Shan States Civil Justice Order, 1900, and made under the Burma Laws Act, 1898, certain officers were appointed to exercise, amongst other powers, a general control over the administration of Civil Justice and a procedure was provided for the disposal of civil suits in the Shan States.

Police.

9. The conduct of the civil police in most districts was satisfactory. The sanctioned establishment was almost the same as in the previous year. The higher grades of Police officers

were revised, the pay of the Deputy Inspector-General was increased, and concessions in respect of officiating allowances were granted to Inspectors on the A list. Recruiting was more successful and the force of the province was only about 3 per cent. below strength at the close of the year. In most districts the behaviour of the police and their relations with the people are reported to be satisfactory. The proportion of illiterate members of the force fell from 18·17 to 16·96 per cent. Police-station and outpost buildings are generally in good order. The process of disarming the civil police except at stations which are thoroughly defensible was continued. There was a large decrease in cognizable crime. Robberies and thefts of all kinds fell off, but cases of serious hurt continued to increase. The offence of maiming cattle is still common in many districts. There was a decrease in ordinary thefts. On the average, detection of crime met with about the same measure of success as in the previous year. Violent crime continued to decrease, but detection was generally poorer than in the preceding year. Marked success was attained in the suppression of cattle-theft, but the year's record was marred by a large increase in cattle-thefts in Amherst. Among the delta districts Thôngwa and Myaungmya suffered less than any others from cattle-theft. There were fewer prosecutions under the preventive sections of the Code of Criminal Procedure, and the proportion of convictions was slightly lower than in 1899. The number of criminals under police surveillance increased. Beat-patrols were generally the subject of favourable report. The police were not less successful than usual in identifying previous offenders. The system of finger-print identification is now in working order.

Railway Police.

10. The strength of the Railway Police was slightly raised. The conduct of the force was satisfactory. Cognizable crime along the railway line on the whole continued to fall off. Large seizures of opium were made and the number of thefts from passengers again decreased.

Military Police.

11. The strength of the Military Police was increased by three Gurkha companies, which took over four posts in the Southern Shan States previously garrisoned by regular troops. The Karen Battalion was merged in the Chindwin Battalion and a new battalion was formed, with headquarters at Shwebo. The conduct of the force was satisfactory. The health statistics show a considerable improvement on the previous year. Detachments of the Myitkyina Battalion were engaged in action against the Was in the Northern Shan States and against Chinese interlopers on the North-Eastern Frontier in February 1900. A mixed detachment of Kachins and Indians of the Bhamo Battalion also saw active service when acting as an escort with the Burma China Boundary Commission.

Rangoon Town Police.

12. The conduct of the force was good. Serious crime diminished. There were no dacoities, and firearms were used in only one of the six robbery cases. In ordinary thefts the decrease was very marked, but cases of grievous hurt and hurt by dangerous weapons increased largely.

Police Supply and Clothing.

13. The net expenditure decreased by Rs. 39,381, as compared with the previous year. This was due to fewer men receiving free rations and to smaller expenditure in carriage of

rations, the cost of which fell from Rs. 1,85,650 to Rs. 1,77,938. The value of rations lost or damaged was Rs. 19,875 or 2·45 per cent. of the total value. Rice was purchased locally for the Chin Hills, Northern Shan States, and Ruby Mines Battalions.

Criminal Justice.

14. The chief event of the year was the constitution of the Chief Court in April 1900. The total number of cases instituted during the year was 74,572 as compared with 77,856 in 1899. This large decrease is mainly accounted for by a falling off in the number of Police and Municipal prosecutions in Rangoon and Mandalay. The percentage of true to reported offences fell slightly in both sections of the province. The percentage of convictions in Lower Burma was 62·56 and 68·43 in Upper Burma.

There was a decrease in the number of persons proceeded against under Chapter VIII of the Criminal Procedure Code in both Upper and Lower Burma. The total number of cases committed to the Sessions Courts of Lower Burma was 416 or 3 more than in the previous year. The number of cases committed to the Chief Court for trial was 25 as compared with 38 in the previous year committed to the Recorder of Rangoon. In Upper Burma the number of committals increased from 73 to 81 and the number of persons committed from 120 to 139. The percentage of convictions rose from 65·71 to 81·90. The number of appeals fell in both sections of the province. Fines amounting to Rs. 1,67,735 were imposed in Upper Burma or about the same as last year. Realizations amounted to 88 per cent. The total amount paid by way of compensation fell from 14,196 to 12,532.

Of the 19,181 persons punished in Upper Burma, 82·40 per cent. were sentenced to fine only, 2·26 per cent. to fine with imprisonment, 3·26 per cent. to whipping in lieu of other punishment, ·46 to whipping in addition to other punishment, 11·98 per cent. to rigorous imprisonment without solitary confinement, ·30 per cent. to simple imprisonment, and ·85 per cent. to rigorous imprisonment, with solitary confinement. There was a large fall in the number of sentences of solitary confinement from 243 to 163.

There was an increase in the number of cases called for in revision by District Magistrates in Lower Burma. The number of cases called for by Sessions Judges decreased.

In Upper Burma fewer cases were called for by the High Court. There was more interference in revision than in the previous year.

Jails.

15. The jail population at the commencement of the year (12,960, of whom 12,831 were males and 129 females) was more than at the beginning of 1899 (12,190, of whom 12,072 were males and 118 females). The year's admissions (26,278), were less than in 1899 (27,989); the aggregate number decreased from 40,179 to 39,238. The year closed with a smaller jail population, 12,074, than that with which it opened. No new jails were opened and none were closed during the year, but by a stricter measurement and reclassification the accommodation of some jails has been increased, while that of others has been decreased. The net result is a decrease of 362 in the total accommodation compared with the previous year. Of the 16,228 convicts committed during the year 3,419 or 21·07 per cent. had previous convictions, 1,423 of these having been previously convict-

ed more than once. Habitual offenders numbered 3,415 as compared with 3,459 the previous year. Of these all but 25 were identified before conviction, and of these four confessed themselves to be habituals. The only escape during the year was that of a convict from the Minbu jail. He was, however, recaptured after eight weeks. There were also two re-captures of prisoners who had escaped in previous years. Thirty-nine thousand two hundred and fifty-four offences were dealt with by Jail Superintendents and 36 by Criminal Courts as compared with 41,775 and 71 respectively the previous year. The gross cost of upkeep of the jails amounted to Rs. 7,92,738 against Rs. 7,87,598 in the previous year, the cost per head of average strength being Rs. 63-5-4 against Rs. 62-12-4 in 1899. The cash earnings of convicts sentenced to labour amounted to Rs. 1,94,577 as against Rs. 1,93,745 in the previous year. The ratios of admissions to hospital and of deaths per mille of average population were 555·40 and 21·17 in 1900 as compared with 583·65 and 18·73 in 1899. There were 33 cases of cholera, of which 20 proved fatal.

Civil Justice.

16. The chief events of the year were the passing of the new Lowe Burma Courts Act and the constitution of the Lower Burma Chief Court.

The number of suits instituted in Burma during the year was 56,995 as compared with 54,257 in 1899. The increase was common to both Lower and Upper Burma. The total value of suits in Lower Burma rose from Rs. 70,23,224 to Rs. 75,58,253 and in Upper Burma from Rs. 14,74,404 to Rs. 16,10,872. The average duration of contested cases rose in both Upper and Lower Burma. In uncontested cases it fell in Lower Burma and rose slightly in the Upper Province. Three thousand nine hundred and eleven cases were pending at the close of the year, of which 891 had been pending for more than three months. There were 19,980 applications for the execution of decrees before the Courts in Lower Burma against 18,375 in the previous year and 5,238 as against 4,720 for Upper Burma. The number of regular appeals in the province rose from 4,689 to 4,967, of which 3,048 were in Lower Burma and 1,919 in Upper Burma. The percentage, of confirmation decreased in both Lower and Upper Burma. The cost of litigation in Lower Burma decreased considerably during the year of report as compared with 1899. In Upper Burma the percentage of costs rose slightly in original and execution cases but fell considerably in appeals. There were 275 Court inspections in Lower Burma and 279 in Upper Burma compared with 235 and 288 in the previous year. The Upper Burma Courts Manual containing the substance of all circulars and orders of the Judicial Commissioner now in force has been issued. It is understood the Chief Court contemplates the preparation of a similar compilation for Lower Burma.

Registration.

17. The Indian Registration Act, 1877, in Lower Burma and the Upper Burma Registration Regulation, 1897, in Upper Burma continued in force throughout the year. The number of registration offices (147) remained unchanged.

The number of documents registered and the amount of fees realized in Lower Burma increased respectively by over 15 and 12 per cent., while the surplus of receipts over expenditure rose from Rs. 41,239 to Rs. 48,477. The average value of the documents registered showed a decrease. Nine of the 16 districts of the Upper Province show decreases, but the total number of deeds registered rose

by over 35 per cent. Nett receipts rose to Rs. 9,401. The system of remunerating registration clerks by fixed salaries instead of payment by fees was extended to seven more offices during the year.

Municipal administration.

18. The opening balance of the Rangoon Municipal Fund on the 1st April 1900 was Rs. 4,90,616. The total receipts for the year amounted to Rs. 40,82,157 and the total expenditure to Rs. 32,20,606, leaving a credit balance of Rs. 13,52,166 at the close of the year. Ordinary revenue exceeded the estimate by Rs. 1,20,211. The incidence of Municipal taxation rose to Rs. 5-3-10. At the close of the year the liabilities of the Municipality stood at Rs. 49,35,000. The total expenditure on education was Rs. 87,235. The expenditure on the General Hospital increased from Rs. 1,49,929 in 1899-1900 to Rs. 2,27,193, owing mainly to the erection of additional buildings. Reclamation works cost Rs. 1,51,023. The population within Municipal limits was 232,326 according to the last Census, as compared with 180,324 according to the Census of 1891; the death rate averaged 32·90 per mille, and the birth rate 13·53 per mille.

The number of Municipalities remained the same as in the previous year. The limits of the Zalun Municipality were extended, the extension comprising an area of ·71 of a square mile. The aggregate income exclusive of Rangoon, was Rs. 21,93,284 (not including extraordinary and debt accounts) and the expenditure Rs. 20,09,812. Markets and slaughter-houses yielded the largest share of the total income, their proceeds amounting to Rs. 9,89,332 for all Burma. Expenditure on public safety rose in Lower Burma, but fell in Upper Burma. There was an increase of expenditure on conservancy. The cost of vaccination and registration increased very slightly, while that on public instruction declined The sum expended on public works was Rs. 4,14,593, of which roads absorbed the greatest part. No loans from Government were sanctioned during the year; the outstanding balance at the close of the year was Rs. 2,05,715. No towns were declared notfied areas under the Burma Municipal Act.

Forests.

19. The area of reserved forests in Burma was increased from 17,153 miles to 17,837 square miles. The demarcation of new reserves made progress. A party of the Imperial Survey was employed in the Pegu circle, and another party in Upper Burma. Working plans parties were employed in the Tenasserim circle and in the Southern circle. Fire-protection was carried out over 5,164 square miles, of which 4,562 square miles were successfully protected. The gross outturn of the forests was greater than previously, but there was a curtailment in the amount of cutch extracted. The net forest revenue of the year was Rs. 50,61,682. The price of teak fell from Rs. 74-13-5 per ton in July 1900 to Rs. 56-15-0 per ton in June 1901, owing to the depressed state of the timber market.

Commercial—Marine.

20. The number and tonnage of the vessels engaged in the seaborne trade of the province has increased. The aggregate value of the foreign imports of the year was 687 lakhs, being the highest aggregate yet recorded. The advance was attributable to general prosperity and business activity throughout the province. The value of the foreign export trade was on the other hand 1,003 or 15 lakhs below its value in the preceding year. The decrease was due to the continued diversion of large quantities of rice to India owing to scarcity there.

The recorded value of the coasting trade increased by over 368 lakhs as compared with the previous year, chiefly due to extensive shipments of rice to the presidencies of Bengal, Bombay, and Madras. The imports also showed an excess of Rs. 73,66,008 over the figures of the preceding year.

The number of shipping casualties in Rangoon pilotage waters was 19. At Moulmein the grounding of the *Baron Glamis* formed the subject of an enquiry. An accident of a minor nature occurred at Akyab. There was an enquiry to investigate the casualty to the *Maria Teresa* at Bassein.

The receipts from light-dues show an enhancement of Rs. 49,449 from Rs. 3,16,311 to Rs. 3,65,760.

The receipts of the Rangoon Pilot Fund amounted to Rs. 2,44,204, showing an increase of Rs. 23,200, and the amount paid to the pilots was Rs. 1,48,811 as against Rs. 1,45,416 last year.

At Bassein the total amount earned by the four European pilots was Rs. 23,846 and that by the one Asiatic pilot, Rs. 1,932.

The receipts of the Rangoon Port Trust Fund increased by Rs. 2,06,755. Expenditure also increased by Rs. 2,20,000. Plague measures cost 1½ lakhs against Rs. 86,721 last year. The only case of plague introduced into the country was detected and isolated by the Port staff, but it proved fatal. The rules and regulations framed to prevent plague from being imported into Rangoon were strictly enforced during the year.

The total income (excluding debt accounts) of the remaining six Port funds amounted to Rs. 2,36,962 against Rs. 2,29,398 in 1899-1900. The expenditure aggregated Rs. 1,73,396 as compared with Rs. 1,84,381.

Military.

21. The total strength of the troops in Burma at the beginning of the year was 10,243, the number at the close of the year being 10,629. The 6th Burma Battalion took part in the recent operations in China. There was no change in the constitution of the Volunteer Forces during the year under review. The aggregate enrolled strength of the combined force on the 31st March 1901 was 2,563 as against 2,538 in 1899-1900. There were in all 2,381 efficients as against 2,467 last year. The amount of capitation-grant earned was Rs. 79,287 or Rs. 3,710 more than in the previous year.

Agriculture.

22. In Lower Burma, except in the Arakan division, the monsoon rain was generally timely, abundant and well distributed. The area under cultivation again showed a considerable increase from 6,857,898 to 7,165,804 acres and is still capable of wide expansion. The increase under the rice crop was particularly noticeable. The price of paddy showed a good deal of fluctuation during the year. In Upper Burma the rainfall was less local than usual in character. The harvests were generally up to the average and the food-supply was amply sufficient. The year on the whole was healthy for cattle both in Upper and in Lower Burma.

Mines and quarries.

23. The Burma Ruby Mines, Limited, continued to work the Mogôk Ruby Mines under their lease and had a very prosperous year. The receipts from royalties from native miners decreased by Rs. 15,951 owing to the town of Mogôk being closed from

May 1900 to *twinlôn* mining. The value of the stones found, however, increased from Rs. 13,62,722 to Rs. 14,59,898. The expenses of the Company amounted to Rs. 7,02,000 and a dividend of 17½ per cent. was paid as the result of the year's work. In the Myitkyina district a few good stones were obtained during the year in a fresh field about a mile and a half from Nanyaseik village, and this has caused a large influx of miners into the Nanyaseik tract. The total output from gold mines at Kyaukpazat, Katha district, was almost the same as in 1899, but the value declined from Rs. 65,668 to Rs. 49,683. The fall in value is ascribed to the inferior value of the bullion obtained by the cyanide process. A prospecting license to dredge for gold in the Upper Irrawaddy has been granted to Messrs. Moore and Terndrup. Operations will shortly begin and the result of this novel experiment will be watched with interest. The Burma Coal Company extracted 8,770 tons from the Letkôkpin colliery in the Shwebo district. The amber mines, which lie beyond the administrative frontier of the Myitkyina district, have been worked to almost total exhaustion. Ten cwts. were extracted during the year valued at Rs. 1,540. Only native miners were at work in the Tavoy and Mergui tin mines during the year. The output was 2,078 cwt. valued at Rs. 1,28,009. Messrs. Heim and Money, who have been granted a lease of nearly 4 square miles at Maliwun, propose working tin by hydraulic sluicing, obtaining water by drawing on the Maliwun stream above the waterfalls and carrying down the water by means of 18-inch pipes. The output of petroleum for the whole of Burma for the year 1901 was 36,974,288 gallons valued at Rs. 21,51,663. The outturn from the Akyab, Kyaukpyu and Yenangyat fields was less than in the previous year, but the yield of the Yenangyaung wells was 27,123,325 gallons compared with 22,111,514 in 1899.

Seaborne trade.

24. The aggregate value of the seaborne trade of the province amounted to Rs. 41,69,16,015, of which Rs. 35,84,06,210 represented private trade and Rs. 5,85,09,805 traffic on Government account, against Rs. 31,22,99,884 and Rs. 1,62,31,735 in 1899-1900. There was a satisfactory advance in the foreign import trade of the year due to general prosperity and business activity throughout the province, but the foreign export trade declined by 15 lakhs, due principally to the continued diversion of large quantities of rice to India owing to scarcity there. In the coasting trade there were increases both in imports (73 lakhs) and exports (294 lakhs).

Inland trade.

25. The total value of the frontier trade of both Upper and Lower Burma was Rs. 3,43,51,100 or 11·86 per cent. more than in 1899-1900. The value of the trade with Western China amounted to 61 lakhs or 40·10 per cent. more than in the previous year. The trade with the Northern Shan States was about 100 lakhs, while that with the Southern Shan States was worth 92 lakhs.

Public works.

26. The total Public works expenditure for the year was Rs. 1,08,03,208, excluding establishment, tools and plant, Barrack Department, and Suspense. This was distributed as follows :—

Nature of work.	Original works.	Repairs.
	Rs.	Rs.
Imperial Military Works	2 35,400	3,00,060
Imperial Major Irrigation Works	8,43,084	...
Provincial Minor Works and Navigation	7,00,812	5,91,986
Provincial Civil Buildings	36,16,508	6,15,934
Provincial Communications	12,50,073	17,50,491
Provincial Miscellaneous Public Improvements	2,08,002	38,870
Incorporated Local Minor Works and Navigation	...	3,654

The total cost of establishment, excluding the Barrack Department, was Rs. 16,86,230 or 15·61 per cent. on the total expenditure as against 18·87 per cent. in the previous year and 23·92 per cent. in the year before that.

Military.

The artesian well for supply of water to British troops in Rangoon having proved a failure the experiment was stopped and another well was commenced near the Commissariat godown in Godwin road. The latter has been sunk to a depth of 166 feet : it yields 12,000 gallons an hour. Two mess houses for Native Infantry Regiments were commenced at Mandalay and Staff offices were completed. Quarters for the Deputy Assistant Adjutant-General, Mandalay, and for the Officers, Burma Sappers and Miners, are being put up. The drainage of Fort Dufferin was taken in hand. In connection with the scheme for the provision of accommodation for the 1st Burma (Gurkha) Rifles at Maymyo, the fifth set of double unit quarters for British Officers, magazine, hospital, and eight double blocks of quarters for Native Commissioned Officers were completed. Work in connection with the water-supply scheme, Meiktila Cantonments, progressed rapidly and will be completed soon.

Civil Buildings.

Forest.—Quarters were provided at Thayetmyo and Meiktila for Forest Officers and for the Divisional Forest Officers at Toungoo and Minbu. A combined office for Conservators, Northern and Southern Circles, was completed at Maymyo and also residences for them.

Post Offices.—Combined Post and Telegraph offices were completed at Thatôn, Wuntho and Sima and combined quarters and office at Pegu for the Superintendent, Post Offices, Hanthawaddy circle. A strong-room was provided at Mogôk.

Telegraphs.—The new Telegraph office was completed at Mandalay.

Administration.—Satisfactory progress continued in the scheme for providing treasure-vaults at outlying stations and record rooms at headquarters of districts.

Minor Departments.—A site was acquired for the Provincial Museum, Rangoon.

Educational.—Quarters for the Head Master and a barrack for the boys and an Assistant Master, of the Engineering School, Insein, were completed. Work on the school for sons of Shan Chiefs at Taunggyi was nearly completed.

Ecclesiastical.—Work on the Mandalay Church was stopped pending settlement of the design.

Law and Justice.—A site was acquired for the Chief Court, Rangoon. Numerous Court-houses were completed or under construction. Quarters were completed for the Deputy Commissioners, Henzada, Sandoway and Toungoo; also for headquarters Assistant Commissioners at Tharrawaddy and Pegu, and for the Civil Subdivisional Officers at Zigôn and Allanmyo. The construction of quarters is in progress at Shwebo and Pakôkku and the Cantonment Magistrate's quarters at Mandalay are being enlarged.

Jails.—A large number of improvements and additions were carried out, the most important being the extensions at Bassein, Henzada, Paungdè, Thayetmyo and Myaungmya. A new jail is in progress at Mergui.

Police.—Among other Minor Works, thanas were completed, or nearly completed, at 34 stations. A two-section rifle-range, suitable for the Lee-Metford rifle, was nearly completed at Thamaing and a double range up to 300 yards was completed at Myaungmya. Military Police lines and barracks were completed or were in progress at Kutkai, Mergui, Thatôn, Myitkyina, Mônywa and Yinmabin; Military police posts were either completed or were well in hand at Sinlumkaba, Sima, Loingu, Lôntôn and Sinbo. Quarters were provided, where necessary, for the Civil Police.

Medical.—Dispensaries were completed at Ôkpo and Minhla and Civil hospitals were built or were under construction at seven stations.

Miscellaneous.—Five circuit-houses were completed. Quarters for officers were provided at various stations as far as funds would permit. At Maymyo, offices and quarters for the Superintending Engineers of the North-Eastern, North-Western and Irrigation Circles, as also quarters for the clerks belonging to these offices, were practically completed; at Rangoon, a fourth set of quarters for Government clerks was completed.

Communications.

The total length of metalled and unmetalled roads in the province at the end of the year was 1,587 and 7,412 miles, respectively. During the year, among others, metalling was completed on the Thazi-Taunggyi road, portions of the Rangoon-Prome road, the Mudôn road, Myitkyina station roads, and the branch road to Fort Stedman; bridges were renewed, and roads raised in class and improved where necessary; Public Works Department inspection bungalows were built where most needed. Of new works undertaken, the first section of the Chinese frontier road was practically completed; the road from Falam to Fort Aijal in the Lushai Hills was well advanced; a road from the ferry near Seinchôn to Pyatè was begun; station roads at Mount Victoria and at Maymyo were completed; feeder-roads from Kywebwè and Kyaukkyi to the Sittang river are in progress; the survey of cart-roads from Pathichaung to Thandaung and from Taunggyi to Kēngtūng are in progress; and the cart-road from Taunggyi to Napôk is nearing completion. Good progress has also been made on the other roads mentioned in the report.

Miscellaneous Public Improvements.

Markets.—Four bazaars were completed and one nearly completed.

Water-supply.—A revised scheme for the Maymyo water-supply was started, as the original scheme was considered too small for the requirements of the station.

Light-houses.—The old China Bakir light-house was dismantled and re-erected on a new site.

Miscellaneous.—The work of erection of boundary pillars on the Chinese frontier was continued. Twenty-five main and two subsidiary pillars were erected and 32 inscriptions put on. Some surveys were made of routes in the Northern Shan States with the object of opening up the country north and south of the railway by means of cart-roads and thus developing the trade.

Irrigation.

Pegu and Sittang canal.—Improvements to Myitkyo lock chamber were continued. Masonry regulators across Zwebat and Singyidaing creeks were completed. The construction of a lock at Minywa was sanctioned, and a twin-screw steam-launch for the use of the canal officers is being constructed at Kidderpore.

Sittang-Kyaikto canal.—Two overbridges were built.

Kyaikto-Bilin canal.—Works are in abeyance owing to erosion by the sea.

River conservancy.—Maintenance and improvements were carried out in the Chindwin, Myittha, Yu, Uru and Yunzalin.

Kyauksè district.—The remodelling of the various canal systems and improvements to tanks were continued.

Mandalay canal.—The headworks and earthwork were completed; Thapangaing aqueduct nearly so. Numerous syphons and bridges were finished.

Shwebo canal.—Preliminary works were started.

Railways.

27. The gross earnings for the official year were Rs. 1,14,61,798, an increase of Rs. 19,67,873 over the previous year. The increase in net earnings was Rs. 7,91,871. The mileage open to traffic increased from 993·2 miles to 1,123·86 miles, due to opening of the Sagaing-Alôn Railway, and the section from Sedaw to Nawnghkio to traffic.

The Gôkteik bridge was completed, and it was opened by His Honour the Lieutenant-Governor on 1st June 1901. Construction work on the Bassein-Henzada Railway is well in hand, and it is expected that the line will be opened to traffic in October 1902.

Telegraphs.

28. Two new cables were laid at the Kaladaing crossing, as cables Nos. 2 and 3 had to be abandoned. A second telegraph wire for the Mandalay-Kunlôn Railway was erected from Nawnghkio to Hsipaw, a distance of 48 miles, and a departmental wire from Kalewa to Tammu, 91 miles. Extra wires were erected on existing supports from the Kemmendine Combined office to the Insein Post office and from the Thabyegan Combined office to Syriam; a new line was erected thence to Kyauktan, Thôngwa, Kayan, and Ônhnè Post offices. New lines were constructed from Ônhnè to Thanatpin and from Taunggyi to Loikaw. The line from Taunggyi to Bampôn was reconstructed. The Government and Railway systems at Meiktila were connected.

Combined post and telegraph offices were opened at Rathedaung, Nyaunglebin, Alôn, Zalun, Loikaw, Yawnghwè, Paung, Thôngwa, and Kyauktan during the year and a new Telegraph office at Kani. The number of telegrams despatched from Government offices was 694,278 against 666,983 in 1899-1900, being an

increase of 27,295. The total mileage of lines in the province increased by 106 and the total mileage of wire increased by 302.

Post offices.

29. The British India Steam Navigation Company and the Irrawaddy Flotilla Company worked their different contract services satisfactorily.

Many delays were caused to the mails by unpunctuality and misconnections of trains at Myohaung and Thazi junctions, and also by breaches of the permanent-way.

The extension of the railway has caused a decrease in runners and boat-lines of 62 miles as against a decrease of 104 miles last year.

Twelve Imperial and District Dâk Post offices were opened during the year, making the number of Post offices in existence 299 against 287 of the previous year.

Fifty-four letter-boxes, 20 postmen, and 17 village postmen were added to the establishment during the year, making the total number of letter-boxes 1,228, of postmen 315, and of village postmen 246.

The total number of letters, newspapers, packets and parcels carried was 18,234,797. The total number of registered articles was 346,985.

Money-orders to the value of Rs. 2,62,22,020 were issued, and orders to the value of Rs. 1,09,18,876 paid.

The amount of Post Office Savings Bank accounts open and balances was Rs. 82,61,515.

The value of insured articles amounted to Rs. 51,08,050; that of value payable articles to Rs. 15,58,838.

The number of combined Post and Telegraph offices open at the end of the year was 86 against 76 of last year.

The number of doses of quinine sold fell from 148,384 to 135,313.

Revenue Survey and Settlement.

30. In Sandoway 53 square miles and in Kyaukpyu 175 square miles were demarcated prior to survey. Demarcation work was finished in the Lower Chindwin district and 464 square miles were demarcated in the Pakôkku district. A traverse detachment of No. 7 Party of the Survey of India completed 105 square miles in the Sandoway district. In the Lower Chindwin district 650 square miles were traversed in advance of cadastral survey and 800 square miles were cadastrally surveyed. Revisions of survey were carried out in nine districts. The area still requiring resurvey is reported to be 2,884 square miles. The demarcation of fisheries in Tharrawaddy was completed, but only 74 out of the 108 fisheries taken in hand in the Pegu district were surveyed. Regular original settlement operations were in progress in the Thayetmyo, Pegu, Magwe and Shwebo districts. The Myingyan summary settlement was completed and progress was made in Yamèthin. Revision settlements were carried on in Tharrawaddy, Prome and Henzada. The year also saw the introduction of original settlement or revised settlement rates in Hanthawaddy, Pegu, Toungoo, Bassein, Myaungmya and Meiktila districts, while the direct system of assesssment on non-State land was started in Mandalay and Kyauksè.

In Lower Burma supplementary survey operations were carried on over an area of 24,926 square miles as against 23,860 square miles in 1899-1900. The total area under supplementary survey in Upper Burma amounted to 4,944 square miles. The cost of operations per square mile of total area for the year was Rs. 24-0-6 in Lower Burma and Rs. 29-11-4 in Upper Burma.

Transfers and tenancies.

31. In Lower Burma the total area transferred by sale was 413,432 acres against 381,267 acres in the previous year. The area mortgaged during the year rose from 168,431 acres to 225,551 acres and the area redeemed increased from 111,063 acres to 156.157 acres. In Mandalay there was an increase in the area of non-State land sold and a considerable decrease in the sales of State land. The area of State land mortgaged was double that of last year and that of non-State land five times as large. In Kyauksè out of 2,437 acres sold 2,303 acres were State land. In Meiktila and Minbu sales are uncommon. In the former district 69,108 acres were under mortage at the end of the year and in the latter district 21 per cent. of the total areas occupied is said to be mortgaged. In the Pegu and Irrawaddy divisions there was an increase in the number of tenants and in the area rented, due in a great measure to the excellent season. In Mandalay an area of 191 acres of State land was let at an average rent of Rs. 8·34 and an area of 3,619 acres of non-State land at an average rent of Rs. 6·78 per acre. In Kyauksè the number of State land sub-tenants fell from 389 to 245. The area of land granted or leased for cultivation decreased from 78,295 acres in 1899-1900 to 52,154 acres in 1900-1901, or by 33 per cent. The decrease was common to both the Upper and the Lower Province.

Land revenue.

32. There was a marked increase in the land revenue demand of the year which rose from Rs. 1,59,90,115 to Rs. 1,80,42,896. The large increase was due to the extension of cultivation owing to a favourable season; to the direct assessment to land revenue of cropped areas in the Meiktila district and to the introduction of revision settlement rates into parts of the Hanthawaddy and Bassein district and of settlement rates and of supplementary survey over a part of the Toungoo district. The gross demand on account of capitation-tax was Rs. 45,03,983 and the number of persons assessed was 1,081,719, an increase of 15,647. The total collections amounted to Rs. 44,66,537 against Rs. 43,86,534 in 1899-1900. Reduction of *thathameda* has been effected in several districts concurrently with the introduction of direct assessments on non-State land. The number of households assessed to *thathameda*, however, increased from 631,244 to 668,797 and the revenue demand in consequence only fell from Rs. 58,58,524 to Rs. 58,40,756 or by Rs. 17,768. The increase of 37,553 in the number of households assessed was probably due to the return to their old homes in Upper Burma of former emigrants to Lower Burma owing to the exceptionally favourable rainfall of the preceding year. The revenue demand on account of fisheries was Rs. 23,25,017 or Rs. 55,792 less than in 1899-1900. The largest decreases were in Pegu (Rs. 39,640) and Myaungmya (Rs. 38,730). In Upper Burma the year was an unfortunate one for fishermen in most districts. The total receipts under the various heads grouped together as "Miscellaneous Land Revenue" amounted to Rs. 11,73,769 or Rs. 21,359 less than in the previous year. Survey fees for *pottas* rose by over 50 per cent., but the receipts under the Village Act and Regulation and Sandbank and

Strand bank dues decreased by Rs. 21,411 and Rs. 15,908 respectively. Royalties and fees on minerals declined from Rs. 8,04,389 to Rs. 7,97,102. In Lower Burma the number of coercive processes issued was 26,503, practically the same number as in the previous year. The number of warrants issued and the number of persons arrested and imprisoned were less than in 1899-1900. Attachments of property were however somewhat more numerous. In Upper Burma there was a slight decrease in the total number of processes issued, but the number of persons imprisoned was ten against six in the previous year.

Separate revenue.

33. The total revenue yielded by salt was Rs. 12,79,293 against Rs. 14,47,771 collected in 1899. The revenue demand on account of locally manufactured salt fell from Rs. 2,38,242 to Rs. 1,94,164, a decrease of Rs. 44,078. The duty realized on imported salt was Rs. 10,83,930 or Rs. 1,24,037 less than in the previous year. The total estimated amount of salt, local and foreign, which paid duty in the year was 1,651,089 maunds, about 200,000 maunds less than that of last year; but even this reduced quantity represents a consumption of over 13 pounds per head of population according to the census of 1901.

The net stamp revenue increased from Rs. 18,77,217 to Rs. 20,18,554 or 7·5 per cent. The increase was contributed by all classes of stamps except notarial and impressed labels. The latter produced Rs. 28,387 less than in the previous year, when the total was inflated by the payment of Rs. 33,000 on a single deed of transfer in Rangoon. Considerable saving was effected by the introduction from the 1st April 1900 of the revised rates of discount allowed to stamp vendors. The number of prosecutions under the Stamp Act fell from 317 to 292 and the amount of fines imposed from Rs. 3,277 to Rs. 3,105.

The gross revenue of the Excise department during the year amounted to Rs. 54,82,538, the charges aggregated Rs. 4,59,502, and the net revenue reached a total of Rs. 50,23,036. The corresponding figures for 1899-1900 were Rs. 53,10,221, Rs. 4,52,356, and Rs. 48,57,865. The increase in the gross revenue was Rs. 1,72,317. The most noticeable gains were contributed by fees for licenses for imported liquors (Rs. 1,41,914) and fees for licenses for the sale of country fermented liquor (Rs. 45,661). Fines and forfeitures under the Excise Act and Rules decreased by Rs. 15,064. During the year the employment of females in any capacity whatever within the premises of an hotel bar was prohibited. The total revenue from liquor was Rs. 27,49,483 or Rs. 2,03,060 more than in the previous year. The revenue from opium decreased slightly, namely, from Rs. 26,56,526 to Rs. 26,42,884. There was a falling off of Rs. 54,776 in license fees and an increase of Rs. 43,004 on the sale proceeds of Government opium to licensed farmers. The decrease in license fees was the result of great variations in the prices paid in various districts in the two years. The increase in the sale proceeds of Government opium was almost wholly contributed by the Akyab district, where, owing to the large increase of registered consumers, the amount of opium issued from the Treasury rose from 4,798 to 6,568 seers. The number of opium licenses issued during the year was 284 or 50 more than in 1899-1900.

The year was not a satisfactory one as regards the prevention and detection of excise offences. The number of persons arrested, convicted, and imprisoned was less than in 1899-1900. The amount of fines imposed was Rs. 1,25,332,

out of which Rs. 89,204 or 71 per cent. were realized The amount paid out in rewards was Rs. 1,10,849 or Rs. 1,712 more than in the previous year. The quantity of liquor confiscated rose from 13,810 to 15,165 gallons. The quantity of opium confiscated was Rs. 2,63,258 seers as compared with 213,065 seers in 1899-1900. The largest seizures were in Rangoon, Thôngwa, Myitkyina, and Yamèthin. Twice as much *ganja* was seized as in the previous year.

The net collections on account of the income-tax rose from Rs. 10,50,575 to Rs. 11,13,537, or nearly 6 per cent. There was an increase under each of the heads of income on which the tax was levied, with the exception of securities. "Profits of Companies" contributed more than half of the increase. The tax was collected with greater ease, arrears falling from Rs. 3,743 to Rs. 616. There was a marked decrease from 404 to 254 in the number of warrants issued, and in only six cases was property sold.

The gross receipts under all heads in 1900-01 amounted to Rs. 8,57,64,911 against Rs. 7,86,24,281 in the previous year, showing an increase of Rs. 71,40,630. The expenditure was Rs. 5,60,69,742 in 1900-01 as compared with Rs. 5,13,45,687 in 1899-1900, showing an increase of Rs. 47,24,055. The improvement in the receipts has occurred chiefly under *Land revenue, Stamps, Excise, Provincial rates, Customs, Assessed taxes, Forests, Marine, State Railways* (*gross earnings*) and *Civil Works*, but the increase under these heads have been partly counterbalanced by a falling off under *Salt, Law and Justice—Courts of Law, Miscellaneous* and *Minor Works and Navigation.* On the expenditure side, the increases in comparison with the previous year occur chiefly under *Refunds and Drawbacks, Land revenue, Customs, Forests, General Administration, Law and Justice—Courts of Law, Police, Education, Medical, Scientific and other Minor Departments, Stationery and Printing, State Railways* (*working expenses*) and *Civil Works*, while there are decreases under *Law and Justice—Jails, Political* and *Military Works.*

Sanitary and Medical Administration.

34. Some slight general improvement, more particularly in rural tracts, has been made in registration. The results obtained in Upper Burma are sufficiently encouraging and when somewhat longer trial has been made the extension of the system, including the registration of births in rural tracts, may be found possible. Both in Upper and Lower Burma there is a continued need of careful supervision. The mortality from cholera was 3,440 as compared with 4,942 in the previous year. The deaths from smallpox have fallen in number in the Lower Province when compared with the high figures of the previous year, but the mortality is still comparatively high and vaccination is as yet not nearly so popular as it ought to become. The greatest mortality was as usual due to fevers which carried off 49,888 souls in Lower Burma and 19,875 in Upper Burma against 51,177 and 19,406 respectively during 1899. Schemes for the improvement of the water-supply at Mandalay, Rangoon, Paungdè, Akyab, Moulmein, and Meiktila were drawn up. As regard drainage several Town Committees were advised to draw up schemes and when these are approved definite sums of money will be set aside annually to carry out the schemes piece-meal. The prevalence of plague in India, more especially in Calcutta, which is only four days' journey by sea from Rangoon, gave rise to much apprehension, but happily

though four imported cases were reported, no indigenous case of the disease occurred during the year. Two of the imported cases were undoubtedly cases of plague. Three new dispensaries were opened and one was closed. There were 113 institutions working on the 31st December 1900. The aggregate number of patients treated in these dispensaries was 36,095 in-door and 822,594 out-door as compared with 34,749 and 783,290 during 1899. The average daily attendance during the year increased from 1,447 to 1,483. The number of women and children treated were 142,588 and 186,830 or 17 and 22 per cent., respectively, against the same percentage in the previous year. The number of surgical operations performed during the year has increased but the ratio of success is practically the same as last year. The receipts during the year including Rs. 39,192, the opening balance, amounted to Rs. 7,48,535 against Rs. 36,587 and Rs. 6,13,801, respectively. The amount contributed by Government towards hospital expenditure exceeded that given in the previous year by Rs. 34,991. The number of patients treated in the railway, police, and private hospitals and in the Dufferin Hospital during the year was 117,913 including 16,981 in-door patients. Three hundred and thirty-four cases of confinements were attended to in the Dufferin Hospital. Though a slight increase was made in the average number of Vaccinators and Native Superintendents employed, the amount of work done fell from 490,887 in 1899-1900 to 410,461 in 1900-1901. The number of primary vaccinations rose from 6,033 to 6,653, while the number of re-vaccinations fell from 6,594 to 2,797. The percentage of successful primary vaccination was again considerably lower than the average for the whole province. The figures for the Rangoon Municipality show a disappointing falling off in the quantity and quality of the work done. There was an increase in the total cost of the department of Rs. 5,170-1-11 as compared with that of the previous year. Of the total expenditure, Local Funds bore 52 per cent. and the balance was met from Provincial and Municipal revenues.

Education.

35. The total number of institutions, public and private, has risen from 17,050 to 17,599, and the pupils from 287,987 to 307,076. The public institutions show a decrease of one, *i.e.*, from 4,482 to 4,481; but the pupils attending them have increased by 8,924. The total expenditure has risen from Rs. 16,07,948 to Rs. 17,56,798, including fees, which show a very satisfactory increase of Rs. 32,421. The net Government expenditure shows an increase of Rs. 1,14,883. The very satisfactory increase in fees is due almost entirely to schools unde private management which, under the rules in force, have collected Rs. 37,054 more than last year. The percentage of expenditure of public funds, fees and private funds, is 68, 20, and 12 against 67, 20, and 13 last year. Buildings show a large increase, owing to the new Rangoon College building, the school for Shan *Sawbwas* at Taunggyi, and additions to the Government School of Engineering at Insein. During the year the Grant-in-Aid Rules have been revised. The standards of examination have also been recast and the opportunity afforded by the issue of a revised edition of the Education Code has been taken to carry out various minor changes in the rules.

The fees in the Rangoon College have been substantially raised. Action has also been taken to increase fees and restrict the number of free pupils in

Anglo-Vernacular schools. The question of devising further means of extending primary education in Upper Burma and of providing additional funds for the same purpose in Lower Burma is still under consideration. The matter of funds at any rate is likely to be satisfactorily settled.

The total number of schools and scholars in the province shows a substantial increase. The advance in the number of schools was confined to private institutions, but the improvement in respect of the number of pupils was shared almost equally by public and private schools. Except as regards the number of primary schools, which has shown a backward tendency for several years past, the statistics give evidence of satisfactory progress.

Fees have increased and a further advance is anticipated next year when the enhancements recently sanctioned will have come into force. More money was spent on primary education both from Provincial and from Local Funds. On the other hand the increased cost of secondary education, so far as it was not met by fees, was provided for the most part by enhanced contributions from "other sources." Provincial revenues furnished only a small part of the increase while the expenditure from Local Funds declined considerably.

Six B.A. degrees were obtained as compared with two in the previous year. The results of the F.A. and Entrance examinations show a disappointing decline, compensated to some extent by a very substantial improvement in the number of Middle school and Primary passes.

The Reformatory school at Insein was transferred to the charge of the Education Department, with effect from the 1st April 1900, and a report has been submitted by the Superintendent. The report contains nothing of special interest.

Proposals have been submitted to the Government of India for the transfer of the management of the Rangoon College from the Educational Syndicate to the Education Department.

REPORT

ON

THE ADMINISTRATION OF BURMA

FOR THE YEAR 1900-1901.

[NOTE.—In the Burma Administration Report for 1892-93 the following subjects have been treated in permanent form for reference :—

	Pages.
Physical features of the country, area, climate, and chief staples.	3—6
Historical summary	7—10
Form of administration	10—12
Character of land tenures, system of survey and settlement	13—20
Civil divisions of British territory	20—22
Details of last census, tribes, and languages	22—25
Legislative authority	43
General system of public instruction	120—125
Literary societies	129
Ecclesiastical jurisdiction	132

In accordance with the orders of the Government of India these chapters are not reproduced in this report.]

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

Changes in the Administration.

THE HON'BLE SIR FREDERIC FRYER, K.C.S.I., held charge of the administration throughout the period under review.

The number of divisions and districts remained the same as last year. The boundaries of the Mandalay and Ruby Mines districts were altered by the transfer from the former to the latter of all that portion of the Singu forest reserve which lies north of the watershed of the Chaunggyi stream and by the transfer of the Upper Madaya reserve from the Ruby Mines to the Mandalay district. The Ramree subdivision of the Kyaukpyu district, in which there had been no Subdivisional Officer for many years, was abolished for revenue and criminal purposes, and the whole district was divided into five townships without affecting the boundaries.

The subdivisions and townships of the Mergui district were re-distributed by the transfer of the Yè-e circle from the Lenya township to the Mergui township and by placing the Lenya township under the Subdivisional Officer, Mergui. All the southern portion of the Apyauk island of the Apyauk circle, Zalun township, Henzada district, called Pawthit island, together with a portion of the Yèlè *kwin* of the same circle, was transferred to the Thayaing circle of the Danubyu township, Thôngwa district. The Möng Lāng and Möng Mit townships of the Ruby Mines district were formed into one township, called the Möng Mit township. The Meiktila headquarters township and the Meiktila township were formed into one township called the Meiktila township with headquarters at Meiktila.

The Pyinmana and Kyidaunggan townships of the Yamèthin district were amalgamated into one township and called the Pyinmana township, with headquarters at Pyinmana. The Letpadan and Kyauksin circles were transferred from the Tigyaing township of the Katha district to the Indaw township, and the Kuntôn, Shwegyaung, Thapangaing, and Kunbaung circles, with the exception of the village of Gahè, were also transferred from the Indaw township to the Tigyaing township. The Laka circle was transferred from the Pinlèbu to the Kawlin township of the Katha district and the Bigwè hamlet was transferred from the Myodwin circle to the Kunhnitywa circle of the Gyobingauk township, Tharrawaddy district.

Relations with Tributary States and Frontier Affairs.

Southern Shan States.

2. The report of the year's administration in the Southern Shan States is one of general progress, unmarked by internal or external friction. The principal event was the taking of the census, which was carried out punctually and effectively. Regular communication was established by means of *dâk*-runners between the Assistant Political Officer, Kēngtūng, and the French officials at Möng Hseng and with the Consul at Ssumao. Disturbances in the trans-frontier State of Kēnghūng, which proved an obstacle to trade with Ssumao, are said to have now been put down by the Chinese officials. Four Chiefs died during the year, of whom two, the *Ngwegunhmu* of Pangmi and the *Myoza* of Namhkôk, are especially to be regretted.

Administration of justice.

3. The Shan States Civil Justice Order came into force on the 16th May 1900, and a subsidiary Order on the 30th January 1901. Thirty-three suits were instituted in the Court of the Assistant Superintendent at Taunggyi during the latter part of the year. The return of violent crimes fell from 48 to 40 and of cattle-thefts from 139 to 113. Cattle-theft by raiders was, however, more common in Kēngtūng than the statistics indicate. Measures for the suppression of cattle-theft were vigorously taken by the people themselves. The practice of carrying arms at public gatherings has almost died out. The working of the police was good and service in the force is popular.

Revenue and general.

4. The tribute demand was unchanged, and the payments were made with commendable punctuality. In the case of a few States it was found necessary to issue orders prohibiting unauthorized and oppressive imposts. The crops on the whole were good and the food-supply ample. Trade was unusually brisk. The Lieutenant-Governor held a darbar at Taunggyi on the 27th March, which was attended by 41 Chiefs of the Southern Shan States as well as the *Sawbwa* of South Hsenwi in the Northern Shan States. The census returns show a total population of 819,474, of which 404,570 are males and 414,904 females. Vaccination is still very backward, but steps are now being taken to increase the staff in the Myelat. Great progress was made in road and bridge-making. Remissions of tribute to the extent of Rs. 9,800 were granted on account of works of utility. A number of new bazaars were built. A site was fixed upon experimentally in the Loilem circle for the headquarters of the Eastern division, the present headquarters Bampôn being no longer suitable.

Northern Shan States.

5. The most important feature of the year's administration of the Northern Shan States, excepting the census, was the settlement of outstanding disputes between the border inhabitants of North Hsenwi and Chinese Shan State of Chefang. The erection of permanent boundary pillars along the demarcated frontier in the Shweli valley was completed during the year. The administration of Tawngpeng was successful, the year having been prosperous and tranquil. Crime was light. The Chief of North Hsenwi showed little energy, and his son has proved an obstacle to good government. Progress was made in road-making and in the construction of the bridge over the Namtu at Hsenwi. A serious crime occurred in which four Chinamen were murdered in supposed retaliation for the murder of three Palaungs. The Möngpaw (Kachin) circle decided on submission, and their headmen, who were imprisoned last year, were released. The system of collecting tribute from the Kachins through the *Sawbwa's* officials has proved a success. Though the year was prosperous in South Hsenwi the *Sawbwa's* administration of this State was not altogether satisfactory. Little progress was made in the construction of roads; gambling and cattle-theft were reported to be on the increase and unauthorized collections of money were made for various objects. A local dispute between the sub-States of Ngekting and Manghseng caused some disturbance in Manglün, but the quarrel was patched up. Crops were good and crime was not heavy.

Hsipaw.

6. The presence of the *Sawbwa* for the greater part of the year resulted in an improvement in the administration of the Hsipaw State. A satisfactory feature of the year's record was

the punishment of certain high officials for malpractices with regard to the revenue. The revenue again increased, the actual excess over the previous year being about Rs. 15,000. Expenditure rose from Rs. 3,16,591 to Rs. 3,60,644, principally under the heads "Government dues," heavy arrears of which were finally paid off, "Establishments," and "Pensions." The expenditure on public works also increased by Rs. 5,468. A remission of tribute amounting to Rs. 25,000 was granted on account of works of public utility. The tribute was paid punctually, but the salaries of officials were again allowed to fall into arrears. The profit on the sale of opium, which has become in a sense a State monopoly, was Rs. 24,425. The accounts and finances of the State were placed on a more satisfactory footing. Crime was again small and cattle-theft was kept under. The administration of the sub-States was satisfactory, more especially in Mönglong and Hsumhsai.

General.

7. The census figures of the Northern Shan States show a total population of 319,645. Complete records were made of various matters of interest regarding Hsipaw and South Hsenwi and partial records in the other States. Trade with Burma, both import and export, increased in volume. Progress was made with the preparation of the general scheme of feeder roads in connection with the railway. Five reserved forests were demarcated during the year. The health of the people was good, but the attendance at the dispensaries is still less than it should be. The number of persons vaccinated increased considerably, but the proportion of successful vaccination was still far from satisfactory. There was an epidemic of small-pox in Hsipaw.

States under the control of Commissioners.

8. Möng Mit continued to be administered as a subdivision of the Ruby Mines district. Actual receipts and expenditure were about one lakh. The Kachin population is said to be increasing largely and to be well behaved. Crime was light throughout the State. The *Sawbwa* of Hsawnghsup was presented with his *sanad* of appointment and his son was recognized as heir to the *Sawbwa*-ship. The son of the deceased *Sawbwa,* who intrigued for the succession, is dead and tranquillity has now been assured. The year was prosperous and population is on the increase. On the borders of Singkaling Hkamti the Kachins appear to have the upper hand. A demand for a house-tax was at once resented by them and withdrawn, and they refused to be enumerated at the census.

The Chin Hills.

9. In the Chin Hills proper the year passed without untoward events. There were no raids on the Burma districts and the internal relations of the tribes were peaceful.

The boundary between the Lushai and Chin Hills was satisfactorily determined during the year.

The subject of disarmament was further discussed and the date before which unlicensed guns must be brought in to be stamped was left undetermined. During the open season no action was taken with reference to the unadministered tract lying between the Chin Hills, Lushai-land, and the Arakan Hill Tracts. Except in the case of the raid on Shikruit from Khrum, tribesmen beyond the pale kept the peace and gave no cause for interference.

The Chins showed more inclination to take advantage of the medical services provided by Government. Other indications of increased confidence on the part of the Chins were seen in the facility with which labour was obtained for road work and for the transport of supplies and in the increased number of disputes submitted for settlement to the Government officers. The tribute due was collected punctually.

The Peya Chins beyond the administrative border of the Upper Chindwin district continued to steal cattle from villages near the Chindwin and, as demands for restitution were not complied with, the local officers recommended a punitive expedition. The Lieutenant-Governor did not consider that such an extreme measure need be adopted, but ordered that a blockade should be instituted against this tribe. The Chindwin border was otherwise peaceful during the year and trade is reported to be steadily increasing.

Tribute.

10. The amount collected as tribute was Rs. 31,355 as compared with Rs. 27,729 in the previous year, the increase being chiefly in the Bhamo district, where the year was a prosperous one.

Much opium continued to be smuggled into Burma from China. The subject of frontier roads received much attention.

Pakôkku Chin Hills.

11. The only event of special importance in the Pakôkku Chin Hills was a murderous raid committed by a party of Chins from Khrum beyond the border on a tribute-paying village. A force of military police was sent to Khrum and inflicted punishment, but the leader of the raid was not arrested. Mindat-Sakan continued to be the head-quarters of the Assistant Superintendent.

The Kachin Hills.

12. Apart from minor Kachin forays the frontier continued undisturbed throughout the year. The regular annual tours in the Kachin hills of Myitkyina, Bhamo, and Katha districts were uneventful. Besides the ordinary business of settling disputes, collecting tribute, and road-making, the census of the Hill tracts was successfully carried out. Sixteen violent crimes were committed in the hill tracts of Myitkyina and in no less than eight of these the offenders were Chinese or persons who took refuge across the administrative border. There were also four violent crimes in the Bhamo hills, and a serious blood feud was started between a trans-frontier Kachin village in the Chinese Shan State of Möngwan and an Atsi Kachin village in Bhamo.

II.—ADMINISTRATION OF THE LAND.

Surveys, Settlements, and Waste-lands.

Demarcation and survey.

13. In Sandoway 77 *kwins* measuring 53 square miles, and in Kyaukpyu 154 *kwins* measuring 175 square miles were demarcated prior to survey. Demarcation work was finished in the Lower Chindwin district by June 1900, and in Pakôkku between September 1900 and June 1901; 399 square miles in the Yesagyo township, and 65 square miles in the Pakôkku township were demarcated. A traverse detachment of No. 7 Party of the Survey of India completed 105 square miles in the Sandoway district at an approximate cost of Rs. 35,717, and in Toungoo an area of 7 square miles omitted from the original survey was traversed and cadastrally surveyed by a small extra staff. In the Lower Chindwin district 340 *kwins* containing 650 square miles were traversed in advance of cadastral survey at a cost of Rs. 21,905, and 502 *kwins* containing 800 square miles were cadastrally surveyed at a cost of Rs. 53,264. A survey of the Mandalay Cantonment was completed at a cost of Rs. 568. In Bassein narrow strips of cultivation fringing the area under supplementary survey in the Ngaputaw township and measuring in all 22·36 square miles with an occupied area of 6,093 acres were surveyed at a cost of Rs. 809. During the year revisions of survey were carried out in the Akyab, Kyaukpyu, Tharrawaddy, Prome, Myaungmya, Thôngwa, Bassein, Thayetmyo and Mandalay districts over a total area of about 700 square miles. The work of local parties was satisfactory in most districts, but failed in Myaungmya. The area still requiring re-survey is reported to be 2,884 square miles, of which 163 square miles lie in the Kyauksè, Sagaing and Mandalay districts. In Thôngwa 1,600 square miles, in Myaungmya 379 square miles, in Pegu 437 square miles and in Hanthawaddy 163 square miles are said to need re-survey. The demarcation of fisheries in Tharrawaddy was completed on the 25th June 1901. In Pegu the demarcation and survey of 108 fisheries were taken in hand, but up to the end of April only 74 fisheries were surveyed. The accretions on the west bank of the Sittang to the east of the Yitkangyi fuel reserve were surveyed and the cost (Rs. 1,338) paid by the Forest Department. Special staffs were employed in the survey of *potta* grant lands in 12 districts in Lower Burma. The largest areas dealt with were in the Hanthawaddy (15,962 acres), Pegu (50,894 acres) and Myaungmya (11,382 acres excluding 218 *pottas* with an area of 3,079 acres surveyed by the Land Records staff) districts. In Katha the ordinary supplementary survey staff surveyed 234 *pottas* within and outside of the surveyed tract to the extent of 1,384 acres.

Settlements.

14. During the year regular original settlement operations were in progress in the Thayetmyo, Pegu, Magwe and Shwebo districts. The Myingyan summary settlement was completed and progress was made in Yamèthin. Revision settlements were carried on in Tharrawaddy, Prome and Henzada. The year also saw the introduction of original settlement or revised settlement rates in Hanthawaddy, Pegu, Toungoo, Bassein, Myaungmya and Meiktila districts, while the direct system of assessment on non-State land was started in Mandalay and Kyauksè. The new rates produced a large increase in the Lower Burma districts, while in Upper Burma, in consequence of favourable agricultural conditions, the new system of assessment brought in considerable enhancements. It is not, however, expected that taking one year with another in Upper Burma the new system will produce much more than the old.

Supplementary survey.

15. In Lower Burma the area under supplementary survey increased from 23,860 square miles to 24,926 square miles. The greater part of the increase, 811 square miles, was the result of settlement in the Toungoo district. The increase of 136 square miles in

the Myaungmya district was due to the operations of the local survey party. In Minbu 156 square miles in the Ngapè and Sidôktaya townships were summarily settled in 1899-1900 and land revenue rates were imposed in 1900-1901. In Katha 192 square miles were holding-marked in the Pinlèbu, Katha and Tigyaing townships and thus brought under supplementary survey. In Meiktila 42 square miles were converted into forest reserve and excluded from supplementary survey. The cost of supplementary survey in Lower Burma though rising is still moderate. The cost per square mile of total area for the year was Rs. 24-0-6 as compared with Rs. 24-3-2 in 1899-1900. In Upper Burma the cost per square mile rose by nearly Rs. 3 to Rs. 29-11-4 or by over 25 per cent. since 1898-99. The possibility of simplifying the operations and thereby reducing the cost is again under consideration. There was a falling off in inspections by District Officers due to the census taking place in the middle of the field season. The inspection work performed by the Land Records staff showed an increase as compared with the amount performed last year.

Survey schools.

16. There are now 21 Government schools in the province, a new school having been opened at Katha. The school at Shwebo was transferred at the close of the year to Mônywa, where it was needed for the requirements of the Lower and Upper Chindwin districts. The total number of students on the rolls of the schools on the 31st March 1901 was 538. The average number on the rolls monthly during the year, and the average daily attendance were respectively 24 and 21. The number of candidates who presented themselves for the Syndicate examination in surveying was 411, out of whom 296 or 72 per cent. passed. In Revenue Law and Arithmetic only 58 and 93 pupils respectively qualified from Government Survey schools, out of 379 and 396 respectively who were examined. The number of passed survey students who obtained employment in the public service during the year was 106. The total cost of the schools including scholarships amounted to Rs. 44,376, while the total income from fees and other sources came to Rs. 7,161.

Transfer of land.

17. In Lower Burma the total area transferred by sale was 413,432 acres against 381,267 in the previous year. The area mortgaged during the year rose from 168,431 acres to 225,551 acres, and the area redeemed increased from 111,063 acres to 156,517 acres. The total acreage under mortgage was 504,917 acres against 421,615 acres in 1899-1900. In Myaungmya the area mortgaged was more than twice as great as that of last year. This large increase is attributed to the want of capital for developing the land in Wakèma and to floods in Pantanaw, where more than half the area affected was mortgaged to money-lenders and traders. In Bassein non-agriculturists have acquired a greater hold over the land, and in Thôngwa large areas in the Dedayè and Kyaiklat townships are also passing into the hands of non-agriculturists. In Tavoy the area mortgaged rose from 624 acres to 2,203 acres. The increase is said to be due to the want of money to buy cattle and seed after last year's poor crop. In Mandalay there was an increase in the area of non-State land sold and a considerable decrease in the sales of State land. The area of State land mortgaged was double that of last year and the area of non-State land mortgaged was five times as large. In Kyauksè out of 2,437 acres sold 2,303 acres were State land. In Meiktila and Minbu sales are uncommon. In Meiktila 69,108 acres were under mortgage at the end of the year, but the amount of land under mortgage compared with the total under occupation was less than in the previous year. In Minbu 21 per cent. of the total areas occupied is said to be mortgaged.

Tenancies.

18. The area worked by tenants in Lower Burma was 1,715,514 acres as compared with 1,560,942 acres in the preceding year. In the Pegu division, notably in the Prome and Tharrawaddy districts, there was a marked increase in the number of tenants and the area rented due in great measure to the excellent season and the consequent large areas brought under cultivation. In the Irrawaddy division, chiefly in Myaungmya, the number of tenants and the area rented also increased. There was a large increase in the area sublet in Tavoy partly due to a number of *taungya*-cutters turning to permanent cultivation. In Mandalay an area of 191 acres of

State land was let at an average rent of Rs. 8·34, and an area of 3,619 acres of non-State land at an average rent of Rs. 6·78 per acre. In Kyauksè the number of State land sub-tenants fell, from 389 to 245 owing to restrictions imposed on sub-letting. The average money rent per acre fell, due to the difference in the price of paddy at which the produce rents were calculated. The number of rent suits brought by landlords against tenants fell from 460 to 360. The decrease may be ascribed to the generally good harvest. Tenants brought more suits against their landlords. The total number of suits fell in the Arakan and Pegu divisions and rose in the Tenasserim division.

Grants and leases of land for cultivation.

19. The area of land granted or leased for cultivation decreased from 78,295 acres in 1899-1900 to 52,154 in 1900-1901 or by 33 per cent. The decrease was common to both the Upper and the Lower Province. All the districts of the Pegu division and, with the unimportant exception of Salween, all those under the Commissioner of Tenasserim participated in the decrease which was largest in Hanthawaddy (6,977 acres) and in Thatôn (6,399 acres). In Lower Burma there were advances in Akyab, Kyaukpyu, Thôngwa, Bassein and Salween. Pending cases were very numerous in the Pegu (4,314) and Myaungmya (1,443) districts. Of the cases remaining for disposal at the close of the year in Pegu 1,900 had been pending for over a year. Sanction for the entertainment of a large special establishment under a special officer has recently been applied for. In Upper Burma nearly half the area leased was in Katha and Shwebo. In the latter district the Financial Commissioner discovered during his inspection tour that all State land occupiers had been forced to take out leases although obviously the land leased to them was not the waste-land to which alone the rules regarding leases apply. Spontaneous applications for leases in Upper Burma are uncommon and the question of abolishing leases is now under consideration.

III.—PROTECTION.

Legislation.

20. Two Acts passed by the Council of His Honour the Lieutenant-Governor of Burma became law during the year 1900, namely, Act I (The Rangoon Water-works Act Amendment Act, 1900) and Act II (The Burma Vaccination Law Amendment Act, 1900). These Acts have been described in the Administration Report of the preceding year during which they had been introduced before the Council.

During the year 1900 several other Bills were under the consideration of the Local Government; of these three were introduced in Council towards the close of the year 1900 and one at the beginning of 1901, and have since become law, namely,—

I.—The Burma Military Police Act Amendment Bill.
II.—The (Lower) Burma Land and Revenue Act Amendment Bill.
III.—The Burma Towns Law Amendment Bill.
IV.—The Lower Burma Courts Act Amendment Bill.

The Burma Military Police Act Amendment Bill.

21. The Bill to amend the Burma Military Police Act, 1887, makes provision for the arrest of military police officers without warrant for certain offences and for their confinement in the quarter-guard. Under Article 100 of the Indian Articles of War (Act V of 1869), persons subject to those articles who are accused of offences may be arrested and kept in custody under the orders of their superior officers. As the Military Police is organized on military lines, it had previously been assumed by officers of Military Police in Burma that a similar procedure was applicable to military policemen and it has been customary to arrest without warrant and confine in the quarter-guard men accused of offences under sections 6 and 7 of the Burma Military Police Act or section 29 of the Police Act, V of 1861. Doubts were, however, raised as to the legality of this practice, and the present Bill was accordingly prepared to expressly confer these powers, as the Military Police are scattered over the country in numerous isolated posts and the Local Government considered it essential to the proper maintenance of discipline that officers in command should have the power of arresting military policemen on the spot. To deprive them of this power would deal a severe blow to discipline and would impair the efficiency of the force.

The (Lower) Burma Land and Revenue Act Amendment Bill.

22. The Bill to amend the (Lower) Burma Land and Revenue Act, 1876, makes it clear that it is penal for a licensed salt manufacturer to use a cauldron larger than that permitted by his license. The Bill was introduced in consequence of a decision by the Judicial Commissioner of Lower Burma that, though section 30 prohibited the manufacture of salt without a license, it did not render it penal to use cauldrons exceeding the capacity stated in the license.

The Burma Towns Law Amendment Bill.

23. The Burma Towns Law Amendment Bill amended the Lower Burma Towns Act, 1892, and the Upper Burma Towns Regulation, 1891, by inserting in section 5 of these enactments a clause imposing an obligation on headmen of wards to collect and furnish supplies and transport for troops and police in or near towns. Similar provisions in favour of Government officers generally appear in clause (*g*) of section 5 of the Upper Burma Village Regulation, 1887, and in the Lower Burma Village Act, 1889. The above Town enactments had originally been drafted on the same lines as these village enactments, but the clauses authorising Government officers to impress supplies and transport were omitted, as it was considered that special legislation was not required for that

purpose. Executive orders, however, proved insufficient, and experience has shown that a statutory obligation is necessary. In order that this obligation may not prove unduly burdensome on the people, the Bill creates it only in respect of supplies and transport required for troops and police, other officials being left as heretofore to make their own arrangements.

The Lower Burma Courts Act Amendment Bill.

24. The reason for the introduction of the Bill to amend the Lower Burma Courts Act, 1900, and the important provision contained in the Bill are explained in the following extract from the Statement of Objects and Reasons of the Bill:—

"The object of this Bill is to provide that all classes of criminal appeals, which under the provisions of the Code of Criminal Procedure lie to a Court of Session, shall in Rangoon Town lie to the Chief Court. Under section 45 of the Lower Burma Courts Act, 1889, the Court of the Recorder was constituted the Court of Session for the area within the Civil jurisdiction of the Recorder which was constituted a Sessions Division. When a Chief Court was about to be constituted for Lower Burma, it was intended that the Chief Court should exercise the jurisdiction which had been exercised by the Court of the Recorder in this respect. A provision was accordingly inserted in the first draft of the Burma Courts Bill, 1900, that the Chief Court should be the Court of Session for the Rangoon Town. In consequence of certain difficulties that provision was subsequently omitted. The Bill was altered and merely provided that Magistrates in the Rangoon Town, when committing prisoners for trial, should commit them to the Chief Court. The Rangoon Town then, by virtue of a notification under section 7 of the Code of Criminal Procedure, ceased to be a Sessions Division. It escaped attention at the time that the Bill so framed failed to make any provision for the hearing of appeals which under the Criminal Procedure Code lie to the Court of Session. The present Bill has accordingly been framed so as to provide that all appeals which now lie to the Court of Session from Rangoon Courts shall lie to the Chief Court."

The following Acts affecting Burma were passed by the Governor-General in Council during the year:—

I.—An Act to amend the Indian Articles of War.
[The Indian Articles of War Amendment Act, 1900.]

II.—An Act to amend the transfer of Property Act, 1882.
[The Transfer of Property Act, 1900.]

III.—An Act to consolidate the Law relating to Prisoners confined by Order of a Court.
[The Prisoners Act, 1900.]

IV.—An Act to authorize certain Companies registered under the Indian Companies Act, 1882, to keep Branch Registers of their Members in the United Kingdom.
[The Indian Companies (Branch Registers) Act, 1900.]

V.—An Act to further amend the Whipping Act, 1864.
[The Whipping Act, 1900.]

VI.—An Act to consolidate and amend the Law relating to the Courts in Lower Burma.
[The Lower Burma Courts Act, 1900.]

VII.—An Act to amend and provide for the further continuance of the Currency Conversion (Army Annual) Act, 1899.

VIII.—An Act to amend the Indian Paper Currency Act, 1882, as amended by the Indian Paper Currency Act, 1898.
[The Indian Paper Currency Act, 1900.]

X.—An Act to provide for certain matters in connection with the taking of the Census.
[The Indian Census Act, 1900.]

XI.—An Act further to amend the Indian Limitation Act, 1877.
[The Indian Limitation Amendment Act, 1900.]

XII.—An Act to amend the Law of Evidence with respect to Bankers' Books.
[The Bankers' Books Evidence Act, 1900.]

The following Regulations applying to Upper Burma were enacted during the year :—

IV.—A Regulation to amend the Upper Burma Land and Revenue Regulation, 1889.

[The Upper Burma Land and Revenue Regulation Amendment Regulation, 1900.]

VIII.—A Regulation to amend the Upper Burma Civil Courts Regulation, 1896.

[The Upper Burma Civil Courts Regulation (1896) Amendment Regulation, 1900.]

Enactments extended to Shan States.

25. Certain sections of the Opium Act, 1878, were extended with certain modification to the Myelat, to the Taunggyi civil station in the Southern Shan States, and to the Lashio civil station in the Northern Shan States.

By the Shan States Civil Justice Order, 1900, which was made under the Burma Laws Act, 1898, certain officers were appointed to exercise, amongst other powers, a general control over the administration of Civil Justice in the Shan States and a procedure was provided for the disposal of civil suits within those States.

Police.

General observations.

26. Cognizable crime on the whole decreased considerably. The conduct of the civil police in most districts was satisfactory and there is reason to believe that the force has generally increased in efficiency. The large force of military police was maintained in a state of efficiency. They continue to perform valuable work especially in the outlying districts, and their relations with the people of the province were entirely satisfactory.

Constitution and cost of the force.

27. The sanctioned establishment of the civil police was almost the same as in the previous year, the only material change being in the Railway Police, the strength of which was slightly augmented in consequence of extensions of the open line and increase of passenger traffic. The higher grades of Police officers were revised, the pay of the Deputy Inspector-General was increased and concessions in respect of officiating allowances were granted to Inspectors on the A list. In consequence of these much-needed improvements in the position and prospects of Police officers, the cost of the force was 1 per cent. more than in 1899.

Recruiting and conduct of the men.

28. The conduct and discipline of the force, judged by the number of dismissals and desertions, were less favourable than in the previous year, but it is explained that the apparent increase in the number of dismissals is to some extent due to more accurate returns.

Recruiting was more successful and the force of the province was only about 3 per cent. below strength at the close of the year. The enquiry held into certain charges against a native Inspector in the Thôngwa district brought to light much corruption among the subordinate police. Groundless charges supported by false witnesses are alleged to have been brought in several cases. The victims were released by order of the Local Government and the policemen who are alleged to have been implicated were prosecuted and convicted. In most districts the behaviour of the police and their relations with the people are reported to be satisfactory.

Training and education of the force.

29. The proportion of illiterate members of the force fell from 18·17 to 16·96 per cent. There was a great improvement in the Ruby Mines and Shwebo districts and a striking deterioration in Yamèthin. In Mandalay also there was a falling off owing to the increase in the Indian element in the Town Police. The training of old constables and recruits was conducted with generally favourable results except in the Ruby Mines and Mergui districts, where a large majority of those under training failed to qualify, and in Mandalay, where less than a third of the recruits succeeded in passing from the depôt. The bad results in Mergui and

Mandalay are perhaps due to the high proportion of illiterate men among the constables. The subject of providing proper accommodation for the families of recruits at the depôts or of paying a small allowance to cover the extra expense incurred during the period of training is under consideration.

Buildings.

30. Police-station and outpost buildings are generally in good order, but complaints are still made of the accommodation provided for policemen and their families. Considerable improvement was affected in some districts during the year of report and general proposals are now under consideration for erecting at outstations semi-permanent barracks which have hitherto been provided at few stations except district headquarters.

The process of disarming the civil police except at stations which are thoroughly defensible was continued and only 3,418 officers and men out of 12,392, the aggregate number of the police force, had firearms at the close of the year.

Cognizable crime.

31. There was a large decrease in cognizable crime. Robberies and thefts of all kinds fell off, but cases of serious hurt continued to increase, and although the aggregate number of stabbing and cutting cases was less than in 1899, these crimes were still very prevalent in the Pegu and Irrawaddy divisions, where there were large increases in several districts. As these crimes are commonly due to drink, a proposal to make offences under section 510 of the Indian Penal Code triable by village headmen, so that drunken brawlers may be put under restraint before they have time to commit acts of violence, has recently been accepted in the Pegu division. The offence of maiming cattle is still common in many districts, especially in Bassein, Henzada, Hanthawaddy and Magwe. It appears probable, however, that the maiming is frequently caused by owners of fields who find cattle damaging their crops. There was a decrease in ordinary thefts, the most marked improvement being in the Tharrawaddy district, where the measures taken for the suppression of cattle-theft have checked the activity of ordinary thieves as well. In Henzada, although detection was fair and the preventive sections were successfully worked, minor offences against property were still very numerous. While on the average detection of crime met with about the same measure of success as in the previous year, there was a great falling off in several districts, notably in Sagaing and Bassein. In Pegu and Hanthawaddy also, where the failure of the police attracted notice in the previous year, the results were again very unfavourable. The results in Mandalay district were very creditable to the police.

Dacoities and robberies.

32. Violent crime continued to decrease. Exclusive of simple murders and cognate offences and cases of housebreaking, the aggregate number of violent crimes for the whole province was only 310 as compared with 336 in 1899. The improvement was very noteworthy in Tharrawaddy, which has now yielded to Hanthawaddy the position it so long held as the district most harassed by crimes of violence. Detection of violent crime was, however, generally poorer than in the preceding year, the action of the police in this respect being on the whole least successful in the Pegu district, where only 29 per cent. of the true cases dealt with ended in conviction. It is clear that to maintain the improvement indicated by the falling off in crime, a considerable growth of detective ability and industry is required. The comparative failure of the police in detecting violent crime resulted mainly from the action of the superior police officers in leaving the earlier stages of the investigation in the hands of inefficient subordinates without proper direction or guidance.

Relations of the force with villagers.

33. Relations between the police and villagers were on the whole satisfactory. While many villages were fined for collusion with or failure to resist robbers, there were several instances of conspicuous bravery, and material assistance was frequently rendered to the police by headmen and villagers, who were suitably rewarded.

Cattle-theft.

34. Marked success was attained in the suppression of cattle-theft. The decrease was common to most districts in which this form of crime was rife, but it was most remark-

able in Tharrawaddy and Magwe, where the statistics indicate that the Police and Magistrates have at length obtained the upper hand of the cattle-thieves. The principal measures adopted in Tharrawaddy were the rigid enforcement of the village law and the systematic application of the preventive sections of the Code of Criminal Procedure. The fencing of villages and the maintenance of night watches were insisted on; headmen were required to keep a strict watch on arrivals and departures of strangers; owners were persuaded to put their cattle to graze only under competent herdsmen, and liberal rewards were given for information. The habits and movements of bad characters have also been closely watched. The year's record was marred by a large increase in cattle-thefts in Amherst. Among the delta districts Thôngwa and Myaungmya suffered less than any others from cattle-theft, an immunity which was not shared by Hanthawaddy, where the conditions are very similar. Detection in Thôngwa and Myaungmya was also much better than in the other delta districts.

Preventive provisions.

35. There were fewer prosecutions under the preventive sections of the Code of Criminal Procedure, and the proportion of convictions was slightly lower than in 1899. The largest number of prosecutions in any one district was in Tharrawaddy, where also the statistics indicate that proceedings were generally taken against the right men. The systematic application of the preventive sections played an important part in the reduction of cattle-theft in this district. Village headmen of their own accord brought forward suspects. In the Paungdè subdivision of the Prome district, now the worst tract in Burma for cattle-theft, the working of the preventive law left much to be desired. Bad livelihood prosecutions were generally more successful when they were held in or near the villages to which the suspects belonged. The number of criminals under police surveillance increased.

Beat patrols were generally the subject of favourable report. Somewhat fewer cases were brought to light by individual constables and the differences in this respect between adjoining districts (*e.g.*, Bassein and Myaungmya) are so remarkable as to suggest variations of method.

The police were not less successful than usual in identifying previous offenders. The most striking exception was in the Thatôn district, where it was left to the jail authorities to identify two prisoners, who had no less than three previous convictions each. The system of finger-print identifications is now in working order and the results so far fulfil expectations.

Railway Police.

36. The strength of the Railway Police was slightly raised. The conduct of the force was satisfactory, but although cognizable crime along the railway line on the whole continued to fall off, the police were less successful in dealing with it than in the previous year. Large seizures of opium were made and the prosecutions in these cases were very successful. The number of thefts from passengers again decreased and there were no serious attempts at derailment.

Strength and constitution of the Military Police.

37. The strength of the Military Police was increased by three Gurkha companies, which took over four posts in the Southern Shan States previously garrisoned by regular troops. The Karen Battalion was merged in the Chindwin Battalion and a new battalion was formed, with headquarters at Shwebo, consisting of companies transferred from the Chindwin and Bhamo Battalions. There was no difficulty in recruiting and the force, on the 1st January 1901, numbered 15,075 officers and men, or only 199 below the sanctioned strength.

Conduct and health of the force.

38. The conduct of the force was satisfactory. The health statistics show a considerable improvement on the previous year. There were fewer deaths, fewer men were invalided, and there was a large decrease in admissions to hospital. The men of the Chin Hills Battalion in particular seem to stand the climate well, but sickness continues to be very prevalent in the Myitkyina, Bhamo and Ruby Mines Battalions. Detachments of the Myitkyina Battalion were engaged in action against the Was in the Northern Shan States and against Chinese interlopers on the North-Eastern Frontier in February 1900. On both occasions the behaviour of the men was excellent. A mixed detachment of Kachins and Indians of the Bhamo Battalion

also saw active service when acting as an escort with the Burma-China Boundary Commission, and special praise was earned by the Kachin sepoys for their conduct. The disarmament operations in the Chin Hills was carried out peacefully with the assistance of the Chin Hills Battalion.

Rangoon Town Police.

Rangoon Town Police.

39. The statistics of the year show substantial progress in the administration of the force and in the surveillance of criminals. The conduct of the force was good. Dismissals for misconduct and resignations fell off, while there was a large increase of departmental rewards. At the close of the year the force was only seven below the sanctioned strength.

Serious crime diminished. There were no dacoities, and firearms were used in only one of the six robbery cases. These cases were on the whole successfully dealt with. In ordinary thefts, including thefts of rice and paddy in the harbour, the decrease was very marked, and this is no doubt correctly attributed to the additional powers of arrest conferred by the Rangoon Police Act. It affords also good evidence that the important duty of night patrolling is not neglected.

It is noteworthy that, in spite of the improvement in the working of the police, cases of grievous hurt and hurt by a dangerous weapon largely increased. The offenders in these cases as a rule do not belong to the regular criminal classes.

Criminal Justice.

Chief Court.

40. The chief event of the year was the constitution of the Chief Court in April 1900. No change of system affecting the Criminal Courts has been introduced, but the establishment of a single strong High Court for Lower Burma and Rangoon is a decided improvement.

Offences reported.

41. The total number of cases instituted during the year was 74,572 as compared with 77,856 in 1899. This large decrease is mainly accounted for by a falling off in the number of Police and Municipal prosecutions in Rangoon and Mandalay. There were, however, substantial decreases in Akyab, Kyaukpyu, Thatôn, and Toungoo districts, while there were considerable increases in Amherst and Thôngwa.

True and false cases.

42. Sixty-nine thousand three hundred and seventy-eight cases were returned as compared with 72,975 in 1899. The percentage of true to reported offences fell slightly in both sections of the province. In Lower Burma it was lowest in Toungoo (75·95) and Akyab (80·95). In Upper Burma the classification of cases declared false or mistaken is reported to be defective and no useful inference can be drawn from the figures which show the percentage of true to instituted cases as having fallen from 89·94 to 87·51. Of the 54,053 cases returned as true in Lower Burma, 24,096 consisted of offences under the Indian Penal Code as compared with 24,109 in 1899 and 29,957 under Special and Local Laws as compared with 32,373 in 1899.

Disposal of cases.

43. The effective strength of the magistracy changed but little during the year. The number of cases tried by Magistrates of all classes rose in Lower Burma from 38,131 to 53,976 and fell in Upper Burma from 17,297 to 16,500. The number of cases tried by District Magistrates rose by 62 in Lower Burma and fell by 117 in Upper Burma.

In Lower Burma the number of cases tried by District Magistrates under their special powers increased from 650 to 738 and declined in Upper Burma from 317 to 268.

The work done by Honorary Magistrates including Benches and Special Magistrates decreased considerably in both sections of the province, owing chiefly to the large falling off in Rangoon and Mandalay.

The average duration of cases in Lower Burma was eight days and has slightly improved. It was highest in Tavoy (20) and Myaungmya (15). In Upper Burma the average duration was seven days against six days in 1899.

Proportion of convictions.

44. The percentage of convictions in Lower Burma was 62·56, a proportion slightly higher than the percentage in 1899 (62·03). It was highest in Tharrawaddy (68·95) and lowest in Tavoy (51·76). In Upper Burma the percentage dropped from 69·94 in 1899 to 68·43. This slight fall is probably due to the large decrease of petty cases in Mandalay, as the percentage of convictions in all other districts is 64 as compared with 63 in the previous year.

The preventive sections.

45. The number of persons proceeded against under Chapter VIII of the Ciminal Procedure Code was 4,100 or 288 fewer than in the previous year in Lower Burma and 444 or 74 less than the number shown for the Upper Province in 1899. The percentage of convictions improved slightly in both sections of the province.

Sessions Courts.

46. The total number of cases committed to the Sessions Courts of Lower Burma was 416 or 3 more than in the previous year. There were 727 persons involved as against 718 in 1899. The percentage of convictions dropped from 68·94 in the previous year to 63·88. The percentage was lowest in the Arakan and Pegu divisions, both of which exhibit a reduction on the figures for the previous year. The average duration of sessions trials was 35 days as compared with 34 in 1899. The number of cases committed to the Chief Court for trial was 25 as compared with 38 in the previous year committed to the Recorder of Rangoon. The number of persons involved was 45 as compared with 46 in the previous year. The percentage of convictions was 64·28 as compared with 55·00. The total number of capital sentences referred to the Chief Court for confirmation under section 374 of the Code of Criminal Procedure was 68. Of these 42 were confirmed, 4 reduced, 16 reversed, and 6 remained pending at the close of the year.

In Upper Burma the number of committals increased from 73 to 81 and the number of persons committed from 120 to 139. The percentage of convictions rose from 65·71 to 81·90. The average duration of cases was 42 days, the same as in the previous year, the Mandalay and Minbu divisions showing a falling off and the Sagaing division a rise from 37 to 58 days. Twenty-two sentences were referred for confirmation under section 374 of the Criminal Procedure Code, of which 18 were confirmed, three reduced, and one was pending.

Appeals.

47. The total number of appeals preferred to all Appellate Courts in Lower Burma was 4,755 as compared with 5,057 in 1899. The decrease in Appellate work has been general. In the Chief Court the number of appeals was 432 or 12 less than in 1899 in the Court of the Judicial Commissioner, Lower Burma. The total number of appeal cases disposed of by all Appellate Courts was 4,647 and the number of appellants dealt with was 5,496. The percentage of convictions and sentences confirmed was 70·28 as compared with 75·39 in 1899. The total average duration of appeals was 14 days as compared with 13 in the previous year.

In Upper Burma the total number of appeals preferred and disposed of fell from 1,330 and 1,321 to 1,226 and 1,209 respectively. Sessions Courts heard fewer appeals and District Magistrates more. Appellants were more successful than in the previous year, only 60·94 per cent. having their sentences confirmed against 64·74 per cent. in 1899. The average duration of cases was 13 as compared with 12 days in 1899.

Punishments.

48. The total number of persons in Lower Burma who were criminally punished in the Magisterial Courts was 53,497. Of these 73·25 per cent. were sentenced to fine only. Simple imprisonments fell from 0·39 to 0·29. Cases of rigorous imprisonment without solitary confinement fell from 25·14 per cent. to 17·61 per cent. and with solitary confinement added from 1·39 per cent. to 1·04 per cent. The percentage of whippings decreased in both sections of the province. The total number of persons sentenced in Lower Burma by the Sessions Courts and Chief Court was 465. Of these 44 were sentenced to death, 38 to transportation for life, and 105 to transportation for a term. The amount of fines imposed in Lower Burma during the year was Rs. 4,45,327, and the amount realised was 3,88,967. Rupees 18,700 were ordered to be paid as compensation to complainants under section 545 of the

Criminal Procedure Code. The amount of fines imposed in Upper Burma was Rs. 1,67,735 or about the same as last year. Realizations amounted to 88 per cent. The total amount paid by way of compensation fell from Rs. 14,196 to 12,532.

Of the 19,181 persons punished in Upper Burma, 82·40 per cent. were sentenced to fine only, 2·26 per cent. with fine with imprisonment, 3·26 per cent. with whipping in lieu of other punishment, ·46 with whipping in addition to other punishment, 11·98 per cent. with rigorous imprisonment without solitary confinement, ·30 per cent. with simple imprisonment, and ·85 per cent. with rigorous imprisonment, with solitary confinement. There was a large fall in the number of sentences of solitary confinement from 243 to 163.

Revisions.

49. The number of cases called for by District Magistrates in Lower Burma, including those pending from the previous year, was 4,477 as compared with 3,903 in 1899, and the number of persons concerned was 7,786 as compared with 6,885 in 1899. Further enquiry was ordered in the case of 94 persons. The cases of 449 persons were referred to the Chief Court. The number of cases called for by Sessions Judges, including those pending from the previous year, was 897 as compared with 1,017 in 1899 and the number of persons concerned was 1,934 as compared with 1,841 in 1899. Further enquiry was ordered in the case of 32 persons. The number of references made to the Chief Court under section 438 of the Criminal Procedure Code was 295. The number of persons concerned including those pending from the previous year was 676. Of these the sentences of 263 persons were confirmed, those of 13 enhanced, those of 65 reduced, and those of 220 reversed. Twenty-four cases involving 95 persons remained pending at the close of the year.

In Upper Burma 157 as against 170 cases in 1899 were referred under section 438 of the Criminal Procedure Code, but the number of persons declined from 422 to 347. One thousand one hundred and two or 231 fewer cases were called for by the High Court in revision. There was more interference in revision than in the previous year. The cases of fewer persons were enhanced, but a far greater number of persons had their sentences reduced. Sessions Judges called for 769 cases in revision as against 425 in 1899. District Magistrates, in exercise of their powers under the Criminal Justice Regulation, called for 1,875 cases compared with 1,620 in 1899 and for 1,540 otherwise than under the Regulation against 1,181.

Miscellaneous.

50. The number of juvenile offenders sent to the Reformatory School was seven for Lower Burma and the same number for Upper Burma. The number of processes issued in Upper Burma increased by nearly 3,600, but receipts from process fees declined from Rs. 14,383 to Rs. 12,952. The cost of the process-serving establishment including contingencies decreased slightly. The number of witnesses examined in Magisterial and Sessions Courts, including the Chief Court, was 192,286. In 1899 the number was 186,764. In Upper Burma the number of witnesses examined was 56,849.

Jails.

General statistics.

51. The jail population at the commencement of the year (12,960, of whom 12,831 were males and 129 females) was more than at the beginning of 1899 (12,190, of whom 12,072 were males and 118 females).

The year's admissions (26,278, of whom 25,363 were males and 915 females) were less than in 1899 (27,989, of whom 27,023 were males and 966 females); the aggregate number decreased from 40,179 (of whom 39,095 were males and 1,084 females) to 39,238 (of whom 38,194 were males and 1,044 females). The daily average number of all classes decreased from 12,547 (of whom 12,416 were males and 131 females) to 12,517 (of whom 12,388 were males and 129 females) and was smaller during 1900 than in any of the five preceding years. The number discharged (27,164), was also less than in 1899 (27,219). The year closed with a smaller jail population (12,074), than that with which it opened. The number of direct commitments has decreased from 16,917 in 1899 to 16,228 and the

number admitted by transfer from jails in the province has also decreased from 2,335 to 2,107.

Accommodation.

52. No new jails were opened and none were closed during the year, but by a stricter measurement and re-classification the accommodation of some jails has been increased, while that of others has been decreased, *vide* details shown in the margin. The net result is a decrease of 362 in the total accommodation compared with the previous year. As noted above the daily average strength of all classes was 12,388 males and 129 females, while the capacity of all the jails in the province was 13,558 for males and 368 for females. Overcrowding was therefore only local and occasional and was easily relieved.

Toungoo	...	156

Judicial.

53. Of the 16,228 convicts committed during the year 3,419 or 21·07 per cent. had previous convictions, 1,423 of these having been previously convicted more than once. The percentage of previous convictions last year was 23·02. The percentage varied from 41·98 in the Thayetmyo Jail to 5·56 at Bhamo. The number of prisoners committed to jail under the preventive sections of the Criminal Procedure Code (2,555) showed a decrease as compared with the numbers of the previous year (2,836).

Habitual offenders numbered 3,415 as compared with 3,459 the previous year. Of these all but 25 were identified before conviction, and of these four confessed themselves to be habituals.

Discipline.

54. The only escape during the year was that of a convict from the Minbu Jail. He was, however, recaptured after eight weeks. There were also two recaptures of prisoners who had escaped in previous years. The total number remaining uncaptured at the end of the year was 14. Thirty-nine thousand two hundred and forty-four offences were dealt with by Jail Superintendents and 36 by Criminal Courts as compared with 41,775 and 71 respectively the previous year; 90·46 of the offences dealt with by Superintendents were classed as minor. Major punishments increased from 3,424 to 3,743 in the year under review.

Financial.

55. The gross cost of upkeep of the jails amounted to Rs. 7,92,738 against Rs. 7,87,598 in the previous year, the cost per head of average strength being Rs. 63-5-4 against Rs. 62-12-4 in 1899. The increase is mainly due to the purchase of blankets and bicycles and the furnishing of Jailors' quarters.

The cash earnings of convicts sentenced to labour amounted to Rs. 1,94,577 as against Rs. 1,93,745 in the previous year. If the earnings of convicts employed in the Jail Press are included the net earnings would be Rs. 3,35,440 and the average earnings per head Rs. 32-0-1.

The daily average number of convicts undergoing rigorous imprisonment was 10,480 as against 10,620 in 1899. Of these 42·53 per cent. were employed industrially, a lower percentage than in 1899. Gardening operations have continued to give most excellent results; the vegetables raised by convict labour supplied all that was required by the jails except a very small amount, while surplus produce to the value of Rs. 8,318 was sold to the public as compared with Rs. 8,150 in 1899.

Health statistics.

56. The ratios of admissions to hospital and of deaths per mille of average population were 555·40 and 21·17 in 1900 as compared with 583·65 and 18·73 in 1899. There were 33 cases of cholera, of which 20 proved fatal. Bassein was responsible for the greater number. The Moulmein Jail maintains its unenviable pre-eminence in unhealthiness, the number of admissions to hospital for dysentery alone being 298 out of a total for the whole province of 986. The death-rate from all causes was highest at Bhamo (186·67) and Shwebo (72·85), while at eight jails there were no deaths during the year.

Civil Justice.

The chief events of the year were the passing of the new Lower Burma Courts Act and the constitution of the Lower Burma Chief Court.

Amount and classification of litigation.

57. The number of suits instituted in Burma during the year was 56,995 as compared with 54,257 in 1899. The increase was common to both Lower and Upper Burma. In the former the total was 41,714 as compared with 40,555 in the preceding year, while in the latter the figures were 15,281 and 13,702 respectively. There was a slight increase in the number of suits for money or moveable property and a decrease in suits for immoveable property in Lower Burma. In Upper Burma the suits for money or moveable property increased from 12,029 to 13,506. There was also a slight rise from 909 to 925 in the number of suits for immoveable property. Mortgage suits in Lower Burma rose from 470 to 599 and in Upper Burma from 194 to 275. The number of matrimonial suits decreased in Lower Burma from 478 to 441, but rose in the Upper Province by 66, the number being 332 in the year of report. The total value of suits in Lower Burma rose from Rs. 70,23,224 to Rs. 75,58,253. In Upper Burma the value rose from Rs. 14,74,404 to Rs. 16,10,872 or 9 per cent.

Disposal of cases.

58. Out of 57,077 cases disposed of in Burma during the year, 11,701 were decided without trial and 26,278 without contest. As regards contested cases judgment was given for the plaintiff in whole or in part in 13,019 or 68 per cent., the corresponding percentage for 1899 being 69.

The average duration of contested cases rose in both Upper and Lower Burma. In uncontested cases it fell in Lower Burma and rose slightly in the Upper Province. The tendency to increased duration continues. Proposals are at present under consideration for the separation of the Judicial and Executive branches of the service in the more important divisions of Lower Burma. In Upper Burma duration was excessive in contested cases in the Mandalay district and susceptible of reduction in the Pakôkku, Meiktila and Myingyan districts. In uncontested cases the Mandalay, Katha, Upper Chindwin, Pakôkku and Meiktila districts show the highest duration.

Cases referred to arbitration in Lower Burma rose from 43 to 70 and fell in Upper Burma from 50 to 20. The number of cases compromised was the same in Lower Burma as in the previous year, but declined in Upper Burma by 229. Three thousand nine hundred and eleven cases were pending at the close of the year, of which 891 had been pending for more than three months. The figures for the previous year were 3,634 and 732 respectively. The number of regular suits instituted in the Chief Court was 219, their value being Rs. 12,26,909-8-2. The number actually disposed of was 167. The pending file consisted of 117 cases. The average duration in the disposal of original suits was 172 days in contested cases and 71 in uncontested cases.

Execution of decrees.

59. There were 19,980 applications for the execution of decrees before the Courts in Lower Burma against 18,375 in the previous year and 5,238 as against 4,720 for Upper Burma. In Lower Burma complete satisfaction was obtained in 6,210 cases and partial satisfaction in 3,463 cases. The percentage of complete success was 34 as against 36, and of partial success 19 as against 18 in the previous year. In Upper Burma 2,261 decrees were completely and 859 partially executed, while 513 were pending, the corresponding figures for 1899 being 2,270, 683 and 333 respectively. Executions by delivery of possession rose in Lower Burma from 258 to 282, those by imprisonment of the person from 287 to 332. The percentages under each head were the same as in 1899. In Upper Burma delivery of possession was ordered in 123 against 95 cases in 1899. The number of persons imprisoned fell from 100 to 94. In Lower Burma the number of attachments of moveable and immoveable property and sales of immoveable property rose, while the sales of moveable property fell during the year as compared with 1899. Attachments of moveable property fell in Upper Burma, but attachments of immoveable property

rose as also the sales of both moveable and immoveable property. The number of applications for execution filed in the Lower Burma Chief Court was 228, of which 67 resulted in full and 38 in partial satisfaction.

Insolvency proceedings.

60. In Lower Burma 234 persons applied to be declared insolvent as compared with 101 in 1899 and 50 in Upper Burma as against 42 in that year. Relief was granted in 51 per cent. as against 42 per cent. in Lower Burma for the previous year. The number and percentage of applications granted in Upper Burma fell from 17 to 9 and 41 to 23 respectively. The cases of 91 persons were dealt with in the Chief Court, Lower Burma, out of 122 applications under the Insolvent Debtors Act; four persons were adjudicated insolvents, personal discharge granted in 44, and final discharge in 4 cases; 5 cases were withdrawn or annulled and 7 were struck off for default.

Appeals.

61. The number of regular appeals in the province rose from 4,689 to 4,967, of which 3,048 were in Lower Burma and 1,919 in Upper Burma. The number of appeals preferred to District Courts in Lower Burma fell from 1,953 in 1899 to 1,895 in 1900. The falling off was most marked in Thôngwa and Thatôn. In Upper Burma the number of appeals to District Courts rose from 1,119 to 1,287. The percentage of confirmation decreased in both Lower and Upper Burma from 63·31 and 61·6 in 1899 to 58·95 and 58·7 respectively. In second appeals the percentage of confirmation in Lower Burma was 53·75 as against 66·66 in the previous year, and 63 as against 58 per cent. in the Upper Province. In Lower Burma there remained a pending file of 39 appeals. The number of appeals of over three months' duration was four only. The average duration of appeals was 50 days as against 46 in the previous year. In Lower Burma the number of appeals preferred to the Chief Court was 304 as against 382 in 1899. The percentage of confirmation was 63·82 as against 61·1 of the previous year. The number of miscellaneous appeals preferred rose from 14 to 18. The total value of appeals disposed of amounted to Rs. 2,56,194-7-6 and their total cost Rs. 53,962-0-8. There were 145 applications for revision as against 125 in the previous year. In Upper Burma appeals to the High Court continue to increase, numbering 346 against 301 in 1899. The percentage of confirmation was 63 as against 58 in 1899. Miscellaneous applications rose by 11. The number of applications for revision increased from 71 to 90.

Cost of litigation.

62. The cost of litigation in Lower Burma decreased considerably during the year of report as compared with 1899. The percentage in original suits fell from 13·33 to 13·24, in appeals from 27·23 to 22·12, and in execution cases from 1·47 to 1·08. In Upper Burma the percentage of costs in original and execution cases was 16·08 and 1·72 compared with 15·75 and 1·27 respectively in the previous year. In appeals it fell considerably from 24·35 to 19·25.

Processes.

63. The total number of processes issued by the Civil, Criminal and Revenue Courts and offices in Lower Burma rose from 568,351 to 650,921 in the year of report. The receipts from process-fees under all these heads rose from Rs. 1,55,174-5-0 to Rs. 1,62,411-5-9. The cost of the general process-serving establishment was Rs. 1,01,122-3-1 as against Rs. 94,919-15-3 in the previous year. In Upper Burma the number of processes of all kinds increased largely from 110,583 to 127,473. The total receipts amounted to Rs. 50,189 compared with Rs. 47,395 and the charges, including contingencies, to Rs. 38,479 against Rs. 32,218.

Inspections.

64. There were 275 Court inspections in Lower Burma and 279 in Upper Burma compared with 235 and 288 in the previous year. In Lower Burma there were more inspections by District Judges (148) but somewhat fewer by Divisional Judges (38). Inspection work of Subdivisional Judges was about the same (26). Judges of the Chief Court did three times as much inspection work as was done by the Judicial Commissioner, Lower Burma, last year. In Upper Burma District and Subdivisional Judges did somewhat less inspection work than in 1899, only 141 and 31 Courts respectively, having been inspected by them compared with 154 and 47 respectively.

More inspection was done by Divisional Judges. The Judicial Commissioner inspected 37 Courts or about the same number as in the previous year. All Courts inspected by the Judicial Commissioner during the year were found to be in good or in fair order.

Miscellaneous.

65. In Lower Burma provision of adequate court-rooms for Subordinate Judges appears to be urgently required, and District Officers will no doubt give their careful attention to this matter. In Upper Burma four new court-houses were built and occupied during the year and six were in course of erection. New court-houses are needed at Aukseik, Pasôk, Tilin, Gangaw and Myingun. Otherwise courts are reported to be in fairly good order. District libraries were generally found to be in good condition. In Lower Burma the libraries of District and Township Courts were examined so far as regards judicial books and reports. These libraries need attention and require to be supplied with the necessary books where wanting. In Upper Burma, too, several of the libraries of Subdivisional and Township Courts away from District headquarters were not found to be in good order, nor were they fully supplied with the requisite books. The condition of record-rooms in general was good in Lower Burma, but closer supervision by responsible officers of record-room work is reported to be required. In Upper Burma greater attention was paid during the year to the rules regarding the destruction of records. The Upper Burma Courts Manual containing the substance of all circulars and orders of the Judicial Commissioner now in force has been issued. It is understood the Chief Court contemplates the preparation of a similar compilation for Lower Burma.

Registration.

66. The Indian Registration Act, 1877, in Lower Burma and the Upper Burma Registration Regulation, 1897, in Upper Burma continued in force throughout the year. The number of registration offices (147) remained unchanged.

Lower Burma.

67. The number of documents registered and the amount of fees realized in Lower Burma increased respectively by over 15 and 12 per cent., while the surplus of receipts over expenditure rose from Rs. 41,239 to Rs. 48,477. This increase, generally attributed to the good harvest of the year, was shared by all but three districts. It amounted to no less than 60 per cent. in Myaungmya, where cultivation is rapidly spreading. The average value of the documents registered showed a decrease.

Upper Burma.

68. Nine of the 16 districts of the Upper Province show decreases (attributed, like the increases in Lower Burma, to the favourable harvest), but the total number of deeds registered rose by over 35 per cent. This large increase was contributed chiefly by the Lower Chindwin, Mandalay and Yamèthin districts and was due in the first and last named to the rush, consequent on tenure-recording operations, to substitute stamped and registered deeds of title to land for existing records. In Mandalay the growth in importance of Maymyo partly accounts for the increase. A large decrease in Kyauksè is attributed to the recently introduced restrictions on the transfer of State land to non-agriculturists.

Establishments.

69. Net receipts rose to Rs. 9,401. The system of remunerating registration clerks by fixed salaries instead of payment by fees was extended to seven more offices during the year. The receipts justified this step, which moreover tends to increase the surplus credited to Government.

Inspections.

70. Sixteen out of the 147 offices open escaped inspection during the year. As a whole work was found to be well done in the rest.

Municipal Administration.

Rangoon.

71. A general election was held in November 1900 and the new members took their seats on the 1st January 1901. The full Committee met twenty times and numerous Sub-Committee meetings were held. The year opened with a credit balance of Rs. 4,90,616.

The total receipts for the year amounted to Rs. 40,82,157 and the total expenditure Rs. 32,20,606, leaving a credit balance of Rs. 13,52,166 at the close of the year. The largeness of the closing balance is due to over 8 lakhs, money borrowed in 1900, being unexpended, and to the closing balance of the Reclamation Fund amounting to Rs. 1,97,773. The total ordinary receipts, amounting to Rs. 21,03,211, were Rs. 1,20,211 more than the estimated ordinary receipts, and Rs. 97,218 in excess of the ordinary receipts of the previous year. The difference between the estimate and actuals for the year is due, principally, to an increase in the receipts from taxes, consequent upon an increase in the number of buildings brought under assessment, and also to a larger yield from miscellaneous receipts, such as rents from bazaars and roadside stalls, and fees from slaughter-houses and vehicles. Interest on cash balances was also under-estimated by Rs. 12,000. Most of this interest accrued on money borrowed in 1900 and not spent. The ordinary expenditure during the year was Rs. 17,83,295, or Rs. 1,54,819 in excess of the previous year's figures, and Rs. 64,055 more than the estimate. The excess over the estimate was chiefly due to certain public works being executed which were not provided for in the budget, but which were urgently required, such as the re-metalling of Strand road, the re-making of Kyaikasan road and the metalling of Latter street. There were also over Rs. 16,000 paid for Census charges for which no provision had been made in the budget. The excess over the previous year's figures was occasioned, principally, by a larger allotment being made for public works during the year of review and to the increased cost of maintaining the sewage works, owing to the construction of an auxiliary compressor station at Ahlone to allow of the plant at the compressor station being repaired. There were also the Census charges that had to be paid in 1900-1901, besides other miscellaneous expenditure. The incidence of ordinary revenue and receipts per head of population was Rs. 9-0-10 and the incidence of taxation per head of population was Rs. 5-3-10. These are based on the figures given at the Census of 1901. The General Hospital receipts amounted to Rs. 17,632 against Rs. 15,948 in the previous year. The expenditure increased from Rs. 1,49,929 in 1899-1900 to Rs. 2,27,193 during the year of review. The increase in expenditure is principally due to additional buildings being erected, for which a loan of Rs. 60,000 was received during the year.

Two important questions which have long been pending have been satisfactorily disposed of.

With the help of two experienced officers lent by Government, a thorough reorganization of the Municipal staff has been carried into effect. The changes result in a net saving of nearly Rs. 1,500 a month, combined with greatly improved efficiency in all branches of the establishment. The advice of a strong Committee of Engineers on various matters connected with water-supply was obtained, and the Thamaing scheme has now been finally sanctioned and will be proceeded with at once. A reclamation scheme has been prepared, but the financial part of the proposals is still under consideration. The question of the institution of a Provident Fund is also not finally settled. It is hoped that both matters may be disposed of shortly.

Proposals have been mooted for the transfer of the management of the General Hospital to Government. The matter presents difficulties and a final decision has not yet been arrived at.

Draft Bills have been submitted to the Government of India dealing with prostitution in Municipal areas adjoining Military Cantonments and providing for certain other amendments of the law proposed by the Rangoon Committee or shown by experience to be necessary.

Other municipalities. Number of municipalities.

72. The number of municipalities in the province at the close of the year was 41, of which 27 were in Lower Burma and 14 in Upper Burma. The Allanmyo-Ywataung Municipality was constituted during the course of the year. All the municipalities in Upper Burma, with the exception of Mandalay, continued to be administered under the Upper Burma Municipal Regulation, 1887, while all the municipalities in Lower Burma were administered under the Burma Munici-

pal Act, 1898. This Act will be extended to Pyinmana town with effect from the 1st January 1902; and proposals to extend it to Myingyan are under consideration.

Alterations of limits.

73. There were few alterations of municipal boundaries. The proposals for the extension of the boundaries of the Zalun Municipality were sanctioned. The extension comprises an area of ·71 of a square mile. The limits of the Salin Municipality were amended in order to make the boundary-line follow the boundaries of holdings instead of following a straight line from one boundary post to another. At Myingyan, the boundary was extended so as to include the premises of the Burma Railways Company, which were formerly outside the municipality.

Constitution of Committees.

74. The total number of members of Municipal Committees was 532, of whom 164 were *ex-officio*, 277 nominated, and 91 elected; the corresponding figures for the past year being 515, 158, 253, and 104 respectively. The changes were mainly due to the abolition of the Ramree Municipality and to the constitution of the Allanmyo-Ywataung Municipality.

Elections.

75. No elections were held at Akyab and Prome owing to the absence of candidates; and the interest shown at Kyaukpyu, Bassein and Toungoo was rather luke-warm. It was only at Moulmein that any seats were keenly contested.

Population and rate-payers.

76. The percentage of rate-payers to population was highest at Thônzè (31·7), and lowest at Ma-ubin (10·3). In the former municipality, the number of rate-payers increased abnormally owing to the introduction of the area-tax. At Prome, according to the last census, the population decreased by 2,645 owing to bad trade and drought, and Kyauksè and Pagan also show a falling off. The population of Ma-ubin increased from 5,327 to 6,617, owing to immigration from Upper Burma.

Incidence of taxation and income.

77. The incidence of taxation per head of population was lowest at Kyaikto (annas 4-10) and highest at Prome (Rs. 2-1-11). The only other municipalities which exceeded Rs. 2 were Moulmein (Rs. 2-1-10) and Bassein (Rs. 2-0-2). The incidence of income per head of population was highest at Shwebo (Rs. 5-9-0) and lowest at Allanmyo-Ywataung (Rs. 1-0-7). The sum paid as taxes by each resident of a municipality averaged Rs. 1-6-3 in Lower Burma, and Rs. 1-2-9 in Upper Burma. The income per head of population averaged Rs. 3-6-9 both in Lower and Upper Burma.

Revision of assessment.

78. Assessments were revised at Akyab, Prome, Pegu, Ngathainggyaung-Daunggyi, Kyangin and Thatôn. Except at Kyangin, where the revision of the assessment of the frontage-tax resulted in a decrease of Rs. 22-12-0, the effect of the revision was the enhancement of the municipal revenue.

Fresh imposts.

79. In none of the Upper Burma municipalities was any fresh impost levied. In Lower Burma a scavenging-tax was levied at Gyobingauk, Kyangin, and the southern portion of Henzada town; and an area-tax at Thônzè, Ngathainggyaung-Daunggyi, and in the southern portion of Henzada town. A tax on bullock-carts kept within the municipality and a toll on carts entering municipal limits were levied at Ma-ubin.

Demands and collections.

80. Municipal taxes were collected with commendable punctuality except at Akyab and Moulmein. At Akyab the demand amounted to Rs. 61,994 and the collection to Rs. 56,987, leaving an outstanding balance of Rs. 4,469. At Moulmein the outstanding balance was Rs. 1,191-4-6 out of a total demand of Rs. 1,28,212-0-11.

Income and expenditure.

81. Exclusive of debt accounts, the aggregate income amounted to Rs. 21,93,284 as compared with Rs. 20,15,019 last year; and ordinary expenditure amounted to Rs. 20,09,812 as compared with Rs. 19,95,531 in the previous year. The total amount of closing balances was Rs. 6,01,039 as compared with Rs. 4,47,730 in 1899-1900.

Municipal rates and taxes.

82. The total receipts from taxation increased from Rs. 7,74,553 to Rs. 8,67,573. Taxes on houses and lands increased from Rs. 4,73,869 to Rs. 4,98,820. With the exception of Arakan, every division contributed an increase. There were also substantial increases in taxes on animals and vehicles, in tolls on roads and ferries, and in taxes on conservancy, while the receipts from the lighting-tax were nearly doubled as they rose from Rs. 51,485 to Rs. 90,546.

Realizations under special Acts.

83. Realizations under special Acts increased from Rs. 35,753 to Rs. 37,730. The receipts from pounds showed a slight decrease from Rs. 15,827 to Rs. 15,655, while those from hackney-carriages showed a substantial increase from Rs. 19,926 to Rs. 21,267, Mandalay alone contributing Rs. 11,597 against Rs. 10,575 in the previous year.

Other sources of revenue.

84. With few exceptions there was a general increase under the several heads of revenue. The sale-proceeds of lands rose from Rs. 12,844 to Rs. 37,958, but the rent of land and houses fell from Rs. 31,464 to Rs. 26,444. The mainstay of municipal revenues appears to be the fees derived from markets and slaughter-houses. In Lower Burma this item rose from Rs. 5,40,608 to Rs. 5,49,000, and in Upper Burma from Rs. 4,24,401 to Rs. 4,40,333. Out of a total income of Rs. 22,91,702 the revenue derived from this source alone amounted to Rs. 9,89,333, to which Mandalay contributed Rs. 2,55,273 against Rs. 2,44,014 in the previous year. The large municipalities in Lower Burma also derived a handsome income from markets and slaughter-houses, namely: Prome Rs. 52,435, Bassein Rs. 50,612, Henzada Rs. 42,647, and Toungoo Rs. 43,366. With the exception of Henzada, where there was a very slight increase, these receipts, however, showed a decrease. Fines under Municipal and other Acts aggregated Rs. 43,512 compared with Rs. 35,272 last year. To this amount large contributions were made by Akyab (Rs. 1,362), Bassein (Rs. 1,381), Henzada (Rs. 1,295), Moulmein (Rs. 3,734), Tavoy (Rs. 1,143), Pakôkku (Rs. 1,079) and Mandalay (Rs. 22,379).

Grants and contributions.

85. The grants and contributions from Government rose from Rs. 25,071 to Rs. 35,614, and from Local funds from Rs. 32,839 to Rs. 43,129. For general purposes, Government made a grant of Rs. 3,000 to Myaungmya, and continued the grant of Rs. 4,000 to Minbu. For educational purposes Rs. 1,100 was granted to Ma-ubin from Provincial funds and Rs. 2,500 to Toungoo, and the grant to Sagaing was increased from Rs. 841 to Rs. 884. For medical purposes, the following grants were continued:—

Rs. 2,000 to Toungoo.	Rs. 1,300 to Pakôkku.
Rs. 1,000 to Kyaikto.	Rs. 1,800 to Bhamo.

But the grant to Shwebo was reduced from Rs. 4,800 to Rs. 1,400, while the grant to Myingyan was increased from Rs. 350 to Rs. 5,350. The reduction of the grant to Shwebo was made on the recommendation of the Inspector-General of Civil Hospitals, and proposals are now under consideration to raise it. The increased grant to Myingyan is for the purpose of building a new hospital.

Expenditure on public safety.

86. The expenditure on public safety in Lower Burma rose from Rs. 75,199 to Rs. 1,00,056, but fell in Upper Burma from Rs. 98,467 to Rs. 95,839. The majority of the municipalities in Upper Burma continued to pay for the maintenance of the police force. With the exception of Mandalay, which spent Rs. 13,265 on fire establishment, none of the wealthy municipalities in Upper Burma are alive to their obligation to provide adequate means for the prevention of fire. The expenditure on lighting rose from Rs. 1,26,216 to Rs. 1,49,349, of which Rs. 90,847 was spent in Lower Burma and Rs. 58,503 in Upper Burma. Moulmein spent Rs. 38,399 on lighting its streets with Mansfield's oil-gas, and Mandalay spent Rs. 37,397 on lighting its streets with ordinary kerosene lamps. There was a single entry of Rs. 5-8-0 against Gyobingauk as expenditure on rewards for the destruction of wild animals.

General administration and collection charges.

87. The charges for general administration and the collection of taxes, amounted to Rs. 2,43,291 as compared with Rs. 2,47,857 in 1899-1900. The introduction of a pension scheme with effect from the 1st February 1900 necessitated an expenditure of Rs. 1,935 at Akyab, and the refunds amounted to Rs. 14,944 against Rs. 16,098 last year. At Henzada a survey of the town was taken in hand in November 1900, the project costing Rs. 2,317. The cost of surveys decreased from Rs. 22,125 to Rs. 20,866; but the cost of collecting taxes and tolls increased from Rs. 42,948 to Rs. 43,378. The charges for general administration were Rs. 1,04,483 for Lower Burma and Rs. 57,067 for Upper Burma, the corresponding figures for the past year being Rs. 1,12,202 and Rs. 51,485 respectively.

Water-supply.

88. In riverine municipalities the water-supply is derived mainly from rivers, while in others situated at some distance from rivers it is derived from public and private wells, artesian wells, and tanks and reservoirs. The Sanitary Engineer has under consideration a water-supply scheme for Akyab, Bassein, Yamèthin, Myingyan, and Minbu. At Mandalay the scheme is ready for execution, but is held in abeyance pending the report on the quality of the water obtained from an experimental well. At Moulmein a scheme costing Rs. 9,36,123 has been prepared, and will be executed through the agency of the Public Works Department.

Sanitation.

89. At Prome the construction of *pucca* drains was continued, and the total length completed to date was 20,300 feet or 3·8 miles, the average cost being Rs. 1-4-0 per running foot. The total outlay on drainage works was Rs. 14,665. At Bassein the reclamation work on the second section of the Talainggyaung foreshore was completed at a cost of Rs. 5,238. A protective bund was constructed at Shwegyin to prevent the in-rush of water into the town whenever the river inundates its banks.

Conservancy.

90. The total expenditure on conservancy was Rs. 3,94,833 against Rs. 3,80,181 in 1899-1900. The amount spent in Lower Burma was Rs. 2,50,612 and in Upper Burma Rs. 1,44,220, the corresponding figures for the past year being Rs. 2,37,009 and Rs. 1,43,172 respectively. The efforts of the municipalities are directed towards the abolition of the cess-pit system and the removal of the night-soil in carts beyond municipal limits. The Moulmein Municipal Committee obtained from Simla plans of the sceptic tanks in use there, but the scheme was not proceeded with for want of funds. At Mandalay steps are being taken to introduce the modified scheme of conservancy referred to in last year's report.

Hospitals and dispensaries.

91. In Lower Burma the expenditure on hospitals and dispensaries decreased from Rs. 1,71,983 to Rs. 1,58,229, but rose in Upper Burma from Rs. 89,163 to Rs. 1,21,544. The highest expenditure was incurred at Mandalay, namely, Rs. 70,695. The size and population of the town necessitate the maintenance of two hospitals, and the cost is proportionately heavy. The Burgess Memorial Ward is nearing completion, and new buildings for a separate women's hospital, better out-patients' accommodation and a nursing home have been budgetted for. The Government of India have sanctioned the appointment of a whole-time Superintendent of the Central Jail, and the Civil Surgeon will now have more time to devote to his medical duties, which require his undivided attention. At Myingyan the expenditure rose from Rs. 4,216 to Rs. 10,524 on account of the increase in the dieting charges and the cost of Europe medicines, and also on account of the new hospital building. The Minbu Municipality grants an annual contribution of Rs. 2,000 to the Hospital Fund, which the Committee consider to be as much as, if not more than, they can afford.

Vaccination.

92. The amount spent on vaccination increased from Rs. 14,877 to Rs. 15,012.

Markets and slaughter-houses.

93. There was a decline in the expenditure on markets and slaughter-houses from Rs. 2,45,313 to Rs. 1,71,611. The original plans of the Zegyo bazaar, approved by

the Committee, have been abandoned mainly on the ground of expense, and a revised estimate has now been sanctioned. At Letpadan extensive improvements were made to the existing bazaar and slaughter-house, and the Municipality spent Rs. 7,968. At Pakôkku a second bazaar was built at Kandaw, costing Rs. 2,376; and the Salin bazaar was extended at a cost of Rs. 3,740.

Registration of vital statistics.

94. The expenditure on the registration of vital statistics slightly increased from Rs. 10,270 to Rs. 10,470.

Public works.

95. The expenditure on public works was Rs. 4,14,593 as compared with Rs. 3,90,726 in the previous year. Of this amount Rs. 85,249 was spent on establishment, Rs. 1,644 on buildings, and Rs. 3,25,440 on roads. The Moulmein Municipality is experimenting with gas-tar for protecting roads from the effect of storm water. Municipal roads were extensively repaired at Salin at a cost of Rs. 4,591. At Mandalay Rs. 9,663 was spent on the construction of a retired embankment at Thayethmaw, which was rendered necessary by the unsafe condition of the town embankment due to erosions caused by the river; and Rs. 71,493 was spent on re-metalling roads, repairs to bridges and culverts, and on surface drainage. The Committee have arranged with the Burma Electric Works Syndicate for the construction of an electric tramway at Mandalay.

Public instruction.

96. The expenditure on education shows a decline from Rs. 1,61,200 to Rs. 1,38,969. The decrease is due to the fact that considerable expenditure on buildings was incurred in the previous year. The municipal assignment at Pegu and Toungoo was substantially enhanced and the Henzada contribution was reduced by Rs. 3,000, the amount provided for school buildings being diverted to the General fund.

Loans.

97. No loans were sanctioned during the year. The balance of outstanding loans at the close of the year amounted only to Rs. 2,05,715 as compared with Rs. 2,29,405 in the past year. The application of the Prome Municipality for a Government loan for drainage and water-supply is still under consideration.

Audit and defalcations.

98. The accounts of the Thônzè and Bhamo Municipalities were not audited either by the Inspector of Local Fund Accounts or by his assistants. The auditing staff is being increased and steps are being taken to ensure greater regularity in carrying out the periodical audits. The accounts of the Sagaing Municipality were found to be in a state of confusion and defalcations were discovered.

Town Funds.

99. During the year of report no towns were declared to be notified areas under the Burma Municipal Act. The year began with a total opening balance of Rs. 42,733, and ended with a total closing balance of Rs. 68,035. The total receipts amounted to Rs. 1,41,743 against Rs. 89,984 in the previous year and expenditure increased from Rs. 1,03,365 to Rs. 1,16,441.

Military.

100. Major-General M. Protheroe, C.B., C.S.I., held command of the Burma district throughout the year. The total strength of the troops in Burma at the beginning of the year was 10,243, of whom 3,296 were Europeans and 6,947 were natives, the number at the close of the year being 10,629, of whom 3,352 were Europeans and 7,277 were natives.

The 6th Burma Battalion took part in the recent operations in China.

There was no change in the constitution of the Volunteer Forces during the year under review. They consist of the Rangoon Port Defence Volunteers (comprising Artillery, Naval and Engineer Corps), the Moulmein Volunteer Artillery and Rifles, and the Rangoon Burma Railways and Upper Burma Volunteer Rifles. The aggregate enrolled strength of the combined force on the 31st March 1901 was 2,563 as against 2,538 in 1899-1900. Of these 2,180 were adults and

383 were cadets, the corresponding figures for the previous year being 2,170 and 868 respectively.

There were in all 2,381 efficients as against 2,467 last year, while the reservists numbered 116 as against 136 in 1899-1900.

The amount of capitation grant earned was Rs. 79,287 or Rs. 3,710 more than in the previous year.

Marine.

101. One British man-of-war, the *Highflyer*, visited Rangoon during the year.

The Royal Indian Marine steamer *Mayo* visited the Burma light-houses and light-vessels regularly throughout the year.

The Royal Indian Marine steamers *Irrawaddy*, *Sladen*, and *Bhamo*, plying on the Irrawaddy and Chindwin rivers, carried 3,982 tons of stores and over 49 lakhs of specie as well as troops, cattle, ammunition, &c.

The aggregate earnings of the three vessels amounted to Rs. 1,24,279 against Rs. 2,34,942 in 1899-1900, the decrease being due to the grounding of the *Sladen* at Bhamo for a month, to her subsequent withdrawal from the service for repairs, and to the vessel being detailed for duty with various officials.

The number of launches employed in Lower Burma was 35 as compared with 31 last year. The *Hlaing*, *Mudlark*, and *Thabaung* were added to the list, and the *Brilliant* was purchased for work in connection with the Plague camp at Mingan. The *Chin*, which sunk at Kyabin in June 1899, was raised and brought to Rangoon in July 1900 and is now again at work.

In Upper Burma the number of steam-vessels and launches under employ was 28, including the three Royal Indian Marine vessels, no change having occurred in the strength of the fleet since the previous year.

The average number of days on which each vessel was employed and the number of hours under steam decreased from 167 days and 2,168 hours to 159 days and 2,152 hours. As in the previous year the Upper Burma vessels were more fully utilized than the Lower Burma flotilla.

The total outlay, including maintenance, fuel, stores, and interest for the year, was Rs. 1,70,730 in Lower Burma against Rs. 1,60,242 in 1899-1900. In Upper Burma the total amounted to Rs. 2,64,597 compared with Rs. 2,41,309 in the previous year. There was a slight decrease in the earnings of the vessels employed in Lower Burma, from Rs. 1,25,352 to Rs. 1,21,190, and the earnings in Upper Burma also fell from Rs. 2,55,153 to Rs. 2,44,753. The total earnings of the fleet, excluding the three Royal Indian Marine vessels, amounted to Rs. 3,65,943 against Rs. 3,80,505, being a decrease of Rs. 13,731. In Lower Burma only nine launches produced a net profit on their working, amounting to Rs. 15,775; the rest showed a net loss of Rs. 65,315. In Upper Burma the *McIvor* and four launches were responsible for a net profit of Rs. 63,586, the remainder of the fleet showing losses aggregating Rs. 83,430.

The outturn of work in the Marine Workshop, Mandalay, increased in value by Rs. 23,562 as compared with last year. This was accounted for by the increase of work done for the Public Works and Commissariat Departments.

IV.—PRODUCTION AND DISTRIBUTION.

Agriculture (Lower Burma).

The season.

102. Except in the Arakan division the monsoon rain was generally timely, abundant and well distributed. In Prome and Tharrawaddy large areas that were fallow in previous years came again under the plough. In parts of Hanthawaddy, Myaungmya, Bassein and Tavoy the later rains were scanty and the crop somewhat light. In the Arakan division, where the rainfall was less than usual in quantity and unseasonable, the crop was estimated at 13 annas. The Irrawaddy river reached a comparatively low level during the monsoon and in Henzada the hill streams brought less flood than usual. In consequence of this many lowlying lands in the delta districts and in Henzada frequently inundated and unworkable in years of high flood came under cultivation. An unfortunate and disastrous rain-storm burst over the greater part of Lower Burma in the middle of February and spoilt what would otherwise have been an excellent harvest. In the more northern districts, Henzada, Prome, Tharrawaddy, Pantanaw township, Myaungmya district and Danubyu township, Thôngwa district, the crop had been harvested and the damage done was comparatively slight. No damage was done in the Arakan division or, with the exception of Toungoo, in the Tenasserim division. In the remaining districts the crop destroyed was variously estimated from 5 to 6 per cent. of the total and in small areas as much as 50 per cent. was entirely ruined.

Area of cultivation.

103. The area under crop was 7,165,804 acres as against 6,857,898 acres in 1899-1900, an increase of 307,906 acres or 4·5 per cent. The area under paddy, which amounted to nearly 92 per cent. of the total cropped area, rose from 6,277,678 acres to 6,577,701 acres. The general cause of the increase may be summed up in a good rainfall, absence of floods, absence of widespread cattle disease, absence of pestilence and disease, and the stimulus of a good paddy market and of previous good seasons. The districts in which the increase in the cropped area was most marked were Hanthawaddy (50,000), Toungoo (43,000), Thôngwa (39,000), Pegu (26,000), Myaungmya (25,000), Tharrawaddy nearly (25,000), Henzada and Bassein (nearly 20,000 each). Only two districts, Sandoway and Tavoy, showed a slight decrease. In the classification of areas under the other kinds of crops, the corrections made by the supplementary survey in the Toungoo district caused a large reduction in other food grains and increases under til-seed, sugarcane and other heads. Mustard appeared as a new crop in Akyab and indigo in Kyaukpyu. The area under tobacco and orchards and garden produce increased by 6,666 and 18,118 acres respectively. Current fallows amounted to 376,862 acres as compared with 414,581 acres in the previous year. There was a large decrease in the area of fallows in the Tharrawaddy, Prome, Thôngwa and Henzada districts, while only four districts show an increase in the fallow area, namely, Tavoy, Toungoo, Mergui and Pegu. In Toungoo the increase was due to more correct information furnished by the introduction of supplementary survey after settlement and in Pegu to the extension of survey operations. The increase in Mergui was probably due to floods and the alluvial deposits in the Tavoy river diverted salt water into cultivated lands in the Thayetchaung township and drove cultivators either to relinquish their lands or to leave them fallow.

Prices.

104. In Rangoon with short supplies and keen competition the price of paddy rose to Rs. 97 during April 1900. There was a good deal of fluctuation during the year, the price reaching Rs. 116 in October and falling to Rs. 80 in March, when supplies increased. The price of paddy at Akyab opened in December at Rs. 83 and continued steady till the last week in February, when it rose to Rs. 95 and gradually fell to Rs. 91 at the end of March. In Bassein the remainder of the old crop was marketed principally before the end of May at prices ranging from Rs. 85 to Rs. 103. The general quality of the crop of the year under report was inferior and prices varied from Rs. 85 to Rs. 87. Higher prices diverted much of the crop to Rangoon and there was no business after August. The price of rice in Akyab rose in sympathy with that of paddy and was also higher in Henzada and Tavoy. The price

declined in Myaungmya and Mergui, and in Amherst also the competition of mill-owners and the increase of rice-mills forced the price of rice down. The variations in the prices of the other commodities call for no special remark.

Grazing-grounds.

105. The demarcation of grazing-grounds was attended to in all districts and is reported good. The principal additions made to grazing-grounds were made in Akyab (2,139), Bassein (2,853), Toungoo (1,501) and Mergui (1,140). In Thôngwa orders have been issued for the reservation of 15,000 to 20,000 acres in the neighbourhood of the rapidly extending cultivation in the Bogale township. The areas reserved for grazing in Tharrawaddy and in the Wakèma township of the Myaungmya district are reported to be quite insufficient. Encroachments in most districts were suitably dealt with, but the fines imposed were inadequate in Tharrawaddy.

Cattle.

106. The year was marked by the absence of disease of a widespread character and the stock of cattle largely increased from 1,995,727 to 2,074,130. The registration of cattle-deaths was very exactly carried out by village headmen, the only mistakes being in the "cause of death." The counterfoils of the registers were promptly collected and submitted with one exception, in the Amherst district, by the police patrol constables. The rules for the registration of cattle were strictly enforced and were said to be generally well received by the people, who unfortunately, however, were indifferent to the prevention of disease by inoculation. The districts which suffered from epidemics were Akyab, Henzada, Bassein, and Myaungmya. In Kyaukpyu there was a general decrease in agricultural stock, except buffaloes and calves, but in Tharrawaddy agricultural advances from Government and two good seasons have enabled the cultivators to increase their stock of cattle. The Danubyu cattle-market in Thôngwa was closed, as it was expensive, and the four cattle-markets in Bassein are said not to be popular. The cattle-markets at Kawkareik and Toungoo and the markets in Thatôn show slightly increased receipts. In Rangoon the arrangements for building the cattle-market have been completed and the supply of meat is expected to improve therefrom.

Agriculture (Upper Burma).

The season.

107. The rainfall was less local than usual in character. In the four northern districts of the Mandalay division and in the north of the Upper Chindwin the monsoon was late, the early rain in July, heavy and followed by long breaks, seriously damaging the crops, while the total rainfall was considerably below normal. In the Mandalay district and in the eastern portion of Sagaing township and in Shwebo district the rainfall was scanty and badly distributed towards the end of the year and considerably reduced the output of crops, although in Shwebo the total crop gave a large surplus available for export. In the Lower Chindwin the harvest both early and late was below normal owing to the uneven distribution of the rainfall. In the rest of the dry zone the early rains and the rains up to the end of September were more than usually abundant. Throughout Upper Burma the rainfall at the end of the year was very light and the later crops suffered in consequence. In Central Burma the phenomenal abundance of the rainfall led to a large increase in the cultivated area, but did considerable damage to many irrigation works and also to the crops. On the whole, however, the harvests were up to the average or perhaps slightly above it and the food-supply is stated to have been amply sufficient. Insects and caterpillars damaged the *ya* upland and sugar-cane crops in the Singaing township, Kyauksè district, and in Magwe rats committed extensive ravages.

Cattle.

108. The stock of cattle is not accurately known, but, with the exception of the Upper Chindwin, is sufficient for the agricultural needs of each district and also for export to Lower Burma. Fodder and water generally appear to have been sufficient. In Kyauksè the supply of water is reported to have run somewhat short in parts owing to the remodelling of irrigation works. Cattle-disease was less prevalent in 1900-1901 than in the preceding two years. Rinderpest was imported by caravans into Myitkyina and Mandalay, but prompt measures in both instances stamped the disease out at its commencement. In Sagaing 3,843 deaths among cattle were caused from rinderpest.

In Katha anthrax and foot-and-mouth disease were prevalent in a sporadic form, and in Magwe and Myingyan over 1,000 deaths were caused from cattle-disease. In all other districts the health of cattle was good.

Prices.

109. The price of rice rose in Magwe, Thayetmyo, Yamèthin, Kyauksè, and Bhamo and declined in the Lower and Upper Chindwin, Myingyan, Meiktila and Katha. The increase in the last three districts was due to good harvest in the dry zone and in the first two to the inferior quality of the Upper Chindwin rice. In Mandalay the fall in the price of wheat is attributed to market fluctuations and in Minbu to the inferior quality of the grain due to an attack of red dust in the Salin subdivision. The price of millet and other good grains declined in Meiktila and Myingyan with a cessation of the abnormal demand for them last year for exportation to India. In Yamèthin, however, the prices rose as also in Kyauksè. The price of grain rose in Minbu and Meiktila with a large demand and short supplies. Owing to the damage done by heavy rains and the demands for export in Yamèthin the price of oil-seeds rose in Minbu, Magwe, Kyauksè and Shwebo. The price of cotton fell in Meiktila owing to a slack demand and the damage caused to bales by heavy rains.

Veterinary.

110. The year from a veterinary point of view has not been in any way an exceptional one. The mortality from cattle-disease continued high, but was largely reduced by the efficiency of the Veterinary Department. The Superintendent has begun the inoculation of cattle for rinderpest and is making arrangements for training specially selected Veterinary Assistants for the work. Very little was done in the direction of pony-breeding. The Shan stallion standing at Meiktila covered 23 mares. Ten foals are reported to have been dropped. The half-bred stallion at Minbu covered 48 mares, but results are not known as owners have not come in to report. Information as to the results of the breeding from the two Sumatrans is not yet to hand, but they were poorly patronized again this year. It has been found necessary to drop a plan put forward last year for breeding from military police colts, as the Superintendent considered that without a stud farm, which was too costly an experiment to undertake, and for which the necessary supervision was not forthcoming, no profitable result could be looked for.

The health of cattle as compared with previous years has been favourable, there being an absence of very severe and widespread outbreaks of contagious disease. The rules for the prevention of cattle disease have worked well, and are appreciated by the people. The number of Veterinary Assistants at the commencement of the year of report was 60, which was further increased to 70 during the year, but reduced by casualties to 68. As a whole, they are well-conducted and hard-working men and are doing good work. There are some 20 students in training in the Veterinary school. It is hoped that the services of an Assistant Superintendent will be available for this province shortly.

Rice-trade Statistics.

111. The following table shows the quantity of rice exported from Lower Burma in each of the past five years :—

Year.	Exports of rice from Lower Burma to		Total.
	Europe and America.	India, China and Straits.	
	Tons.	Tons.	Tons.
1897	698,273	837,499	1,535,772
1898	843,037	975,904	1,818,941
1899	867,415	684,016	1,551,431
1900	723,117	1,336,887	2,060,004
1901 (for ten months)	701,494	1,148,288	1,849,782

Weather and Crops.

112. The following statement shows the rainfall in inches in representative districts throughout the province:—

District.	January to May.		June to September.		October to December.		Total.	
	1900.	Mean of preceding five years.	1900.	Mean of preceding five years.	1900.	Mean of preceding five years.	1900.	Mean of preceding five years.
Lower Burma.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
Akyab	2·63	12·09	158·29	169·79	4·44	12·87	165·36	194·75
Hanthawaddy*	11·51	13·31	87·42	72·48	8·67	5·49	107·60	91·28

Horticulture.

113. There was no addition to the two existing Horticultural Societies. The Agri-Horticultural Society of Burma has its headquarters in Rangoon. The number of members at the close of the year was 132 or 7 more than at the end of 1899. The financial position of the Society has been steadily improving during the past few years. The receipts of the year, including grants-in-aid from Government (Rs. 2,400) and from the Rangoon Municipality (Rs. 1,200), amounted to Rs. 16,273 and the expenditure aggregated Rs. 15,056. The balance in hand at the close of the year was Rs. 9,959 against Rs. 8,742 in 1899 and Rs. 7,167 in 1898. The stock in the garden of all kinds of ornamental plants and fruit-grafts has been steadily augmented, but the introduction of new plants has not been appreciated to any great extent by the public. The sale of fruit-grafts to residents in outstations increased greatly during the year. The present site of the Society's gardens has been acquired by Government in connection with schemes for the erection of a large Provincial Museum and for the extension of the Rangoon General Hospital. A new site has been provided for the Society in a suitable locality. The Phayre Museum, which is at present administered by the Society, and which stands in the Society's gardens, is to be converted into a Provincial Museum under the immediate control of Government, but bearing the same name as it does at present. This measure will enable the Society to devote more funds to horticulture. The Zoo, which is attached to the garden, continued to be popular with the native population. The number of visitors to the Zoo was 295,375 as compared with 252,231 in 1899.

The Tenasserim Agri-Horticultural Society has its headquarters at Moulmein and continued to do useful work. The annual horticultural show was again

* Rangoon is situated in the centre of the Hanthawaddy district.

successfully held during 1900. The expenses of the Society are financed by the members with a small allowance from the Moulmein Municipality for the upkeep of the Victoria garden. The balance to the credit of the Society at the close of the year was Rs. 749 as against Rs. 701 in 1899.

Forests.

Forest reservation.

114. The area of reserved forest in Burma at the beginning of the year was 17,153 square miles. Forest areas amounting to 796 square miles were added during the year; but as exclusions amounting to 112 square miles were made, the total area of reserved forest has only increased during the year to 17,837 square miles. Large areas, however, await settlement. At the end of the year of report 585 square miles were awaiting settlement in the Pegu circle, while in the Tenasserim circle some 630 square miles of proposed reserve remained unnotified, but the settlement work of 510 square miles of this area had been completed, leaving only 120 square miles awaiting settlement. In the Northern circle some 611 square miles of proposed reserve remained unnotified, of which at the end of the year 444 square miles still awaited the Settlement Officer's operations. In the Southern circle settlement enquiries had been held in reference to 836 square miles of reserves, which remained unnotified at the end of the year, and a further area of 296 square miles still awaited the Forest Settlement Officer.

Forest survey.

115. During the year No. 20 Party, Burma Forest Survey, carried out operations in the Pegu, Rangoon, and Thayetmyo divisions of the Pegu circle, and completed over 218 square miles of detail survey on the 4-inch scale, of which 124 square miles fell in the Pegu division and only 8½ square miles in the Rangoon division, the remainder falling in the Thayetmyo division. The party traversed 125 miles in the Pegu division and 215 miles in the Thayetmyo division. Maps were received by the Forest Department for 190 square miles of reserved forests in the Pegu circle. In the Tenasserim circle maps were received for 514 square miles of reserved forests. The Survey party working in this circle was transferred to Upper Burma. Work was started in the Northern circle on 20th March and ended on 10th June. In the Upper Chindwin 265 square miles of triangulation were completed and in the Myittha division 35 square miles, while 67 miles of linear traverse were completed in the former division. No maps were received during the year. Forest survey parties were at work in the Ruby Mines and Minbu divisions of the Southern circle again this year. Maps for an area of 140 square miles were received. In all circles local surveys were also carried out by Forest Officers.

Working-plans.

116. No working-plans party was available for the Pegu circle, in which 3,704 square miles out of a total reserved area of 4,727 square miles are still without regular working-plans. Plans of operations are in force over the whole forest area of the circle, 16,530 square miles. In the Tenasserim circle a working-plans party continued to be employed for the Pyukun and Pyuchaung reserves. Working-plans have still to be taken in hand in that circle for 3,182 square miles and it seems probable that for many years to come the formation of new reserves will counterbalance the area for which working-plans are framed. Suggestions for simplifying the preparation of working-plans so as to obtain a more rapid rate of progress are receiving consideration. Annual plans of operations were as usual drawn up for each division in this circle. In the Northern circle, which is almost without working-plans, no progress was made, but as the systematic survey of the principal reserves has now been started, maps will not long be delayed and the preparation of working-plans will then be pushed on. The forests for which working-plans have not yet been prescribed are being worked on a preliminary working-plans based on valuation surveys. In the Southern circle a plan for 196 square miles of teak forest to be worked on the selection system was sanctioned by Government during the year. Working-plans for 600 square miles were under preparation. Of these a plan for 127 square miles was completed during the year and awaits the approval of the Inspector-General of Forests, while another plan for 193 square miles was com-

pleted and was in the press at the end of the year of report. Preliminary plans for teak exploitation have been drawn up for 334 square miles in the Southern Shan States.

Forest offences.

117. The total number of cases of breach of Forest Law rose to 2,632 from 2,383 for last year, but was less than the number for the preceding year, which was as high as 2,806. Of these 2,630 cases 1,036 arose in the Pegu circle, 771 in the Tenasserim circle, 607 in the Southern and only 218 in the Northern circle. There were 94 cases of incendiarism. The 664 cases tried by the courts resulted in 530 convictions and 134 acquittals and 1,706 cases were compounded. The remarkable variations in the percentage of convictions between one division and another indicate that want of care in preparation of cases before going into court accounts for a great number of failures.

Fire-protection.

118. Fire-protection operations were not as successful as might have been hoped in Upper Burma, but were successful in the Pegu circle, and exceptionally so in the Tenasserim circle of Lower Burma. In the Pegu circle 1,057 square miles were successful out of 1,210 square miles attempted, as against 667 out of 838 square miles last year. In the Tenasserim circle 1,596 out of 1,602 square miles were successfully protected as against 1,170 out of 1,182 square miles attempted last year. In the Northern circle 1,322 out of 1,624 square miles attempted were successfully protected as against 1,137 out of 1,205 square miles last year. The proportion of failures and the cost of protection both rose very considerably. In the Southern circle 587 out of 728 square miles were successfully protected as against 500 out of 584 square miles last year. The cost of protection also rose considerably.

Natural reproduction, plantations and experimental cultivation.

119. Not much has been done to assist natural reproduction, which is good in some parts of the province and bad in others. Improvement-fellings have been undertaken, but not always successfully, as they have to be undertaken by very imperfectly trained subordinates. No extension was made in the area of regular plantations in the Pegu circle, but the teak and cutch *taungya* plantations were increased by 777 acres. Sanction was given to the formation of a large Para-rubber (*Hevea Braziliensis*) plantation of 10,000 acres in the South Tenasserim division of the Tenasserim circle upon which work has been commenced. The experimental rubber garden at Mergui was worked profitably during the year and a contribution was made by Government towards the Kanbè rubber plantation in Rangoon, which is under the management of the Cantonment Committee. In the Southern circle an experimental plantation (26 acres) of pines, *Eucalypti*, *Cypress*, *Dalbergia*, *Sissoa*, *Cedrelatoona*, etc., and of various fruit trees was begun at Maymyo. The area of regular plantations in the Northern circle was not increased during the year. In the Northern circle the sample plot measurements made for the purpose of demonstrating the results of protection from fire on tree growth were continued. The *Ficus elastica* plants in the Mohnyin reserve suffered from the destructiveness of wild elephants.

Teak girdlings.

120. In the Pegu circle 13,253 girdlings were carried out; in the Tenasserim circle 13,113 girdlings. In the Northern circle 19,159 trees were girdled and in the Southern circle 9,235 trees.

Teak extraction.

121. In the Pegu circle the departmental teak extractions increased by 2,000 tons to about 27,000 tons of teak. Extractions by licensees amounted to 4,780 tons. The Government teak extractions for the Tenasserim circle was 9,280 tons as against 8,872 tons last year. There was an increase in the general output due to large extractions by purchasers of teak to the extent of nearly 15,500 tons. The Government extractions of teak in the Northern circle amounted to 10,577 tons; the extractions by lessees to 46,257 tons; those by purchasers to 10,070 tons; and by free grantees to the amount of 1,529 tons; or the total extractions to 68,433 tons. In the Southern circle 5,175 tons only were extracted by departmental agency, 109,172 tons by purchasers, and 3,386 tons of teak by free grantees.

Extraction and sale of timber other than teak.

122. The total outturn of timber (including teak) from the Pegu circle forests was 109,135 tons. The amount of timber extracted by Government agency disposed of in the same circle during the year was 33,220 tons, of which 32,571 tons were teak. The timber left on hand at the close of the year amounted to some 48,077 tons. In the Rangoon sale depôt 30,916 tons of Pegu circle timber were sold by public auction and, although throughout the year an average of nearly Rs. 65 per ton was realized as against Rs. 67-13-0 last year, yet owing to the depressed state of the timber trade the selling price fell from Rs. 74-13-5 per ton in July 1900 to Rs. 56-15-0 in June 1901 and has since only very slightly improved. In addition 3,893 tons of teak belonging to other circles were sold. On hand at the close of the year in the sale depôt were 12,363 tons of teak and 26 tons of other timbers. The total outturn of timber from the Tenasserim circle was 118,243 tons. In the Northern circle the total outturn of timber was about 121,000 tons, of which 52,613 tons were of timber other than teak. In the Southern circle the amount of timber other than teak extracted by Government was insignificant, but 7,670 tons of *pyingado* and 57,737 tons of inferior species were extracted by purchasers and 6,064 tons by right-holders.

Fuel and minor produce.

123. The fuel outturn in the Pegu circle was 110,000 and odd tons, of which nearly 20,000 tons was from reserves. It is feared that the fuel rights and privileges granted in some reserves of this circle exceed the productive capacity of the forests, and the matter is now under the consideration of Government. The fuel outturn of the Tenasserim circle was 70,941 tons; of which 9,412 tons was from reserves. In the Northern circle 26,312 tons of fuel were extracted from unclassed forests and only 806 tons from reserves, while in the Southern circle 119,851 tons of fuel were extracted from unclassed forests and 15,258 tons from reserves. Cutch in the Pegu circle realized only Rs. 12,130 as against Rs. 93,125 in the previous year. This is due to the issue of licenses in Thayetmyo being curtailed and the exhaustion of the supply from the unclassed forests of Tharrawaddy and Prome, as also to the fact that the system of selling standing trees was only introduced during the year and has not yet had time to become popular. In the Northern circle 227 tons of cutch were extracted under the licenses and in the Southern circle 964 tons. All minor produce continues to be extracted under licenses.

Financial results.

124. The financial results of the year's working are shown in the following statement :—

Year.	Circle.	Receipts.	Charges.	Surplus.	Proportion of surplus to gross revenue.
		Rs.	Rs.	Rs.	
Forest ...	Pegu	25,42,528	8,48,348	16,94,180	66·64
	Tenasserim	16,30,719	6,87,904	9,42,815	57·82
	Southern	20,77,404	5,86,004	14,91,400	71·79
	Northern	14,55,673	5,22,386	9,33,287	64·11
	Total, 1900-1901 ...	77,06,324	26,44,642	50,61,682	65·68
	Total, 1899-1900 ...	79,87,298	26,97,010	52,90,288	66·23
	Difference in 1900-1901 ...	— 2,80,974	— 52,368	— 2,28,606	— 0·55

Year.	Circle.	Receipts.	Charges.	Surplus.	Proportion of surplus to gross revenue.
		Rs.	Rs.	Rs.	
Financial	Pegu	28,39,709	8,89,376	19,50,333	68·68
	Tenasserim	17,03,654	6,69,344	10,34,310	60·71
	Southern	20,48,542	5,64,791	14,83,751	72·43
	Northern	14,69,671	6,15,457	8,54,214	58·12
	Total, 1900-1901 ...	80,61,576	27,38,968	53,22,608	66·02
	Total, 1899-1900 ...	78,12,053	25,18,287	52,93,766	67·76
	Difference in 1900-1901 ...	+2,49,523	+2,20,681	+28,842	—1·74
	Average for the past five years ending 1899-1900.	70,90,594	22,14,468	48,76,126	68·78

The revenue was contributed under the following heads :—

Particulars.	1899-1900.	1900-1901.	Increase or decrease.
	Rs.	Rs.	Rs.
(*a*) From timber and other produce removed from the forests by Government agency.	31,39,532	31,51,950	+ 12,418
From timber and other produce removed from the forests by lessees, consumers and purchasers. (*b*) Timber	36,72,787	35,11,071	— 1,61,716
(*c*) Firewood and charcoal ...	1,12,031	1,31,121	+ 19,090
(*d*) Bamboos and canes ...	1,55,449	1,75,897	+ 20,448
(*e*) Grazing and fodder grass ...	1,696	2,316	+ 620
(*f*) Other minor produce ...	2,85,742	1,51,262	— 1,34,480
(*g*) Confiscated drift and waif wood	2,17,006	1,74,289	— 42,717
(*h*) Duty on foreign timber and other produce ...	3,12,883	3,07,141	— 5,742
(*i*) Miscellaneous	90,172	1,01,277	+ 11,105
Total ...	79,87,298	77,06,324	— 2,80,974

The following table gives the figures of the export of teak since 1896-97 :—

Year.	From Moulmein.		From Rangoon.		Total.		Average value per ton.
	Tons.	Value.	Tons.	Value.	Tons.	Value.	
		Rs.		Rs.		Rs.	
1896-97 ...	75,298	60,98,816	115,854	98,50,012	191,152	1,59,48,828	83·44
1897-98 ...	65,986	54,21,499	207,405	1,84,37,474	273,391	2,38,58,973	87·27
1898-99 ...	66,002	56,04,701	202,281	1,71,44,554	268,283	2,27,49,255	84·78
1899-1900 ...	62,983	54,84,419	209,303	1,73,87,530	272,286	2,28,71,949	84·00
1900-1901 ...	64,271	55,58,616	183,511	1,51,11,083	247,782	2,06,69,699	83·42

The Burma Forest School.

125. It was found necessary in view of the results obtained during its first year of existence to revise the course of instruction given at the Burma Forest School, Tharrawaddy, and to insist upon more actual practical work in the field, and the course was extended from 18 months to two years, the second year being entirely devoted to practical work in the forests. The number of students to be admitted annually was raised from 8 to 12, and the school was thrown open to Deputy Rangers and Rangers. Much good work is expected from this school in the future in the way of training the subordinate forest staff.

General.

126. The draft Forest Bill alluded to last year will shortly be considered by the Burma Legislative Council. A scheme is now under consideration for working the Rangoon Depôt by steam dragging-power instead of as heretofore by elephants, the scarcity and high price of which is becoming a serious matter to the Forest Department. Land is being acquired for a new timber depôt at Mandalay. The former shore depôt was inadequate and that at Nandawkyun unsafe.

Mines and Quarries.

Jade.

127. The amount of jade extracted from the jade mines in the Myitkyina district in 1900 was 1,788 cwts. valued at Rs. 1,63,396 as compared with 1,111 cwts. valued at Rs. 42,048 in the previous year. The large increase in value is ascribed to increased demand consequent on small exports in 1899 and to the fact that the licensee was able to assess the stones brought down at a higher rate, the year being the first one of a three-years' license. Permission was given to some Kachins to search for jade free in the Katha district, but no find of any stone of value has been reported.

Rubies.

128. The finest rubies in the world come from the Mogôk valley of the Ruby Mines district. Work in the stone tract was carried on both by native miners and by the Burma Ruby Mines, Limited, to whom the right to mine rubies by European methods is leased. As in previous years the Company enjoyed the right to levy royalties from persons working by native methods. The fees thus realized amounted to Rs. 2,58,020, a decrease of Rs. 15,951 as compared with the fees realized in 1899. The ruby market was somewhat dull during the first four months of the year, but showed some signs of recovery in May. From June to December there was a steady demand for all qualities and the market was good. The expenses of the Company during the year were Rs. 7,02,000 and the value of the stones found was Rs. 14,59,898 or Rs. 97,176 more than in the previous year. A dividend of 17½ per cent. was paid by the Company as the result of the year's work. The dividends paid in 1899 and 1898 were 12½ per cent. and 5 per cent. respectively. The erection of a two-pan washing machine at Padansho near Kyauklôngyi has recently been completed and it will now be possible to double the output from this mine. Towards the close of the year preparations were made to start a new mine at Chaungzôn to the south of the town. A third electric installation intended to work this mine has already arrived at Mogôk.

The revenue derived from the sale of licenses for digging rubies in the Nanyaseik tract of the Mogaung township, Myitkyina district, was Rs. 1,750. During the year a few good stones were obtained in a fresh field about a mile and a half from Nanyaseik village. This has caused a large influx of miners and many are waiting to take out licenses as soon as certain occupied paddy-land can be made available for their operations. The mines worked up to last year have been abandoned. A few rubies were found by a prospector in the Katha district, but they were too small to be of marketable value.

Gold.

129. North at the Kyaukpazat gold mine continued to be during the year. During the first part of the year but little gold was produced, as owing to the scarcity of labour the miners had to be employed in lessening the slope of an escarpment and erecting the cyanide works then in course of construction. On the completion of the works ordinary mining operations were resumed and the output of gold, owing to the application of the cyanide process, considerably increased. The total output was 1,233 ounces, almost the same as in the previous year, but the value declined from Rs. 65,668 to Rs. 49,683. The fall in value is ascribed to the inferior value of the bullion obtained by the cyanide process. The Legyin Prospecting Syndicate brought out a qualified mining engineer during the year. Three prospecting licenses for gold were issued in the Katha district, as also two exploring licenses for quartz crystal. A prospecting license for gold washing within the bed of the Irrawaddy river from the confluence above Myitkyina to the mouth of the Taiping river, a distance of about 120 miles, has been granted to Messrs. Moore and Terndrup. The licensees propose to prospect for gold on the sand banks in the bed of the river. If they succeed in discovering alluvial gold in any quantities they will bring a floating steam dredger into operation at the spot. This dredger will raise the sand from under water into the body of the vessel, where the sand will be washed in order to separate the particles of alluvial gold. Gold-washing operations with dredgers are not unknown on the rivers of Australia and the result of this novel experiment in the Upper Irrawaddy, which will shortly begin, will be watched with interest.

130. The Letkôkpin colliery in the Shwebo district was worked during the year by the Burma Coal Company and produced 8,770 tons against 8,105 tons in 1899. The average daily number of hands employed rose from 230 to 246.

Coal.

131. The amber mines lie beyond the administrative frontier of the Myitkyina district. Ten cwts. were extracted during 1900 valued at Rs. 1,540. The mines have been worked to almost total exhaustion and the scarcity of the mineral has raised the value.

Amber.

132. Tin is found in the Tavoy and Mergui districts. In Tavoy 19 cwts. were extracted during 1900, valued at Rs. 1,680, as compared with 14 cwts., valued at Rs. 511, in the previous year. The increase in price was the result of increased demand in Rangoon, to which place all the tin produced was exported. Two thousand and fifty-nine cwts. were extracted at Mergui, valued at Rs. 1,26,329. The outturn and value for 1899 were 1,408 cwts. and Rs. 1,17,894 respectively. The increase in output is reported to be due to a sufficiency of rainfall and the decrease in price to larger production. Messrs. Heim and Money, who were granted a lease of 400 acres at Maliwun last year, have since relinquished it in lieu of a lease of nearly 4 square miles. They propose working tin by hydraulic sluicing, obtaining water by damming the Maliwun stream above the water-falls and carrying down the water by means of 18-inch pipes. The dam has been made, but no pipes have been laid yet. Parts of the pumping machine have arrived, but have not been put together.

Tin.

133. The principal seats of the petroleum industry are Yenangyaung in the Magwe, and Yenangyat in the Pakôkku district; petroleum is also worked in the Akyab and Kyaukpyu districts. The outturn for the whole of Burma was 36,974,288 gallons valued at Rs. 21,51,663. The Burma Oil Company failed to discover new wells of any size at Yenangyat and the output of the year from the Yenangyat field declined from 10,030,790 gallons valued at Rs. 5,77,373 to 9,701,769 gallons valued at Rs. 4,84,423. The yield of the Yenangyaung wells was 27,123,325 gallons valued at Rs. 16,25,541 as compared with 22,111,514 gallons valued at Rs. 11,92,658 in 1899. The increase in output is due to the extension of the Burma Oil Company's works and to deeper borings. The increase in value is due to the agreement between the Burma Oil Company and Moola Ismail, the monopolist of the local retail trade in crude oil, on the one side and the *twinzas*, hereditary proprietors of wells, on the other to sell at a recognized rate. The output from the Arakan field was 36,852 gallons or 13,707 gallons less than in the previous year. The decrease was due to the wells having caved in. The yield from Kyaukpyu was 112,342 gallons valued at Rs. 31,754.

Petroleum.

134. The tourmaline mining industry on the borders of the Ruby Mines district revived to a slight degree owing to the find of a few good stones. The outturn during the year was 20 viss valued at Rs. 18,600. There has been no demand since April 1900. A few diamonds, garnets and topazes were found by a prospector in the Katha district, but they were all too small to be of marketable value. The topazes are said to be the first of their kind found in Burma.

Other minerals.

Manufactures.

135. The principal manufactures of Burma were specified in the report of 1889-1890. The number of factories which came within the scope of Act XV of 1881 in Lower Burma was 150, being 9 more than in 1899. Ten factories in Rangoon Town and suburbs were added to the list during the year and two in Moulmein, while two factories in Toungoo and one in Tavoy disappeared from the list. In 79 factories work was carried on by shifts or sets, in 56 by midday stoppages and in the remaining 15 by a combination of shifts and midday stoppages. The mechanical power in every case was steam. Three factories, all in Rangoon, were exempted from the rule requiring a Sunday or weekly holiday, but the Inspector reports that the law is broken with impunity in Rangoon in native-owned factories, where Sunday labour is common and where the system of employing coolies makes it impossible in their case and difficult in the case of other operatives to ascertain whether an alternative holiday has been given. The average daily number of operatives

employed in the factories amounted to 22,883 against 19,138 in 1899. The number of women and children employed was 444 as compared with 346 and 182 in the two preceding years. The work given them is light and unobjectionable. A fair amount of inspection was done during the year of report. Twenty factories were inspected once, 43 factories twice, 29 factories thrice, and 55 factories more than three times. Only three factories were not visited. From the Inspecting Officers' reports it would seem that machinery and gearing were everywhere sufficiently protected. There is, however, room for improvement in some instances in the sanitary arrangements provided. One hundred and sixty-six accidents were reported during the year, of which seven were fatal, 103 serious and 56 of a slight nature. Of the seven fatal accidents which occurred during the year four are attributed to carelessness on the part of the men killed. In two of the cases in Rangoon the accidents occurred to men employed in oiling the machinery. This occupation is attended with special risk and inspecting officers have been instructed to see that arrangements are made to minimise the danger as far as possible. Only one prosecution was instituted during the year. The prosecution was directed against the Manager of the Ôkpo saw-mill in the Tharrawaddy district for keeping his mill in an insanitary condition. The result of the prosecution has not yet been reported. Rules for the protection of machinery were framed under section 18 of the Act during the year. Since the close of the year a brief summary of the Factories Act and rules in their relation to employés has been printed in the different vernaculars and distributed to be hung up inside the factories.

Commercial—Marine.

136. The number of vessels and the aggregate tonnage engaged in the seaborne trade of the province in each of the past three years were as follows :—

	Vessels.	Tonnage.
1898-99	6,344	4,133,436
1899-1900	6,223	4,147,646
1900-01	6,500	4,506,364

This tonnage was distributed in the following proportions among the four chief ports and the smaller ports :—

Port.	1898-99.				1899-1900.				1900-01.			
	Entered.		Cleared.		Entered.		Cleared.		Entered.		Cleared.	
	Vessels.	Tonnage.	Vessels.	Tonnage.	Vessels.	Tonnage.	Vessels.	Tonnage.	Vessels.	Tonnage.	Vessels.	Tonnage.
Rangoon	1,225	1,417,373	1,235	1,431,773	1,214	1,457,380	1,190	1,429,659	1,304	1,575,372	1,305	1,588,078
Akyab	290	167,158	282	166,752	345	184,994	330	182,868	397	220,542	383	224,977
Bassein	40	78,123	42	78,058	34	70,170	33	68,414	43	86,913	43	83,372
Moulmein.	674	263,089	712	270,413	670	260,233	715	262,136	753	265,277	780	261,043
Smaller ports.	922	130,477	922	130,220	831	114,132	861	117,660	745	100,322	747	100,468
Total	3,151	2,056,220	3,193	2,077,216	3,094	2,086,909	3,129	2,060,737	3,242	2,248,426	3,258	2,257,938

Foreign trade.

137. The aggregate value of the foreign imports of the year was 687 lakhs, being the highest aggregate yet recorded. The advance was attributable to general prosperity and business activity throughout the province. The value of the foreign export trade was on the other hand 1,003 or 15 lakhs below its value in the preceding year. The decrease was due to the continued diversion of large quantities of rice to India owing to scarcity there.

There were 27 fewer vessels entered than in 1899-1900 and their tonnage showed a decrease of 31,139 tons. The vessels that cleared numbered 24 less than in the previous year and their total tonnage decreased by 3,510. In all, the vessels that both entered and cleared decreased by 51 and their tonnage by 34,649.

Three hundred and sixty-seven steamers with tonnage aggregating 651,334 tons and 113 sailing vessels with a total tonnage of 28,565 entered the several ports of the province, whilst the vessels that cleared numbered 389 steamers with a total tonnage of 709,704 tons and 75 sailing vessels with an aggregate tonnage of 25,310 tons. In 1899-1900, 379 steamers of 638,285 tons and 128 sailing vessels of 72,753 tons entered and 387 steamers of 666,539 tons with 101 sailing vessels of 71,985 tons cleared. The decrease was due to the increase in shipments to India and to the larger capacity of the steamers employed.

Coasting trade.

138. The recorded value of the coasting trade increased by over 368 lakhs as compared with the previous year, chiefly due to extensive shipments of rice to the presidencies of Bengal, Bombay, and Madras. The imports also showed an excess of Rs. 73,66,008 over the figures of the preceding year. The number of vessels which entered and cleared at Burma ports was 3,555 steamers of 3,114,431 tons as against 3,439 steamers of 2,739,068 tons in 1899-1900, and 2,423 sailing vessels of 128,103 tons against 2,232 sailing vessels of 113,016 tons—a total of 5,978 vessels of 3,242,534 tons against 5,671 vessels of 2,852,084 tons.

Rangoon.

139. In Rangoon the number of arrivals and departures and the aggregate tonnage of vessels showed a satisfactory increase. The decrease in the number of European sailing vessels is very marked.

Eighty more steamers and 36 fewer sailing vessels (European) entered than in 1899-1900, while in native craft there was an increase of 46.

Wrecks and casualties.

140. The number of shipping casualties in Rangoon pilotage waters was 19, five more than in the preceding year. In eleven cases the vessels were in charge of a harbour-master, and in eight a pilot was in charge; material damage occurred only in five cases of collision. The *Pegu* while coming alongside the Brooking street wharf collided with the wharf. The harbour-master was reprimanded and warned. The *Nerite* while proceeding to her moorings grounded on the Dala side of the river, and the harbour-master who was in charge was warned. The *Karagola* collided with and damaged the Sule Pagoda wharf, owing to the engines having gone astern instead of ahead, as ordered. The *Africa* collided with a cargo-boat and the *Karagola* grounded in the Monkey Point channel. The pilots in charge were cautioned and reprimanded respectively. At Moulmein the grounding of the *Baron Glamis* formed the subject of an enquiry, which resulted in the pilot being exonerated from all blame. An accident of a minor nature occurred at Akyab. There was an enquiry to investigate the casualty to the *Maria Teresa* at Bassein, the finding of the Court being that the pilot did not show negligence. There were also a few casualties to inland steam-vessels. No wrecks or casualties were reported from other ports.

Marine surveys and tidal observations.

141. No marine surveys were undertaken at Rangoon by the Marine Survey of India. Periodical surveys were made by the Deputy Conservator of the Port as usual. The tidal observations at Rangoon, under the management of the Port Commissioners, were reported to be very satisfactory. Automatic tidal observations with a self-registering tide-gauge were continued at Rangoon throughout the year, and personal observations were taken by means of a tide-pole daily at Akyab and Moulmein, in order to furnish comparisons between these values and the predicted values as given in the tide-tables. The tidal observatory shed that was erected at Bassein fell over and had to be dismantled as the piles were not driven to a sufficient depth. An estimate for rebuilding this observatory is being prepared, and it is hoped that the observatory will be ready for use by the end of 1901.

Light-houses and light-vessels.

142. The Royal Indian Marine steamer *Mayo* visited the Burma light-houses and light-vessels regularly throughout the year. Instead of extending the new jetty at the Alguada Reef light-house into deeper water, it was proposed to clear away the rocks in the vicinity of the end sufficiently to allow of a boat coming alongside at all states of the tide. The China Bakir light-house, which was under re-construction during the

year, was almost completed. The new buildings for the pilots at Amherst Point had all the required alterations done, but it had not been formally made over. The system of relieving the native light-keepers more frequently at such light-houses as have in past years been afflicted with beri-beri has had the tendency to check the number of sick, for during the year under review only seven cases of beri-beri occurred, of which two proved fatal.

The receipts from light-dues show an enhancement of Rs. 49,449 from Rs. 3,16,311 to Rs. 3,65,760. The expansion was most marked at Rangoon (Rs. 19,604), while at Akyab and Calcutta the increases were Rs. 10,763 and Rs. 16,207 respectively. The current expenditure during the year amounted to Rs. 1,30,369, of which Rs. 16,228 was incurred by the Public Works Department. Capital expenditure totalled Rs. 75,455 against Rs. 60,556, the largest item being Rs. 45,812 expended on the reconstruction of the China Bakir light-house.

Pilot service.

143. The Rangoon Pilot Service consisted of fourteen 1st grade, one 3rd grade, one 4th grade, five special pilots, and one probationer. The receipts of the Pilot Fund amounted to Rs. 2,44,294, showing an increase of Rs. 23,200, and the amount paid to the pilots was Rs. 1,48,811 as against Rs. 1,45,416 last year. The Pilot Fund closed with a balance of Rs. 1,25,812. At Moulmein the Pilot service consisted of seven Europeans and three Europeans holding special licenses for the command of local and tug steamers. One 1st grade pilot retired on the 31st March 1901. The highest gross earnings of a 1st grade pilot was Rs. 7,614 and the lowest Rs. 3,928, while the average gross monthly earnings amounted to Rs. 509. At Akyab two pilots shared the pilotage work of the port. They earned Rs. 21,504 in 1900-01 as against Rs. 15,061 in the previous year. The enhancement was due to the increase in the tonnage of the vessels visiting the port. At Bassein the total amount earned by the four European pilots was Rs. 23,846 and that by the one Asiatic pilot Rs. 1,932. A memorial from the pilots asking for increased rates was again considered and the increase asked for granted with effect from the 13th May 1901.

Port funds.

144. The receipts of the Rangoon Port Trust Fund increased by Rs. 2,06,755. The expansion was partly due to an increase in the number of vessels which visited the port and partly to a contribution by Government of one lakh in aid of precautionary measures adopted to prevent the importation of plague. The increase of expenditure of Rs. 2,20,000 was mainly due to outlay on the purchase of new vessels and to plague precautions. The accounts closed with a substantial balance of over $5\frac{1}{2}$ lakhs. Plague measures cost $1\frac{1}{2}$ lakhs against Rs. 86,721 last year. The only case of plague introduced into the country was detected and isolated by the Port staff, but it proved fatal. The rules and regulations framed to prevent the plague from being imported into Rangoon were strictly enforced during the year.

Minor ports.

145. The total income (excluding debt accounts) of the remaining six port funds amounted to Rs. 2,36,962 against Rs. 2,29,398 in 1899-1900. The expenditure aggregated Rs. 1,73,396 as compared with Rs. 1,84,381.

Seaborne Trade.

General statistics.

146. The aggregate value of the seaborne trade of the province was the largest ever recorded. It amounted to Rs. 41,69,16,015, of which Rs. 35,84,06,210 represented private trade and Rs. 5,85,09,805 traffic on Government account against Rs. 31,22,99,884 and Rs. 1,62,31,735 in 1899-1900. A general revival took place in the import trade of the province during 1900-1901. Very small stocks at the end of March 1900 combined with active markets led to greatly enhanced importations from all countries, while the excellent paddy crop within the province enabled the people of the country to indulge more freely in imported goods. The export trade also showed a considerable improvement, principally in that with India, owing to the abnormal demand for rice consequent on the famine. Exports to foreign countries were also well maintained and were almost identical with those of the preceding year. The

following table exhibits the progressive value of the trade of Burma since 1866-1867. The figures do not include Government exports and imports :—

Year.	Rangoon.			Other Ports.			Total for the Province.		
	Imports.	Exports.	Total.	Imports.	Exports.	Total.	Imports.	Exports.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1866-1867 ...	1,74,05,330	1,18,80,320	3,93,75,650	80,57,520	1,12,60,300	1,93,17,820	2,55,52,850	2,31,40,620	4,86,93,470
1871-1872 ...	2,25,11,500	2,29,71,550	4,57,83,110	87,68,300	1,48,30,620	2,35,98,920	3,15,79,860	3,78,02,170	6,93,82,030
1876-1877 ...	3,60,21,660	3,39,16,470	7,05,38,130	1,04,72,380	2,12,50,070	3,17,22,450	4,70,94,040	5,51,66,540	10,22,60,580
1881-1882 ...	5,05,00,560	4,73,42,340	9,78,42,900	1,33,49,280	3,32,29,070	4,65,78,350	6,38,49,840	8,05,71,410	14,44,21,250
1886-1887 ...	6,34,26,350	5,07,65,120	13,01,91,470	1,30,36,400	3,01,51,260	4,37,87,660	7,70,62,750	8,69,16,380	16,39,79,130
1891-1892 ...	9,02,87,495	9,00,82,192	18,03,70,087	1,47,18,352	3,66,39,686	5,13,58,038	10,50,06,247	12,67,21,878	23,17,28,125
1892-1893 ...	9,31,46,592	9,33,34,744	18,64,81,337	1,65,88,854	3,24,12,328	4,90,01,182	10,97,35,449	12,57,47,070	23,54,82,519

1900-1901 ...	11,79,16,385	16,53,95,146	28,33,11,531	2,64,15,151	4,86,79,528	7,50,94,679	14,43,31,536	21,40,74,674	35,84,06,210

Trade of the several ports.

147. Compared with 1899-1900 the value of merchandise increased 20·14 per cent. at Rangoon, 23·99 per cent. at Akyab, 14·71 per cent. at Bassein, 10·56 per cent. at Kyaukpyu, 4·89 per cent. at Mergui, 10·49 per cent. at Moulmein, 26·62 per cent. at Sandoway, but decreased 8·49 per cent. at Tavoy and 19·07 per cent. at Victoria Point. There were substantial advances both in the foreign and coasting imports at Rangoon. The former increased by 199 lakhs, chiefly under apparel, cotton twist, cotton piece-goods and silk and woollen piece-goods, and the latter by 49 lakhs, mainly under coal, cotton coloured piece-goods, earthnut oil, silk piece-goods and betel-nuts. Exports to foreign countries fell off by 20 lakhs, principally in cutch, kerosine oil and raw cotton, while the continued heavy shipments of rice to India increased the value of the coasting exports by 242 lakhs over the high figures of 1899-1900. At Akyab coasting imports advanced by nearly 8 lakhs, while foreign and coasting exports which consist principally of rice declined by about 14 lakhs in the one case, but increased by over 47 lakhs in the other. At Bassein heavier shipments of rice to Europe increased the value of exports to foreign countries by over 14 lakhs, but there was a decrease in the value of the imports from foreign countries and in the coasting exports. Contrary to the transactions of 1899-1900 the trade of Moulmein took an upward tendency in all its branches.

Import trade.

148. The value of the private merchandise imported during the year was Rs. 13,54,73,050, of which Rs. 6,86,87,833 represented foreign imports and Rs. 6,67,85,217 imports coastwise against Rs. 4,86,97,999 and Rs. 5,94,19,209 respectively in 1899-1900. The satisfactory advance in the foreign import trade of the year is attributable to general prosperity and business activity throughout the province with the exception of the imports from Mauritius and the United States, which declined considerably, the former on account of smaller shipments of stone and the latter on account of more limited supplies of kerosine oil; the import trade with nearly all other foreign countries showed a marked improvement. Much larger consignments of nearly all classes of goods were received during the year, but principally of apparel, machinery and mill-work, seeds, sugar and umbrellas. The chief decrease was in ship-building material, very large supplies having been received in the preceding year for vessels which were under construction during the present year. The activity which prevailed in the foreign import trade also manifested itself in the imports coastwise, which improved by 73 lakhs, chiefly in coal, cotton twist, coloured piece-goods, jute, gunny-bags, brass (wrought), earthnut oil and silk piece-goods. The decreases occurred chiefly in articles in which there was a larger foreign trade.

Export trade.

149. The value of the private export trade of the year, both foreign and coasting, amounted to Rs. 21,10,21,333 as compared with Rs. 18,64,34,440 in 1899-1900. The value of the foreign export trade of the year was 1,008 lakhs or 15 lakhs below its value in the preceding year. The decrease was due to the continued diversion of large quantities of rice to India owing to scarcity there and to a decline in the exports

of raw cotton, cutch and kerosine oil. The aggregate value of the coasting export trade was 1,106 lakhs, towards which rice contributed 736 lakhs. The increase in this branch was Rs. 2,94,74,442, exports of country produce having increased in value to the extent of Rs. 2,83,18,593 and foreign merchandise to the extent of Rs. 11,55,849. There was a large trade in grain, pulse and kerosine oil during the year.

Inland Trade.

150. A new registration office was opened at Theingôn in the Yamèthin district. The total registered trade increased by 11·86 per cent. and was valued at Rs. 3,43,51,100. The value of the trade with Western China amounted to 61 lakhs or 40·10 per cent. more than in the previous year. The trade with the Northern Shan States was a little short of 100 lakhs, while that with the Southern Shan States was worth 92 lakhs.

Lower Burma.

151. The trade with Siam *viâ* Myitta in the Tavoy district was only worth Rs. 20,000, that *viâ* Kyeikdôn in Amherst fell away to Rs. 45,000 because of elephant thieving, but that along the main route through Kawkareik increased satisfactorily under the heads of silk and jewellery. With Raheng the trade amounted to about half a lakh either way and is increasing, and with Zimmè there has been a very marked improvement in the trade through Tadanku; the value of European cotton goods exported increased by no less than Rs. 1,24,000. The export trade by the three routes in Thatôn diminished, but imports improved at Pa-an and Yinbaing. With Karenni the export trade improved by Rs. 2,25,000 and imports also increased slightly. There was a decrease in the imports of block-tin on account of an epidemic.

Upper Burma.

152. The total value of goods imported from Western China amounted to Rs. 28,71,010 or Rs. 9,16,320 more than in the previous year. The aggregate value of the exports was Rs. 32,07,276 as compared with Rs. 23,83,978 in 1899-1900. The trade through Myitkyina declined owing to robberies and disquieting rumours along the borders, but the trade through Bhamo largely increased owing, it is said, to a diversion of some of the trade from Tongking and also to the unrest along the frontiers of Myitkyina. There was a decrease of Rs. 1,22,000 in the export of raw cotton due partly to the establishment of ginning mills at Myingyan and partly to the inferior quality of the crop owing to heavy rain. Trade with the Northern Shan States has increased and this satisfactory result has been obtained despite decreases in the exports of dried fish and the imports of pickled tea (Rs. 2,34,000). The former is explained by a corresponding increase in exports to Western China and the latter by an abortive combination among a few traders who attempted to establish a corner in wet tea. Exports increased by Rs. 6,14,000, the most noticeable increases being in railway material (Rs. 2,82,000) and in European and Indian cotton piece-goods (Rs. 1,47,000). The total value of goods imported from the Southern Shan States was Rs. 44,16,187 and that of goods exported was Rs. 47,76,219 as compared with Rs. 42,86,659 and Rs. 43,44,564 in 1899-1900. All railborne trade is now registered as trade with the Northern Shan States. There was a decrease in the imports of paper (Rs. 20,000) and potatoes (Rs. 18,000), but the exports in silver increased by Rs. 66,000 on account of the purchase of timber in Kyaingtôn. The bulk of the trade with the Southern Shan States passes through Pyawbwè, where the exports were valued at Rs. 18,35,518. Along the Pyinmana route trade decreased, but the new station at Theingôn registered nearly 2 lakhs worth of traffic. The trade *viâ* Toungoo declined owing to the prevalence of cattle-disease.

Public Works.

General.

153. For the administration of Public Works this province is divided into four circles under Superintending Engineers, and there is a special fifth circle for Irrigation works in Upper Burma, the whole being under the general control of one Chief Engineer. The four territorial circles are named the South-Western, South-

Eastern, North-Eastern, and North-Western. The two last have their head-quarters at Maymyo, as also has the Irrigation circle, the South-Western at Rangoon, and the South-Eastern at Toungoo. The four circles are subdivided into 22 divisions under Executive Engineers, namely, six each in the South-Western and North-Western and five each in the South-Eastern and North-Eastern; the Irrigation circle has three executive divisions and one independent sub-division.

154. The artesian well for supply of water to British troops in Rangoon, continued from last year, having proved a failure, the estimate was closed with an expenditure of Rs. 5,007, and another well, estimated to cost Rs. 8,000, was commenced on a site at the Commissariat godown in Godwin road. It has been sunk to a depth of 166 feet and gives a yield of 12,000 gallons per hour. **Military Works.**

Pumps were purchased and materials collected for three wells in the British Infantry lines at Thayetmyo. The raising of the stop-butts of the British Infantry rifle-range at this station was completed for Rs. 3,347. The renewal of the four barracks at Loikaw in Karenni was completed at a total cost of Rs. 3,273. The renewal of the 10 Commissariat shelter-huts on the 1st section of the Fort Stedman-Kēngtūng mule-road was also completed at a total cost of Rs 4,725.

The work of construction of two mess-houses for officers of the Native Infantry regiments at Mandalay was commenced in November 1900 with materials obtained from barracks dismantled at Myingyan. The buildings will be completed early in 1901-02. The construction of Staff offices at this station from the materials dismantled from a half-company British Infantry barrack at Myingyan was completed by the Burma Sappers and Miners; the offices of the Assistant Adjutant-General, Mandalay District, Paymaster, Mandalay District, and Station Staff are now located there. As no quarters were available in Fort Dufferin for the Deputy Assistant Adjutant-General, Mandalay, No. 1 block, Officers' quarters at the Shore, was dismantled and is being re-erected in the Fort. The accommodation for the Officers of the Burma Sappers and Miners at Mandalay being insufficient, No. 2 block, Officers' quarters at the Shore, was dismantled and is being re-erected in the Sappers' lines for the use of the Officer Commanding. The bells-of-arms in these lines was completed during the year. The drainage of the north-east of Fort Dufferin, where the British Infantry barracks and hospital are situated, being bad, owing to there being insufficient waterway provided for the discharge channels under the moat, a masonry culvert providing the required waterway has been sanctioned at a cost of Rs. 28,389; the work has been practically completed. The fifth set of double unit quarters for the British Officers of the 1st Burma (Gurkha) Rifles at Maymyo was constructed during the year. The other works in connection with the scheme for the provision of accommodation for the 1st Burma (Gurkha) Rifles, namely, a magazine for small arms ammunition, a hospital (with subsidiary buildings), and eight double blocks of quarters for Native Commissioned Officers, were also completed. Quarters for 30 followers, Native Mountain Battery, were completed at Bhamo at a cost of Rs. 3,187. Accommodation was provided at Myitkyina for the officers and men of the 5th Burma Regiment. Old civil buildings were overhauled for accommodating the officers; while for the transport mules, hospital, barracks, cook-houses, latrines, and ration godown temporary buildings were erected.

The existing Native Infantry hospital at Meiktila was improved and the building has also been extended to give the accommodation authorized for a full regiment. Quarters at this station for the Volunteer Sergeant-Instructor and an armoury were completed. Work in connection with the water-supply scheme for the Meiktila Cantonment progressed rapidly during the year and is expected to be complete by the end of July 1901.

145. An estimate amounting to Rs. 10,321 was sanctioned for constructing an office and dwelling for the Forest Subdivisional Officer at Bampôn, but work has been stopped owing to Bampôn being abandoned and a new site being chosen at Loi Lem. Quarters were completed at a cost of Rs. 8,693 for the Forest Officer at Thayetmyo and at a cost of Rs. 9,994 for the Divisional Forest Officer at Toungoo. A combined office for the Conservators of Forests, Northern and Southern Circles, was completed at Maymyo at a cost of Rs. 31,954. Permanent quarters for these officers **Civil Works. Civil Buildings.**

Forest.

are also being provided at an estimated cost of Rs. 34,000. At Mingin a teak house was purchased for Rs. 8,500 and improvements made to adapt it as quarters for the Forest Officer of the Myittha division. Quarters were completed at Minbu for the Deputy Conservator of Forests.

Post Offices.

156. Quarters and an office at Pegu for the Superintendent of Post Offices, Hanthawaddy Division were completed at a cost of Rs. 7,317. Combined Post and Telegraph Offices were completed at Thatôn, Wuntho, and Sima; that at Sima provides quarters for the Postmaster and accommodation for linemen and postmen. Owing to the Post Office at Mogôk being in a rich mining district, the money transactions and the value of parcels of highly priced rubies which pass through it are heavy, and consequently a suitable strong-room has been provided.

Telegraph.

157. The new Telegraph Office at Mandalay, which was begun in September 1899, was finally completed in October 1900 at a total cost of Rs. 83,780.

Administration.

158. A 6-inch artesian well was sunk in the compound of Government House, Rangoon, at a cost of Rs. 6,829. It was sunk to a depth of 105 feet and gives a yield of 7,900 gallons per hour. In connection with Government House, Maymyo, quarters were provided for the Electrician at a cost of Rs. 3,288. Treasure-vaults were either completed or nearly so at Kawkareik, Palaw, Bôkpyin, Amherst, Chaungzôn, Kyaikmaraw, Tenasserim, Allanmyo, Kama, Indaw, Kawlin, Paungbyin, Tammu, Kalewa, Kayabin, Yinmabin, Chaungu, Sagu, Natmauk, Mingun, Tilin, Lèwè, and Taungtha. Second-class record-rooms are in progress at Mergui, Myingyan, and Kindat, while the one at Toungoo was completed for Rs. 22,850; those at Meiktila and Yamèthin were completed, except racks; and that at Shwebo was practically completed. A third-class record-room was completed at Thayetmyo at a cost of Rs. 18,416, and two third-class rooms were practically completed at Sagaing. Intermediate class record-rooms at Pakôkku and Magwe are nearing completion.

Improvements to the quarters of the Assistant Political Officer (Northern Shan States) at Thamakan are in progress; certain additions to the court-house at Taunggyi were completed; quarters are in progress at Taunggyi for the Civil Subdivisional Officer in charge of the Central subdivision (Southern Shan States) and at Myingyan for the Superintendent of Land Records; quarters were completed at Maymyo for the Civil Subdivisional Officer (Northern Shan States) and at Katha for the Superintendent of Land Records; and at Shwebo the Land Records office and Survey school were practically completed.

Minor Department.

159. At Rangoon a sum of Rs. 2,81,849 was expended in acquiring land as a site for the proposed "Provincial Museum."

Educational.

160. Quarters for the Head Master and a barrack for 30 boys and an Assistant Master of the Government Engineering School, Insein, were completed. The school and subsidiary buildings for *Sawbwas'* sons at Taunggyi, estimated to cost Rs. 52,916, have been completed, but the estimate has been kept open for other works which may be found necessary.

Ecclesiastical.

161. Work on the Memorial Church, Mandalay, was practically stopped during the year owing to the original design having to be cut down as it could not be built for the funds available. In the modified drawings all the main features of Mr. Street's original design have been adhered to and work has again been started. The extension of the cemetery at Shwebo, including lych gate, was completed.

Law and Justice.

162. A sum of Rs. 7,52,374 was incurred in acquiring site in Rangoon for the proposed new Chief Court. The district court-house, Henzada, was completed; a court-house for the Subdivisional Officer and Myoôk, Meiktila, was also completed. A court-house for a Subdivisional Officer and two Myoôks was practically completed at Pakôkku; another was completed at Salin; and a third is in progress at Myingyan. A new court-house and office for the Commissioner of the Arakan Division at

Akyab and an extension of the Court accommodation at Bassein, estimated to cost Rs. 44,239 and Rs. 37,865 respectively, were commenced. Lightning-conductors for the district court-house at Thatôn were fixed at a cost of Rs. 3,106; the district court-house at Papun was extended and altered. An Honorary Magistrate's court-house at Mergui and a district court-house at Thayetmyo are in progress. An upper storey is being added to the district court-house at Toungoo. A district court-house was completed at Mogôk and handed over for occupation in December. Court-houses were completed for the Subdivisional Magistrates at Tharrawaddy, Wakèma, and Banmauk; for an additional Myoôk at Taikkyi; and for Myoôks at Danubyu, Letpadan, Minhla, Zigôn, Mawlu, Indaw, Kalemyo, and Myothit. Court-houses for Myoôks are also in progress at Massein, Alôn, and Myinmu. Materials were collected for a combined township court-house and rest-house at Kamaing, while a Subdivisional court and rest-house was completed at Yinmabin. Quarters were completed for the Deputy Commissioners at Henzada, Sandoway, and Toungoo; also for the Headquarters Assistant Commissioners at Tharrawaddy and Pegu and for the Civil Subdivisional Officers at Zigôn and Allanmyo. Quarters are in progress for the Civil Subdivisional Officer at Shwebo and the Headquarters Assistant Commissioner at Pakôkku. Owing to the status of the Cantonment Magistrate, Mandalay, having been raised, the existing quarters at Fort Dufferin have been enlarged.

Jails.

163. Work on the artesian well in the Rangoon Jail, begun last year, was completed for Rs. 7,693; the well, however, has not been entirely a success. The under-trial ward of the Insein Jail was completed at a cost of Rs. 54,231; a well, 12 feet in diameter, was sunk and another such well is in progress. In the Reformatory at Insein the 8-foot diameter well, commenced last year, was completed. At Bassein the jail extensions in progress last year were all completed; the water-supply is in progress. The buildings in connection with the new jail at Myaungmya were completed and the jail occupied in March; the water-supply is yet in progress. Estimates aggregating Rs. 87,127 for extensions of this jail to accommodate 1,000 prisoners have been sanctioned and materials are at site. The Henzada Jail extensions were completed, with the exception of the cook-house and the steam-cooking apparatus. To complete the jail at Paungdè a supplementary estimate for Rs. 39,129 has been sanctioned and work is in progress. In the Thayetmyo Jail 20 additional solitary cells were nearly completed at a cost of Rs. 10,929; steam-cooking apparatus was completed for Rs. 14,865; quarters for warders were in progress; and permanent quarters for the Superintendent were completed, the latter costing Rs. 11,668. A new jail, estimated to cost Rs. 58,991, is being built at Mergui; the walls are estimated to cost Rs. 4,855. In the Toungoo Jail four blocks of six solitary cells were completed; in the Shwegyin Jail a block of six solitary cells is in progress; in the Myingyan Jail two solitary cells within the female enclosure were commenced, as were also the necessary alterations to the cook-house for providing steam-cooking apparatus. In the Pagan Jail quarters for two Jailors were completed.

Police.

164. For the Rangoon Town Police quarters were completed for the Inspector of the Kyauktada guard for Rs. 11,891; for 12 married men at Yambôngwin and eight married men at the Bahan guard; also for the Inspector at Pazundaung for Rs. 27,421 (which includes cost of the police-station). The European Head Constables' quarters at Mogul street are in progress. For the Town Civil Police, Mandalay, an estimate amounting to Rs. 62,371 was sanctioned to provide additional accommodation for married and single men, with cook-houses, at Nos. 5 to 19 Town guards; and the work was satisfactorily completed. Iron pipes for water-supply to the Police quarters at Mandalay were laid down. Quarters for the Police Subdivisional Officers were completed at Henzada, Buthidaung, Kalewa, Mingin, Yinmabin, Shwebo, Pagan, and Kyauksè, and were commenced at Myingyan; accommodation was provided for the Police at Tavoy at a cost of Rs. 9,127; land was taken up at Mergui for quarters for the European Inspector; permanent Civil Police lines are in progress at Thayetmyo; the construction of barracks for the Civil Police at Kamaing was carried out by the District Superintendent of Police; the present terrace roof of

the old store barrack, Toungoo Fort, is being replaced by corrugated-iron. Quarters for a Burman Inspector, &c., were completed at Pegu and are in progress at Kindat; quarters for a Head Constable, &c., at Nyaunglebin and Yinmabin were completed; at Pakôkku quarters were completed for four Head Constables, &c.; at Sagaing an additional barrack for 36 single men and quarters for a native Head Constable are in progress; at Minbu quarters for three native Head Constables and three sergeants were completed; at Yamèthin quarters for one Head Constable and three sergeants were completed; at Mandalay quarters were built for the Burman Inspector, Special Branch, and for the European Inspector, Western Subdivision; and at Mogôk quarters were built for a Burman Inspector.

Thanas were completed or are in progress at Zigôn, Ma-ubin, Myebôn, Thetthit, Paungdawthi, Tawa, Myitkyo, Dabein, Paung, Thabyu, Mitan, Mudôn, Karopi, Lemaing, Amherst, Myawaddy, Tenasserim, Palauk, Thayetmyo, Homalin, Massein, Yinmabin, Palè (building moved from Kyadet), Alôn, Pakôkku, Tilin, Swa, Myingun, Natmauk, Kinu, Yanaung, Shwenyaungbu, Taungtha, and Kyaukpadaung. Outposts were built at Sanywè, Thônzè, and Thetngebin; and the guard at Kambè was removed and re-erected at Seikkyi. Civil police-stations at Nos. 14 and 16 outposts, Mandalay, were completed; those at Nos. 12 and 18 are in progress. Additions and alterations were carried out to the police-stations at Manle, Tawngin, Tigyaing, Indaw, and Banmauk. Necessary improvements to the lock-up at Tharrawaddy were completed.

The two-section rifle-range at Thamaing was completed for Rs. 31,554 and improvements to make it suitable for the Lee-Metford rifle were nearly completed on an estimate amounting to Rs. 4,798. A double range up to 300 yards was completed at Myaungmya for Rs. 2,725. A school for the Railway Police, with the necessary subsidiary buildings, is in progress at Ywataung; another school for the civil police is in progress at Yamèthin. An office for the District Superintendent of Police, Shwebo district, was completed at Shwebo.

Bricks were collected for military police lines at Kutkai; military police barracks were completed at Mergui for Rs. 11,453 and at Thatôn for Rs. 9,206; a long barrack, with cook-house, for the accommodation of the Kachin military police company in Fort 'A', Bhamo, was completed; the barracks in the military police post at Sinlumkaba having been burnt down, arrangements are being made to rebuild the post of stone; the whole of the accommodation inside the military police post at Sima, including outside defences, was completed; quarters for two British officers were provided inside the fort; the military police post at Loingu was practically completed; the old buildings comprising the post for 50 military police at Lontôn are being gradually dismantled and being replaced by new semi-permanent buildings; a temporary post for 16 military police at Sinbo, which is withdrawn in the rains, was practically completed; corrugated-iron has been obtained for re-roofing military police outposts in the Myitkyina district; the post at N'krang has been re-constructed as a temporary measure with thatch roofs; temporary barracks for 300 men and nine native officers were completed at Myitkyina; the experimental police post at Kanpetlet (Mount Victoria) was almost completed; barracks for 300 men of the military police and quarters for 30 married men and six native officers were commenced at Mônywa; temporary barracks for military police were well in hand at Yinmabin; additional temporary buildings to accommodate 208 single non-commissioned officers and men, 30 married men, and seven native officers, also a new permanent office for the Battalion Commandant and staff, were commenced at Shwebo and all the main buildings completed; at Thazi buildings for one native officer, 26 single and 4 married men, and stables for six ponies were half completed; at Pyawbwè five sets of six permanent quarters for native officers, to replace old temporary structures, were commenced. At Myitkyina semi-permanent quarters were completed for the Battalion Commandant and two sets of permanent quarters for the Assistant Commandant; and at Myingyan quarters for the Assistant Commandant were completed. The old military police hospital at Mogôk not being sufficient for the accommodation of patients brought in to headquarters for treatment, it is being extended by two bays of 11 feet; the Hospital Assistant's quarters and out-houses were removed and re-erected

on a new site; and the training-school was completed. At Lashio an armourer's shop for the military police was completed.

Medical.

165. The dispensary at Ôkpo, continued from last year, was completed; a dispensary at Minhla was also completed; civil hospitals are in progress at Amherst and Paungbyin; materials have been collected for a hospital at Minhla; for a hospital at Thayetmyo a sum of Rs. 12,000 has been paid to the Municipality as a Government contribution; at Lashio and Kalemyo hospitals were completed; at Pauk a hospital was commenced; a female ward for eight beds is being added to the hospital at Yamèthin; quarters for the Civil Surgeon of the Upper Chindwin district were completed at Kindat and for the Civil Surgeon of the Pakôkku district were commenced at Pakôkku.

Miscellaneous.

166. Circuit-houses were completed at Sandoway, Paletwa, Thatôn, Kindat, and Shwebo; at Mergui a circuit-house is in progress; dâk bungalows were built at Tharrawaddy, Thayetkôn, and Setkôn; a rest-house at Myanaung; and a District Officer's inspection bungalow at Myaungbwè. Quarters for Public Works Department Subdivisional Officers were completed at Pa-an, Papun, and Kalaw and are in progress at Shwebo; a new office for the Executive Engineer, Mandalay division, was built in Fort Dufferin, as the Palace buildings had to be vacated; quarters were begun for the Public Works Department Upper Subordinate in charge of the Civil subdivision, Mandalay, and completed for the Public Works Department Upper Subordinate at Pegu; offices for the Superintending Engineers, North-Eastern, North-Western, and Irrigation circles, each 123½ feet × 35 feet, with a fire-proof record-room, 85 feet by 40 feet, estimated to cost Rs. 68,977, were practically completed at Maymyo; permanent quarters for the Superintending Engineers, North-Eastern, North-Western, and Irrigation circles, estimated to cost Rs. 47,021, and permanent quarters for their office clerks, estimated to cost Rs. 46,292, were put in hand and good progress made; permanent quarters and an office for the Executive Engineer, Northern Shan States division, were also provided; the new office of the Executive Engineer, Arakan division, at Akyab, was completed; an office and permanent quarters for the Executive Engineer, Martaban division, were completed at Thatôn for Rs. 7,616 and Rs. 9,815 respectively, and quarters were provided for the Executive Engineer's office staff at a cost of Rs. 7,684. A top storey, giving an additional room, was added to the quarters of the Chief Collector of Customs, Rangoon; and the fourth set of quarters (one block of four units) for Government clerks, Rangoon, continued from last year, was completed.

Communications.

Metalled roads.

167. Four and a half miles of the Rangoon-Prome road, from the junction of Upper Insein road to the 15th mile-post, on which the traffic is very heavy, are being metalled with stone. Work is in progress in providing a much-needed thoroughfare by extending Voyle road from the Ordnance lines to the junction of Boundary and Tiger Ally roads, Rangoon, and in converting the first mile of the Insein-Hlawga footpath into a metalled road. The bridges over the Gyobin and Myauntaga *chaungs* on the Rangoon-Prome road and on the 12th mile of the Kabin-Kungyangôn road were completed. A short road from Kôkkaing to Kambè, connecting the Kôkkaing road with the police-station and Chetty's temple at Kambè, was undertaken. The widening of the road between Tharrawaddy and Thônzè, 2½ miles, is in progress. Four bridges that were washed away on the Gyobingauk-Zigôn road were reconstructed and four old bridges on the Letpadan-Minhla road are in hand. The Masèku-Kyôntani road, 2½ miles in length, was completed. Work was begun on an estimate for Rs. 38,344 for constructing a road, 5¼ miles long, from the ferry near Seinchôn to Pyatè.

Metal was collected and consolidation carried out on 11 miles of the Thazi-Taunggyi road; the expenditure to date has been Rs. 1,67,029 against an estimate sanctioned for Rs. 3,74,177. A supplementary estimate is under preparation for widening and improving portions of the above road and for constructing a masonry bridge at mile 44. Seven other bridges and culverts were completed and timber for four more renewed between miles 15 and 42 at a cost of Rs. 47,233; the bridges on the Taunggyi-Sinhè section have also been renewed at a cost of Rs. 6,014.

Public Works Department inspection bungalows have been built at Hlwèdet for Rs. 6,036 and at Nampandet for Rs. 5,305. New roads and culverts were constructed and about 2 miles of metalling done in the station of Taunggyi. The bridge over the Hlègu river is being re-constructed; the work is estimated to cost Rs. 24,435. The construction of a metalled cart-road between Nyaunglebin and Pyuntaza, at an estimated cost of Rs. 58,642, is in progress. Materials for bridges on the road from Hlègu to Paunggyi have been purchased at a cost of Rs. 8,168. Sheet pile protection at the Hline bridge on the Kyôndo-Kawkareik road was provided at a cost of Rs. 4,287. Metal collection on the Maliwun Tin Mines road is in progress; the cost to date has been Rs. 20,152. The first section of the Kawkareik-Myawaddy road has been completed for Rs. 36,055; on the second section, estimated to cost Rs. 1,52,137, progress has been slow owing to sickness; and on the third section, estimated to cost Rs. 68,270, progress has been slow owing to scarcity of labour. Station roads at Victoria Point were completed for Rs. 2,775. Materials were collected for the second section of the Moulmein-Kyaikmaraw road at a cost of Rs. 2,659. The bridges on the Pegu-Toungoo road were renewed at a cost of Rs. 11,510. A feeder road from Kywebwe to the Sittang river, estimated to cost Rs. 14,475, is in progress. The survey of a cart-road from Taunggyi to Kēngtūng, estimated to cost Rs. 12,000, is in progress; the Longlôn-Zalut road, estimated to cost Rs. 48,718, is also in progress. The renewal of bridges and culverts on the Ywataung-Toungoo road is in progress. The metalling of the Mindôn road, from the 20th mile-post to Kyaukkyi, $1\frac{1}{2}$ miles, was completed.

The provision of roads and drains in Maymyo was completed and house-building sites were demarcated. The whole of the upper end of the Ruby Mines road from mile $16\frac{1}{2}$ to Mogôk, mile $61\frac{1}{8}$, has received two coats of metalling, and a length of $3\frac{1}{2}$ miles is still unmetalled. A large quantity of flat stones and some broken metal were collected during the year for this portion and all causeways and stone culverts completed. High berms were dug down and dressed, and about $3\frac{1}{2}$ miles double coat and 3 miles single coat of metalling was laid. The Public Works Department inspection bungalow at Kyatpyin was re-constructed. On his last visit to Bhamo His Honour the Lieutenant-Governor ordered the metalling of the Circular road to be done; but little progress was made during the year. The full amount of metal was collected for the road from the upper to the lower steamer-landing, Bhamo. The construction of the first section of the Chinese frontier road was started in the working season of 1898-99, and, with the exception of metalling and three bridges, is now practically completed. There are three bungalows built, one at Momouk, $9\frac{1}{2}$ miles, one at Kalekyet, 21 miles, and one at the end of the road. There are two major bridges with masonry piers and abutments, one of two 60 feet spans and one of 20-feet over the Nantapet *chaung* in mile 19, and the other over the Namsan *kha* of one 60-feet and one 20-feet span in the 23rd mile. Nearly 2 miles of road in Myitkyina station were metalled and metal for most of the other roads collected and stacked at site.

The waterway of two bridges on the Kudaw-Budalin road was increased in each instance by 20 feet and banks raised where required. The earthwork of the Mônywa (Tandaw)-Yinmabin road, $15\frac{5}{8}$ miles long, was practically finished and 6 out of the 17 bridges were completed. The Twingôn-Yenangyaung road, about $4\frac{1}{2}$ miles long, was commenced and is in progress. An extension of about 2 miles of road from Minbu to the steamer-landing at Kyauko is in progress. Raising of miles 7 and 9 of the Lèwè-Pyinmana road and metalling the road throughout is in progress. The bridge over the Sunlôn *chaung* near Myingyan on the Myingyan-Thazi road, which was washed away, was reconstructed.

Unmetalled roads.

168. The Saiktha road was completed for Rs. 13,251. Owing to erosion of the river-bank, an estimate for Rs. 8,963 for constructing a retirement at Sangin, mile 14 of the Sangin-Sagayi embankment road, was sanctioned and work is in progress. The screw-piled foot-bridge over the Kyanmaw *chaung* in the Akyab district and the high-level bridge at Kyôntanaw in the Thôngwa district were completed for Rs. 4,155 and Rs. 10,439 respectively.

Old bridges in the Kalaw section of the Myingyan-Fort Stedman road, from miles 41 to 84, were dismantled and new bridges and causeways were re-erected at a cost of Rs. 57,990; the collection and consolidation of road metal on the branch road to Fort Stedman were completed for Rs. 8,909; two bridges on the Sinbè-Fort Stedman branch road were renewed at a cost of Rs. 3,456; a feeder-road from Kyaukkyi to the Sittang river is in progress; the three first miles (1st section) of the road from Toungoo to Thandaung were widened to 16 feet, land was acquired, stone collected and new culverts built, the expenditure on the road being Rs. 21,929 against an estimate amounting to Rs. 62,798; a fair-weather feeder-road from Tôngyi to Intagaw was constructed for Rs. 37,593; the road from Kawa to Ohnè, estimated to cost Rs. 54,140, is in progress; the road from Ywathit, on the railway, to Kyungyaung on the old Pegu-Toungoo road, was completed for Rs. 19,007; and that from Pa-an to Nyaunglôn for Rs. 63,392; the earthwork and rock-blasting on the road from Yenyin, on the Martaban road, to Kyetnywethaung, on the Dôndami river, estimated to cost Rs. 1,28,783, was completed and materials collected for bridges; the first section of the Pa-an-Hlaingbwè road (Pa-an to Tilôn), estimated to cost Rs. 1,52,234, is in progress; a bridge over the Supanu creek was completed; metal is being collected for the Toungoo frontier road; the construction of the cart-road from Taunggyi to Napôk, including the construction of the Pun river bridge and certain additions and improvements to the road itself, are nearing completion. The estimate for this road amounts to Rs. 4,38,622; materials were collected for a 60-feet span bridge at the 37th mile on the Pyuntaza-Kadôt road; two bridges across the Pegu and Sittang canal are nearing completion, while a third at Thanatpin has been completed; the foot-path from Zanyaungbin to Tawa is being metalled; a road from Penwègôn to Thambyagôn is in progress; improvements to the Kyaikto-Martaban road are in progress; a Public Works Department inspection bungalow was completed at Gangaw in the Martaban division; two rooms were added and teak plank provided to the Public Works Department inspection bungalow at Bilin.

A cart-road timber bridge was constructed over the Namma river at Hoko in the South Hsenwi State, from funds contributed by that State, at a cost of Rs 5,700 approximately; several bridges on the Wuntho-Pinlèbu road were renewed and certain parts of the road were metalled and improved; the Kachin track on the Kana route between Mansi and Manswan villages in the Namkhan valley was improved and a rest-house was completed at Komai—the total distance from Bhamo to Namkhan is about 57 miles and the route is now open all the year round; on the Möngwan Valley road, which connects Sinlumkaba with Lwege on the Chinese frontier, stone causeways were substituted for temporary log bridges, some widening done where necessary, and a rest-house begun at mile 11; all the bridges over bad water-crossings on the Sinkan-Sikaw road have been completed, and the road cleared, stumped, and widened where necessary; certain bridges in the Namsiri and Theinlin Valleys, Bhamo-Mansi road, were lengthened; on the Waingmaw-Kazu road the defects noticed during the rains of 1900 were remedied; the Natmyin Valley section of the Hopin-Lonton road, from Hopin Railway station to the foot of the hills was bridged and banked throughout and two *zayats* were put up on the road and a rest-house at Lonton; the Mogaung-Kamaing-Nanyaseik road was completed, and steps are being taken to renew the decayed bridges built some years ago.

The Palè-Yinmabin road was well advanced; improvements to the Ôndaw-Sagaing road and to the Ava-Tada-u section of the Ava-Myotha road were in progress; improvements to the first 5 miles of the Sagu-Panhlwa-Aingma road were all but completed; improvements to the Natogyi-Myingyan road were in hand; the Singaing-Wuntho and Minzu-Dayègaung roads in Kyauksè district were completed; the improvements—for cart-traffic—of the portion in the plains of the Haka-Kalemyo mule-road were nearly completed and the roofing of inspection bungalows on the road with corrugated-iron and the erection of rest-houses for subordinates were completed; all works in connection with rest-houses on the

Falam-Indin mule-road were completed; improvements—for cart traffic—to the last 8 miles in the plains of the above road were also nearly completed; improvements to the Kaduma-Zigôn road were nearly completed; the bridging on the Shwèchaung at Pakôkku on the Kan-Pakôkku road was well advanced; and the road from Saw to Zigat was also well advanced.

Other roads.

169. Work was in progress on the Ôkkan-Kadônbaw road, which is a continuation of the Thôngwa-Ôkkan road; on the Zwedaw-Kyan road; and on the Tada-Kadapanat road; a bridge across the Tatchaung at Maungdaw was in progress; four Public Works Department inspection bungalows, including out-offices, along the Kēngtūng-Taunggyi mule-road, were completed and five are in progress—the whole nine are estimated to cost Rs. 50,450; the reconstruction of bridges on the Fort Stedman-Kēngtūng mule-road was completed; the survey of a cart-road from Pathichaung to Thandaung is in progress; three bridle-paths, 8 feet wide, estimated to cost Rs. 21,483, Rs. 70,941, and Rs. 34,671 respectively, namely, from Papun to Dagwin, from Papun to Kamàmaung, and from Papun to Bilin, are in progress; a foot-path from Zanyaungbin to Tawa was completed; a metalled foot-path from Thanatpin to Kamase, being the 1st section of the road from Thanatpin to Onhè, estimated to cost Rs. 26,570, is in progress; the Shwegun-Hlaingbwè road was completed at a total cost of Rs. 19,475; a cart-road bridge over the Namyôn river, where it crosses the road to Theinni, was completed at a cost of Rs. 4,440; the Pongataung-N'Sentaru road was surveyed, aligned, and constructed from Pongataung to Loignu, but nothing has been done on the section from Loignu to N'Sentaru as there are proposals now to construct a new road from Myitkyina to N'Sentaru, so that it will probably not be necessary to construct this section; improvements to the Ingôn-Myittha and Kyauksè-Kumè-Samôn roads were in hand; bridges over the Shwè and Yebôk *chaungs* near Mingin were in hand; the Pamnunchaung-Pyinthazeik fair-weather road was practically completed; the Chin Hills section of the road, about 66 miles in length, from Falam to Fort Aijal in the Lushai Hills, was well advanced; the Myindaw-Yatha road was nearly completed; the Sidôktaya-Salin road, the bridging of the Sabwe *chaung* near Minbu on the Minbu-Minhla road, as also improvements to the Danyaung-Sinbyugyun road, were in hand; the Pyilôngyaw-Panhlwa road was completed; a wire-rope ferry over the Bilin river at Bilin was completed for Rs. 4,387.

Accommodation for travellers.

170. A new inspection bungalow was completed at Ramree; inspection bungalows were also completed at Pyuntaza, Tantabin (Pegu district), Papun, and Kyauklebin; an inspection bungalow is under construction at Khabine; the Thatôn inspection bungalow was re-roofed with shingles and provided with teak walling in place of mat; in the Southern Shan States inspection bungalows were completed by the *Sawbwa* at Haipak and Möngna; and at Sinlumkaba a rest-house was completed.

Miscellaneous Public Improvements.

Improvements to towns.

171. The renewing of bridges in Myohaung town was completed at a cost of Rs. 5,528. Kindat and Homalin being subject to inundation by the Chindwin river, bunds were put in hand at both stations to protect them from floods.

Markets.

172. The bazaars at Bogale, Maulamyaingyun, and Minbya, commenced last year, were completed for Rs. 5,834, Rs. 12,704, and Rs. 18,832 respectively; a new vegetable bazaar was completed at Dedayè; an additional bazaar, with 32 stalls, was nearly completed at Peinzalôk railway station; fences, roads, and culverts in the bazaar compounds at Deiku, Peinzalôk, and Penwegôn were completed; land was acquired at Nyaunglèbin for a *zegyo;* and a second bazaar-shed was completed at Ôktwin.

Paving and streets.

173. Improvements to railway town roads at Peinzalôk and Deiku were completed; roads and culverts in the new Subdivisional station of Nyaunglèbin were completed; additional roads and bridges at Nyaunglèbin, estimated to cost Rs. 10,453, are in progress; village roads at Thanatpin are nearing completion; and railway town roads at Kanyutkwin and Pyu were completed.

Water-supply.

174. The construction of a masonry escape to the bund near the school for sons of *Sawbwas* at Taunggyi in the Southern Shan States is nearing completion. The original scheme for the Maymyo water-supply, described in the Administration Report for 1899-1900, being considered too small for the requirements of Maymyo, a revised scheme was sanctioned for Rs. 1,03,399, consisting of a 6-inch main with a 4-inch and 5-inch branch to two separate lots of springs, the 4-inch main only to be laid at present; during the year the 4-inch and most of the 6-inch mains were laid and the head-works practically completed at an expenditure of Rs. 90,215. The work in connection with the formation of a lake at Bhamo, which consists of a short dam to hold up a very irregular shaped water-spread, was practically completed as estimated, but, owing to the existence of a deep layer of sand under the line of the bund, there was heavy leakage and an inner bund has to be constructed. At Meiktila three wells were completed.

Sewage and drainage.

175. The construction of a drainage channel, with three brick culverts, and the widening of an old escape channel at Taunggyi were completed. The drainage of Meiktila town was completed.

Harbours.

176. Improvements to the wharf at Victoria Point, estimated to cost Rs. 11,540, were approaching completion when on the 17th February a length of 58 feet of stone sea walling subsided, throwing the iron jetty over on its sea face; improvements to the wharf at Mergui were completed at a cost of Rs. 37,138.

Miscellaneous.

177. The work of erection of boundary pillars on the Chinese frontier was commenced where left off last year at pillar 24. During the year, pillars 25 to 49 were built, that is, 25 main pillars and two subsidiary pillars between 20 and 21. The boundary line from pillar 25 to pillar 49 is about 30 miles long. Inscriptions had to be begun from pillar 18 and the number of inscriptions put on was 32. The survey of the boundary line was commenced at pillar 22, where it was left off last year, and carried on to pillar 49. The alignment from pillar 28 to 39 was through heavy jungle and high *kaing* grass, which had to be cleared for base lines in every triangle. The party left Bhamo on the 1st January 1901 and returned on the 20th March 1901, after completing the work.

During the working season surveys were made of the following roads in the Northern Shan States, namely,—

(1) A road from Hsipaw to Namhsan (Tawngpeng State).
(2) From Kywai Kung to Hin-pôk (Hsipaw State).
(3) From Hsipaw to Man Sam (Tawngpeng State).
(4) From Ho-Ya to Tang-yan (South Hsenwi), connecting with the existing Lashio-Mông Ya road.
(5) From Lashio through the districts of Man Peng, Na Nang, Mông Ma, &c., to join the proposed road No. 4.

Routes for proposed cart-roads which it was intended to examine had time admitted are—

(6) Hsenwi to Maung Si (North Hsenwi State).
(7) Lashio (or any other better point on the Mandalay-Kunlôn Railway) to Maung Yin (North Hsenwi State).
(8) Man-Sam (Tawn Peng) to Lashio or other point on the railway between Hsipaw and Lashio.

The reason for surveying these routes is that, should cart-roads be possible, at small cost, they would open up the country both north and south of the railway and would develop such trade as there is.

Light-houses.

178. The work of dismantling the old China Bakir light-house and re-erecting it on a new site was completed; the light has been shown since the 1st of May. The new lamp for the light-house at Alguada was received. The erection of a mast-head light on Zallaton Island, Sandoway anchorage, is still in abeyance pending the survey of the bay. The materials for the screw-piled beacon on Oyster Reef were received.

Irrigation Works (Imperial.)

179. *General.*—The revised estimate promised in last year's report has been submitted to the Secretary of State and amounts to Rs. 47,40,399.

Mandalay Canal.

Head works.—The masonry and pitching were completed; crest-shutters have been put up. Winches for working the needle-girder at the under-sluices have been ordered from Rupar. A small portion of the iron-work in connection with the winches remains to be done. The needles for the under-sluices are in hand.

Thapangaing aqueduct.—The masonry is nearly finished and pitching is in hand. Owing to the occurrence of a very high flood on the 1st November 1899 —the highest on record—the original design of the superstructure had to be completely revised and falling shutters, instead of solid masonry sides, have been decided upon, so that an extraordinary flood can pass not only through the arches but over the entire work. The shutters, with the necessary iron-work, have been ordered. The let-go gearing required to release these shutters is under consideration. A needle-regulator at 6 miles 5 furlongs, required to keep the flood-water entering the canal over the Thapangaing aqueduct from flowing down the canal, was commenced in June and completed during the year. A 5-feet culvert at 8 miles 3 furlongs, begun in December 1898, was completed in June 1900.

Syphons.—The following were completed:—

	Miles.	Furlongs.
One of 3 bays of 10 feet at	10	5
One of 8 feet at	12	5
One of 3 bays of 10 feet at	17	2
One of 2 bays of 10 feet at	20	0
One of 3 bays of 10 feet at	27	5
One of 10 feet at	30	0
One of 2 bays of 8 feet at	33	2
One of 10 feet at	38	6

Intercepting drain.—From near canal head to the Thapangaing *nala* this drain protects the upper 7 miles of canal. This is the old Shwelaung, which has been graded, and its banks have been raised. Work is complete, except some bed excavation and the making-up of the bank where it has been cut by the road leading from the quarry to the Thapangaing aqueduct.

Bridges.—These are timber structures similar to those on roads in Burma. They have been built at the following points and the actual cost incurred to date and estimate are mentioned:—

Serial No.	Distances.		Estimate.	Cost.	Remarks.
	Miles.	Furlongs.	Rs.	Rs.	
1	2	½	3,016	2,763	Finished.
2	4	2½	2,822	2,401	Finished, except approaches.
3	8	6	2,577	1,121	Finished.
4	17	268 feet	2,174	582	Timber site. Foundation dug.
5	19	5	2,198	1,882	Finished.
6	22	7	2,712	2,843	
7	25	6	1,852	1,614	
8	28	7½	1,814	1,570	
9	31	7½	1,867	1,562	
10	35	3½	1,966	1,234	Finished, except approaches. This bridge carries the Mandalay-Maymyo road.
11	36	4	1,382	1,268	Finished.
12	37	4½	1,528	1,067	

Including the regulator at 6 miles 5 furlongs there are thus 13 bridges in a length of about 39 miles or at intervals of 3 miles.

Earthwork.—This has been completed for nearly the entire length; between miles 17 and 31 progress has been much hindered by springs which are drained into the Shanmyaung.

Miscellaneous.—Bed-blocks and distance-marks have been put down in the 1st and 2nd subdivisions and levels have been completed and the work partly done in the 3rd subdivision, that is, from mile 17 to mile 39. Canal land has been demarcated with stones from R. D. 17,000 to R. D. 40,000.

Distributaries.—The Kyaukmi or No. 13 Distributary is under construction. The irrigable area under it is 5,110 acres. The Tadaingshe or No. 14 Distributary has been sanctioned; its irrigable area is 6,687 acres. No. 15 or Tamôkso Distributary has been submitted for sanction. This latter commands an area of 9,660 acres in the southernmost portion of the Mandalay Canal tract. These three distributaries are about the largest in the scheme, the others from No. 1 to No. 12 being comparatively short ones. The whole area under the Mandalay Canal has been levelled in detail and sections for most of the lines have been taken, but detail plans and estimates have still to be made out.

180. *Shwebo Canal.*—This, the largest irrigation project in Burma, is estimated to cost Rs. 48,04,093, including indirect charges, and was sanctioned on the 20th September 1900. For the year a budget grant of Rs. 1,44,000 for Works and Establishment and Tools and Plant was made, of which Rs. 1,27,865 have been spent including indirect charges. The progress was as follows:

Shwebo district.

Lock-spitting the main canal was seven-eights complete; and lining out, surveying and levelling the same was finished. Materials were collected at the headworks and along the main canal and branches.

Buildings.—At Shwebo, the headquarters of the division, a bungalow was built for the Executive Engineer in charge and materials collected for Subordinates' quarters and inspection bungalows; all buildings will be of timber framing, mat walling, and thatch roofs, as customary for district bungalows in Burma.

General.—It is not expected that the same difficulties as regards labour and unhealthiness of the district will be met with as on the Mandalay Canal, nor will the engineering problems be as formidable. Further surveys and levels will be necessary before the question of cross-drainages can finally be settled and the necessary directions have been issued.

Irrigation Works (Provincial.)

181. *Shwetachaung Canal.*—This is an old Burmese work taking off from the same stream as the Mandalay canal and an estimate for remodelling it was sanctioned in April 1898. Raising of the banks was completed, remaining outlets were all put in and the two new escapes were finished. A distributary, known as the Hnengôkto, is now in hand. The excavation of it is finished, as also the heads of the branches. The head-regulator is in progress. An old escape on the Shwetachaung is to be remodelled, and an estimate for the same will shortly be submitted.

Mandalay district.

A.—Zawgyi River.

182. *Nwadet Canal System.*—The piers of the head-regulator were extended for a length of 13 feet to increase the stability of the structure. The arches were also being added to the length. Iron-work was procured, but was not put in position. A grill to protect the head and to prevent drift from entering the canal was constructed.

Kyakusè district.

Remodelling Nwadet Canal.—The work consists in remodelling this canal from head to its bifurcation from the Kunsè canal. The earthwork, six rapids, and three cart-bridges were completed. At rapid No. 1, owing to the occurrence of springs, cement-concrete was used in the foundations of the three cross-walls. At rapids Nos. 2, 4, and 5 cement-concrete was also found necessary. Rapids Nos. 6 and 7 were on dry foundations and lime-mortar only was used. These rapids have drops of from 3·3 to 4·5 feet with a surface slope of 1 in 10 composed of pitching to a depth of 4 feet divided by three equidistant cross-walls and with a talus of 75 feet at the foot level with the bed of the lower reach of the canal. The rapids were completed at the end of May and the canal will be opened early in June. The work on two out of the six rapids was completed and all necessary materials were collected. The left end of the talus of the weir was repaired. The banks of the

Nwadet and Kunsè canals were raised, repaired, and kept clear of jungle. All A List distributaries were kept clear of jungle and silt.

Re-construction of the regulator at head of the Kunsè Canal.—This work failed in the irrigation season of 1900 and was rebuilt on an improved design. The foundation is of 3 feet cement-concrete under $1\frac{1}{4}$ feet of brick-on-end masonry. The floor was lengthened to 20 feet and clay-puddling was provided 6 feet deep above and below the work.

Remodelling Kunsè Canal.—The principal work was the construction of two additional rapids found necessary as the canal bed was being eroded and command was being lost. The rapids have a drop of 2 feet and are composed of pitching 4 feet thick laid at 1 in 10 with two cross-walls. The banks of the canal had also to be raised. A cart and four foot-bridges of *pyingado* and *ingyin* wood were completed. The canal will be opened to irrigation in June.

Remodelling tail portion of the Nwadet Canal.—This was completed, except distance-marks. The heads of the Thamandalin and Udingayit distributaries were constructed. Surveys of the Thègyi, Linzin, and two branches of the South Ngapyaung Canal were completed and proposals for remodelling them will be submitted. The Ngapyaung weir was repaired with stakes and stones, breaches being temporarily closed with palm-tree trunks. The two canals were repaired and kept clear of jungle.

Thindwè Canal.—The rock-cutting, 690 feet in length, is three-fourths finished. Delay has been caused by leaks through the fissures of the rock, from the diversion, the constant demand for irrigation, and also because the Zawgyi river supply had to be carried off through it while the Minyè weir was being remodelled. The Shangan distributary takes off from the Sunyè tank and has a length of 23,500 feet with bed-width varying from 8 feet to 4 feet. It was opened for irrigation on the 1st March. The main canal and A List distributaries were maintained and kept clear of jungle.

Minyè and Tamôk Canals.—Further remodelling of the Minyè weir was in hand during the year. The work consisted of an extension of 150 feet with the usual walls dividing it into compartments. The right bank between the weir and head-regulator was raised. The spring-level was high and cement-mortar was necessary for a depth of 1 foot 3 inches in a length of 122 feet.

Remodelling Minyè Canal.—All work was finished excepting distance and boundary-pillars, which it was found necessary to rebuild owing to defective work. Stone-pitching of the weir was replaced, where disturbed, with 2 feet packing. On canal and distributaries breaches were closed and jungle cleared.

Zidaw Canal System.—The river has been surveyed for about 9 miles and longitudinal sections of proposed straightening have been prepared. The scheme for supplementing the supply of the Zawgyi river from the Namet has been considered on completion of the surveys and it has been concluded that it is impossible. Breaches on the canal were closed. Its banks and those of the Paleik and Myaungzôn and of A List distributaries were strengthened and kept clear of jungle. A Temporary rapid was repaired with heavy stone.

B.—Panlaung River.

183. *Kinda Canal System.*—It is proposed to dismantle the existing Ngalainzin weir, a work composed of small stones at the bifurcation of a canal of the above name and the Pyaungbya canal and to construct a new weir of stones 1 foot 9 inches on end laid at a slope of in 10 with the usual cross and longitudinal walls. Materials were collected, but no construction was carried out as no subordinate was available for the supervision of the work. A sum of Rs. 1,166 has been spent on a temporary weir on the Pyaungbya canal with a distributary head above it. The work is composed of stakes and stones and was begun as a contribution-work for Captain Mahomed Hussain, who has a grant of land in the neighbourhood, but will now be classed as one under Minor Works and the contribution received will be refunded to that officer. The first half of the canal was cleared of shingle and the

Kyauksè district.

Ngalainzin canal was unsilted. Jungle was cleared, snags removed, and repairs of the Kozi, Pinda, and Ngalainzin weirs were executed. A List distributaries were maintained.

Daing Canal.—The main work was a canal-diversion 9,900 feet long, 10 feet bed-width, with digging from 8 to 14 feet. The river has now cut up to the old channel. The diversion was all but complete, delay being due to the work being carried out in the rains, to the unhealthiness of the locality, and to the hardness of the soil.

Nathlwè Canal.—A longitudinal section along lines of proposed remodelling was prepared. The right flank bund was widened from 10 to 15 feet. Materials were collected for repairs of talus. Breaches were closed and banks kept clear of jungle on canal and A List distributaries.

Kyimè Canal System.—The weir is being remodelled. Its crest-width is to be extended from 53 to 100 and 26 feet of the old work which breached in 1900 is to be dismantled. Four parallel cross-walls 70 feet apart with heavy pitching between laid at 1 in 20 and talus of 80 feet are provided. The piers in the old undersluice openings will be pulled down and falling-shutters 4 feet high will be set up. Crest-shutters 2 feet high surmount the rest of the work. During the year the dismantling of the old work found necessary was completed, walls were rebuilt, stone-pitching in compartments two-thirds done, and half the stone required was collected. This weir, the Taungdaw and Mazèbintha heads, and all temporary escapes on these channels were repaired in the usual Burmese manner. Jungle clearance and ordinary repairs were carried out on them and the A List distributaries. This weir was breached on the right flank in August 1900, owing to a large snag and was temporarily closed with palm-tree trunks, sand-bags, stakes, and stones.

Sama Canal.—This takes off from the Kyimè weir. The remodelling estimate provides for cutting off bends, strengthening banks, building seven falls to reduce the bed slope, building bridges across the canal, and providing an escape at R.D. 5,820 to scour out the heavy silt deposited at the head. The length to be remodelled is 12,300 feet and the bed-width varies from 52 to 5 feet with a slope of 1 in 2,500 to 1 in 1,300. During the year three-fourths of the earthwork and eight bridges were finished. All materials have been collected, but no building had been commenced either at the falls or the escape.

Htôngyi Canal.—The weir was remodelled as follows:—The crest of the weir will be at the same level as that of the old Burmese work, but will be of solid masonry and will be surmounted by crest-shutters 2½ feet high. Two cross-walls 30 feet apart below the crest and three longitudinal walls enclose stone-pitching laid at 1 in 15 and 1 foot 9 inches thick. During the year all the masonry was completed and about three-fourths of the stone required was collected. The Htôngyi canal improvements are as follows:—Improving the alignment by cutting off bends, strengthening the banks, providing three falls to raise the water and reduce the grade, and three bridges. The bed-width varies from 8 feet to 3 feet. The length 37,250; the grade varies from 1 in 4,000 to 1 in 1,500. A head-regulator of two spans of 4 feet controls the supply. During the year half of the earthwork, also half of the concrete at the head-regulator was completed: and half of the materials required were collected for the head-regulator, falls, and bridges. The weir was maintained in the usual way with stakes and stones. Banks were maintained and kept clear of jungle.

184. *Meiktila lake.*—The distributaries between the south sluice were completed excepting a length of a few thousand feet on the Uyin distributary. A wooden flume on the Ôkpo branch was under construction, but was abandoned owing to the erosion caused by a large amount of water let down the escape-channel. An iron syphon is now to be provided instead. Falls 4 and 9 on the escape were both threatened in the same season and it has been necessary to begin constructing falls 5, 6, and 7. The Uyin distributary was badly breached at its head by cross-drainage coming down the Meiktila *nala.* Measures are under consideration for providing for this

Meiktila district.

and also for strengthening the escape-channel which threatens the Uyin distributary. Another fall on the former and a super-passage on the latter will probably be decided on. The Kyaukpin distributary was heavily breached by the Meiktila *nala* on the 5th October, the north bund for a length of 500 feet and the south for 300. The soil here is very fine sand and the banks are weakened by heavy showers and by the passing of cattle. Repairs were completed by December 10th.

Nyaungyan-Minhla tank.—An additional waste-weir 200 feet wide, with subsidiary weir and escape-channel, have been sanctioned. The excavation of foundations was nearly completed and the remainder of the work was in hand. Nearly all the necessary materials were collected.

185. *Restoration of Kanna tank.*—All work is completed on the tank. The watercourses, which will be about 20 miles in length and which the people themselves would not construct, are being done departmentally.

Myingyan district.

186. *Improvements to Yindaw tank.*—These comprise dismantling and rebuilding sluice No. 2, building a 4-feet fall at sluice 3, three paved escapes of stone for the main tank, one being 100 feet long, an escape 30 feet long for the subsidiary tank, and raising, widening and pitching the bunds. The work was practically completed.

Yamèthin district.

Yamèthin tank.—The project provides for an escape 100 feet long of stone masonry with a drop of 12 feet. The foundations have been excavated, concrete commenced, and materials brought to site. The escape-channel is 5,100 feet long and falls into the Samôn. Its width varies from 36 feet to 50 feet. The excavation is three-fourths done, and the work has been much delayed owing to the failure of a contractor.

New weir and regulator on the Thikôn stream at Gômbin.—The work proposed consists of a new weir 100 feet wide, with automatic crest-shutters 3 feet 4 inches high and three crest-walls 37 feet apart, four longitudinal walls 32⅔ feet apart, filled with 2 feet pitching on end laid at 1 in 15. The excavation of foundations is complete, concrete has been finished for the crest-wall, one parallel and four longitudinal walls. The new regulator is being constructed on the old river channel and consists of three openings of 5 feet closed with wooden shutters which are operated by screws. Its floor will be a foot below the weir crest. Excavation of foundations has been completed and concrete has been started.

187. *Re-modelling Man Canal.*—The project in its complete shape was sanctioned in July 1900. The progress during the year was as follows:

Minbu district.

Head-weir.—The main part was finished in the year previous. In the year under review the front slope and a large portion of the flank bund on the left were completed. The right flank bank was begun, but has not been completed as it is considered that the weir space should not be reduced.

Head-regulator.—This has nine openings of 4½ feet by 5 feet and is built of rubble-masonry with brick arches. Wooden shutters with rack-gearing operated by a separate winch for each vent and baulks in a separate groove will control the supply. To secure good foundations the work was shifted from the position originally intended to a site higher up. The soil here was found to be very hard and much trouble was experienced in getting it out. The masonry was completed to the springing of the arches during the year.

Main Canal.—The original Burmese work was extremely tortuous and numerous loops have been cut off and five falls provided with drops varying from 7 to 3 feet. Falls 1 and 2 were begun last year and were completed in May 1901. On fall 3 the concrete foundation was in. On fall 4 work was completed, except the pitching. Fall 5—excavation of foundations completed. All materials were ready and were being carted to site. Regulator No. 2, intended to hold the water up for the Sagu head, was finished. During the last rainy season the Man was in high flood, which entered at the open canal-head and with the cross-drainage intercepted by the canal overtasked falls 1 and 2 whose lower wings were damaged. Repairs to it were in hand. The flood-escapes and the head-regulator will prevent such mischief in future.

Sagu head-regulator.—A spring in the foundations delayed the work, but the concrete in the floor was finished during the year and good progress has since been made.

Special repairs of Man Canal system.—In June 1900 a very high flood occurred and caused great damage to the works. The cost of repairing the damage was high.

(i) The left flank bund of the weir was breached to a length of 100 feet and to a depth of 12 feet below weir-crest level, which was closed by a bund of stakes, stone, and brushwood.

(ii) A deep hole, 60 feet by 15 feet, was scoured out in the talus of the weir and was repaired with stakes and stones. Some heavy stone was also thrown in.

(iii) The right part of the weir was damaged, especially at its junction with the new portion. It was repaired and repitched with heavy stone.

(iv) The canal-head was badly silted and was cleared to a length of about 2,000 feet.

(v) Fall 1 was outflanked and the two lower wings broke off from the main work and rebuilding was begun. The left lower wing of fall 2 was damaged and must be rebuilt. A considerable amount of earthwork was executed and "*kalôks*" were built to take the place of the falls.

Salin Canals.—Under the head of extensions and improvements the only works are an escape for the Paung *chaung* with a regulator on the canal. Final plans for these have not yet been decided on, but materials were collected to the value of Rs. 7,721 and surveys are nearing completion.

Special repairs to the Salin Canal.—The river altered its course and threatened the largest canal or Myaungmadaw at its head, which necessitated the construction of a retired line of canal for over a mile with bed-width of 40 feet. The river-banks had also to be trained with brushwood spurs. Similar work was necessary at other points as follows:—

The Myaungmadaw at about 4 miles from the head had to be diverted near the village of Thetkwin.

The Paungsè weir where the Paung *chaung* crosses the Myaungmadaw was much endangered and was protected with stakes and stones.

188. *Pegu and Sittang Canal.*—The work on the renewal of the inner and outer gates, Myitkyo lock, was completed during the year. The bed and side slopes of the Myitkyo lock chamber, which are of earth, were partly pitched with laterite blocks obtained from the Shwegyin quarries during the year. The whole must, however, be re-done as the pitching has slipped owing to the presence of springs in the chamber—the balance of the laterite blocks remain to be brought down from Shwegyin. The construction of masonry regulators across Zwebat and Singydin creeks to regulate the supply of water for the canal from the Moyingyi basin has practically been completed during the year. The raising of the crest of the Pegu river embankment to prevent the flood water from the river entering the canal by the branch-canal at Pegu has been mostly completed. The construction of a lock at Minywa was sanctioned during the year. This work, when completed, will facilitate trade by doing away with the unloading of the cargo from boats which come to Minywa in great numbers from Kyaikto and villages along the coast and transhipping the goods into boats in the canal at great loss of time, money, and convenience. Wooden culverts were constructed along the tow-path of the branch-canal for the convenience of the boatmen who drag their boats. A twin-screw steam-launch is being constructed for the use of the canal at the Government dockyards, Kidderpore, as the present launch owing to its great draught is useless within certain reaches of the canal during the dry months.

Pegu district.

189. *Sittang-Kyaikto Canal.*—The Supanu regulator, which was not quite finished last year, was completed this year. The two over-bridges at Payagyi and Kawtin, which were com-

Thatôn district.

menced last year, were completed during the year. At Kadôk weir, braced-piling was erected to protect boats from being drawn into the weir by the current.

Upper and Lower Chindwin districts.

190. *Conservancy of the Chindwin River.*—This work was continued on the usual lines between the mouth of the Chindwin and Homalin, a length of 421 miles. During the year the "*Corsair*" was employed on snag-clearing between Kindat and Homalin. This vessel worked from the 1st April to the 28th May 1900 and again from the 11th January to the 31st March 1901. The "*Buccaneer*" was employed on snag-clearing from the 1st April to the 30th May 1900 and again from the 7th February to the 31st March 1901. During the above periods the "*Corsair*" cleared 312 snags and the "*Buccaneer*" 308 snags. The river was abnormally low during the last three months of the year 1900-1901, being 2 feet 10 inches less at Alôn than during the previous season. There were two blocks during the season; one in the rocky eastern channel at Alôn and the other at a place 4 miles above Kindat. At Alôn a large quantity of rock was exposed in the usual steamer-channel and about 4,000 cubic feet were removed by blasting. It was hoped that the new western channel at Alôn would have been available last season, but the current unfortunately did not keep to the centre sandy channel, but broke over the rocks near the right bank. The spaces between these rocks have been filled in with sand-bags and short groins in order to form a dam and thus confine the main current to the sandy channel. Much time was lost last season owing to the late arrival of the two launches and to their having to suspend operations to assist at the wrecks of the "*Ouktoung*" and "*Privateer.*"

Conservancy of the the Myittha River.—Work consisted of the removal of snags in the boat-channels between Kalewa and Indin. An attempt was also made to improve the end of the Kyaunggyin rapid by removing the large rocks near the whirlpool.

Conservancy of Yu Chaung.—It was hoped that this work would be undertaken by the Civil Officers last season, but the Deputy Commissioner, Kindat, could not make the necessary arrangements. In April 1900 a quantity of rock and boulders was removed at the Tsongkathi rapid by the Public Works Department.

Conservancy of Uru Chaung.—Owing to the difficulty of supervising daily labour so far from headquarters, it was proposed last year to get the work done by the Civil Officers. Arrangements could not, however, be made in time. The present Deputy Commissioner, Kindat, is of opinion that the work is not of much importance, as there is not much boat traffic during the low water season and a fairly good road has now been completed from Homalin to Maingkaing.

Thatôn district.

191. *Kyaikto-Bilin Canal.*—As the erosion of the Sittang river continued and worked into the old alignment, a new alignment was made to the north of the Ayethama hill which, by utilizing part of the Thèbyu stream, works into the Bilin stream at Shwelè.

Salween district.

192. *Conservancy of the Yunzalin River.*—Snag-clearing was continued during the year; rocks and rock-barriers were blasted and removed. The river has been greatly improved and a tedious journey rendered less dangerous than it used to be.

Hanthawaddy district.

193. *Twante Canal Works.*—These works, described in the report for 1899-1900, were completed.

Survey of the Bawlè Island.—This work was sanctioned with the object of ascertaining the best alignment for the proposed embankment. Work was in progress at the end of 1900-1901.

Henzada district.

194. *Survey of Panhlaing Creek.*—This work was undertaken with a view to the preparation of a project of improving the Panhlaing creek near its head, so that it may be open to traffic throughout the year, as at present. Owing to the existence of shoals, the first 5 miles of the creek are practically closed to traffic for five or six months in the year. Work was completed.

Railways.

Length of line.

195. The length of line open to all descriptions of traffic on the 31st March 1901 was 1,123·86 miles, as compared with 993·2 miles open at the end of the previous year. The increase is due to the opening of the following sections:—

	Miles.
(*a*) Sedaw to Maymyo (Mandalay-Kunlôn Railway), opened on 1st April 1900	26·10
(*b*) Sagaing to Alôn, opened on 15th April 1900	70·46
(*c*) Maymyo to Nawnghkio (Mandalay-Kunlôn Railway), opened on 20th May 1900.	34·10
Total ...	130·66

Works completed and in progress.

196. The Gôkteik Viaduct on the Mandalay-Kunlôn Railway was completed and the approaches finished, except the lining of the tunnels. Good progress was made on the Mandalay-Kunlôn Railway beyond Nawnghkio, the length up to Hsipaw being nearly completed, and the heavy work beyond towards Lashio steadily proceeded with. The Letpadan-Henzada-Bassein extension was brought under construction and a good start made on the work; it is hoped this line will be compelted by October 1902. A detailed survey for a branch from Henzada to Kyangin (a distance of 65 miles) in connection with this line was also completed and the project is under consideration. A detailed survey for a line from Pegu to Moulmein, a distance of 121 miles, was carried out, and the estimate is in hand. A survey for a line into the Southern Shan States to leave the Burma Railways in the neighbourhood of Thazi or Pyawbwè station and traverse the difficult country *viâ* Kalaw and Thamakan to Taunggyi was commenced in February. Borings for a survey of the strata of the river bed at Sagaing were in progress during the year, and it is hoped that a favourable site for a bridge to cross the Irrawaddy will soon be fixed.

On the open line a bridge at mile 866 on the Sittang section, consisting of 5 spans of 40 feet, was badly damaged by an overflow of the Pyuntaza river on 16th September 1900. It has been temporarily rebuilt in 4 spans of 40 feet and 2 of 20 feet, time not allowing of permanent reconstruction in this season, and a new bridge of 5 spans of 20 feet has been put in at mile 86-6 to assist in carrying off the flood spill. Owing to an overflow of the Swa river the south approach of the Swa bridge was badly injured; the bank has now been raised 4 feet to prevent a recurrence of such damage. At mile 474-18 a bridge consisting of 2 spans of 40 feet and one of 100 feet was damaged by an overflow of the Indaw *chaung* on the 21st July, and it has been found necessary to increase the waterway by the addition of 2 spans of 40 feet. At mile 464-13 on the Sagaing-Alôn Branch the approaches to the Obadaung bridge were washed away by floods and 2 additional spans of 40 feet have been put in. Owing to the bursting of a canal the line was breached in the 14th mile on 22nd September 1900 and increased waterway of 3 spans of 10 feet has been provided.

Eleven miles of iron rails between Thazi and Meiktila stations and 10 miles in the Prome branch were relaid with 50 lb. steel rails, while two additional sleepers per rail have been added to a great part of the line laid with the 41¼ lb. steel rails in the Prome-Mandalay section to increase its stability, and the work is to be continued.

Considerable extensions to the Insein Workshops necessitated by the increased traffic and mileage of the system were put in hand and nearly completed, and 20 additional engines of "G" class were put on the line.

Capital transactions.

197. The capital outlay on the Burma Railways system during 1900-1901 was Rs. 98,58,957. The total capital expenditure since the commencement has been Rs. 11,36,10,457, out of which the outlay by Government from the commencement to end of August 1896 is Rs. 7,69,12,324.

198. The gross earnings of the year compared with those of 1899-1900 were—

Revenue transactions.

	Rs.
During 1900-1901	1,14,61,798
During 1899-1900	94,93,925
Or a net increase of	19,67,873

The working expenses compare as under—

	Rs.
During 1900-1901	67,27,161
During 1899-1900	55,51,159
Or a net increase of	11,76,002

The net earnings were as under—

	Rs.
During 1900-1901	47,34,637
During 1899-1900	39,42,766
Or a net increase of	7,91,871

199. There was an increase of 159·12 miles in the mean mileage worked during 1900-1901, due to the opening of the following sections— Traffic and working.

	Miles.
(1) Sedaw to Maymyo from 1st April 1900	26·10
(2) Maymyo to Nawnghkio from 20th May 1900 ...	34·10
(3) Sagaing to Alôn from 15th April 1900	70·46

The train mileage increased from 3,022,644 to 3,496,766; the average earnings per mile per week from Rs. 190·66 to Rs. 197·38, the average earnings per train mile from Rs. 3·14 to Rs. 3·28, and the percentage of expenses to earnings from 58·47 to 58·69; the capital outlay on open line to the end of the year rose from Rs. 8,70,04,392 to Rs. 10,05,91,050 and the percentage of net receipts to capital outlay on open line from 4·5 to 4·65.

Telegraphs.

200. Two new cables were laid at the Kaladaing crossing, as cables Nos. 2 and 3 had to be abandoned. A second telegraph wire for the Mandalay-Kunlôn Railway was erected from Nawnghkio to Hsipaw, a distance of 48 miles, and a departmental wire from Kalewa to Tammu, 91 miles. Extra wires were erected on existing supports from the Kemmendine Combined office to the Insein Post office and from the Thabyegan Combined office to Syriam; a new line was erected thence to Kyauktan, Thôngwa, Kyan, and Ônhnè Post offices. New lines were constructed from Ônhnè to Thanatpin and from Taunggyi to Loikaw. The line from Taunggyi to Bampôn was reconstructed. The Government and Railway systems at Meiktila were connected. Wooden posts were replaced by tubular posts on the Taunggyi-Môngpyin line and by rail-posts on the sections Toungoo-Thazi and Kamayut-Insein. Seven miles of wire were dismantled. General.

201. Combined post and telegraph offices were opened at Rathedaung, Nyaunglebin, Alôn, Zalun, Loikaw, Yawnghwe, Paung, Thôngwa, and Kyauktan during the year and a new Telegraph office at Kani. The total number of offices opened for paid telegrams increased from 262 in 1899-1900 to 273 in 1900-01. There were, at the close of the year, a total of 432 offices, of which 159 were not open for paid telegrams. The number of telegrams despatched from Government offices was 694,278 against 666,983 in 1899-1900, being an increase of 27,295. Offices and traffic.

202. The total mileage of lines in the province increased by 106 and the total mileage of wire increased by 302. Line and wire mileage.

The automatic working system has been most successfully maintained throughout the year. Calcutta is now worked at a speed of about 120 words a minute and the mail news from Bombay is received automatically at about 60 words a minute, which is also the speed between Rangoon and Madras.

Telephones.

203. A telephone exchange was opened at Pakôkku during the year for the use of Government officials and the Pakôkku Municipality. The Commissariat telephone exchange system was connected to the Oriental Telephone and Electric Company's Exchange, Rangoon. A bell station was opened at Singugyi, on the Bassein-Diamond Island line. The Yenangyaung telephone system of Messrs. Finlay Fleming and Company was extended from Kodaung to Bemè.

Post Office.

Administration.

204. The administration of the post offices in Burma is controlled by a Deputy Postmaster-General assisted by six Superintendents of Post Offices, one Superintendent, Railway Mail Service, and three Inspectors in charge of minor divisions.

Sea-borne mails.

205. The British India Steam Navigation Company continued its various services with punctuality. The Inward English mails arrived as follows :—

	Occasions.
Wednesdays	14
Thursdays	28
Fridays	6
Saturdays	2
Sundays	1
	51

The Outward English Mails continued to leave Rangoon at 2 P.M. on Mondays throughout the year. In respect of the Inward English Mails, the time of arrival in Rangoon is contingent on the arrival of the P. and O. English mail steamers in Bombay.

Irrawaddy Flotilla Company.

206. This Company worked its various services satisfactorily throughout the year. The general contract with this Company expired on the 31st March last, but the service still continues under the same conditions.

207. The undermentioned extensions were made during the year :—

Sagaing to Alôn on the 15th April 1900.

Mandalay to Maymyo, 1st April 1900.

Maymyo to Nawnghkio, 25th May 1900.

These lines were at once utilised for the conveyance of mails.

Burma Railways.

208. Unpunctual arrivals and misconnections of trains at the Myohaung and Thazi Junctions were frequent, in some cases resulting in considerable delays to the mails. All these cases were duly brought to notice.

Owing to floods, the permanent way was breached on several occasions and this resulted in the mails having to be trollied and in some cases carried by coolies. The most serious delays took place when the line was breached in October between Ôktwin and Pyinmana. On this occasion the mails for Rangoon from up-country and *vice versâ* were subjected to a detention of about three days. On 87 occasions mail trains arrived late at terminal stations by two hours or more, namely—

	Times.
Rangoon to Prome	8
Mandalay to Rangoon	30
Prome to Rangoon	3
Rangoon to Mandalay	26
Naba to Mandalay	20

209. The following statement shows the mileage and various modes of conveyance of mails in Burma :—

Mileage statement.

	Railway lines.	Mail cart and pony lines.	Runners and boat lines.	Steamer lines.	Total.
Imperial	1,128¾	785½	1,057½	6,006½	8,978¼
District dâk	...	23	1,592½	289	1,904½
Total of 1900-1901 ...	1,128¾	808½	2,650	6,295½	10,882¾
Total of 1899-1900 ...	979¾	846½	2,712	6,118½	10,656¼
Increase	149	...	...	177	226
Decrease	...	38	62	...	...

The decrease in the runners and boat lines is due to the extension of the Railway.

210. The following statement shows the total number of Post offices of the Imperial and District Dâk establishment in existence at the close of the year 1900-1901 :—

Number of Post Offices.

	Head office.	Sub-office.	Branch office.	Total.
Imperial	35	89	64	188
District dâk	...	1	110	111
Total of 1900-1901 ...	35	90	174	299
Total of 1899-1900 ...	34	87	166	287
Increase	1	3	8	12
Decrease	...	...	...	...

It will be seen from the above statement that 12 Imperial and District Dâk post offices were opened during the year under review, making the number of post offices in existence in the circle 299 against 287 of the previous year.

211. The following statement shows the total number of Imperial and District Dâk letter-boxes opened for the convenience of the public in towns and important outlying villages where there are no post offices and the total number of District Dâk and Imperial postmen and village postmen in existence at the close of the year 1900-1901 :—

Letter-boxes.
Postmen and village postmen.

	Letter-boxes.	Postmen.	Village postmen.
Imperial	503	303	75
District dâk	725	12	171
Total of 1900-1901 ...	1,228	315	246
Total of 1899-1900 ...	1,174	295	229
Increase	54	20	17
Decrease	...	...	...

It will be seen that 54 letter-boxes, 20 postmen, and 17 village postmen were added to the establishment during the year.

Articles delivered.

212. The following statement shows the approximate number and classes of Postal articles delivered in Burma during the year 1900-1901 :—

Year.	Letters and post-cards.	News-papers.	Packets.	Parcels.	Total.
1900-1901	14,262,324	1,467,091	2,298,614	223,093	18,251,122
1899-1900	14,456,397	1,289,310	2,282,996	206,094	18,234,797
Increase	...	177,781	15,618	16,999	16,325
Decrease	194,073	...	...	...	...

The general increase in the number of articles delivered by 08 per cent. is due to the normal growth of Postal work. Out of 14,262,324 letters and post-cards, 3,700,422 were in Burmese and Chinese characters.

The total number of articles registered in Burma, was 346,985 against 333,557 of last year.

Money-orders.

213. A statement of ordinary, telegraphic, and foreign money-orders issued and paid is given below.

Year.	Money-orders issued.		Money-orders paid.	
	Number.	Amount.	Number.	Amount.
		Rs.		Rs.
1900-1901	768,642	2,80,24,612	205,683	1,11,37,636
1899-1900	708,711	2,62,22,020	203,447	1,09,18,876
Increase	59,931	18,02,592	2,236	2,18,760
Decrease	...	...	...	...

The number of orders issued has increased by 8 per cent. and by 6·9 per cent. in value. The commission realised amounted to Rs. 3,98,015 as against Rs. 3,72,258 last year, an increase of 6·9 per cent. The number of money-orders paid has increased by 1·10 per cent. and in value by 2·0 per cent.

Savings Bank.

214. The following statement shows the Post Office Savings Bank transactions :—

Year.	Deposits.		Withdrawals.		Accounts open and balances.	
	Number.	Value.	Number.	Value.	Number.	Value.
		Rs.		Rs.		Rs.
1900-1901	63,324	20,58,336	25,760	15,19,113	55,635	88,88,320
1899-1900	61,794	20,18,645	27,597	15,53,055	52,690	82,61,515
Increase	1,530	39,691	...	...	2,945	6,26,805
Decrease	...	...	1,837	33,942	...	...

The amount of interest paid on closed accounts during the year under review was Rs. 17,965 against Rs. 17,309 in the previous year.

Insured articles, V. P. articles, and ordinary parcels.

215. The following statement shows the insured articles, value-payable articles, and ordinary parcels posted in the Burma Circle during the year under review :—

Year.	Insured articles.			Value-payable articles.			Ordinary parcels.	
	Number.	Value.	Insurance fees.	Number.	Value.	Commission.	Registered.	Unregistered.
		Rs.	Rs.		Rs.	Rs.		
1900-1901 ...	14,695	51,08,050	13,573	63,945	15,58,838	19,860	69,052	1,150
1899-1900 ...	12,904	47,32,435	12,684	58,603	12,79,766	17,904	70,877	1,148
Increase ...	1,791	3,75,615	889	5,342	2,79,072	1,956	...	2
Decrease ...	...	...	...	...	...	...	1,825	...

The increase in insured articles is due to the growth of this class of business at the Ruby Mines, where the value of the articles insured exceeded last year's figures by Rs. 3,75,615.

Combined offices.

216. The total number of combined Post and Telegraph offices open at the end of the year was 86 against 76 of last year. During the year under review ten Combined offices were opened and none were closed. The number of messages increased from 312,159 to 322,229 and the receipts from Rs. 1,43,511 to Rs. 1,46,992-9-0. The expenditure was Rs. 57,214-3-3 against Rs. 54,471-8-9 of last year. Of the 86 Combined offices 43 were authorised to receive foreign messages. The number of receiving offices rose from 109 of last year to 156.

Sale of quinine.

217. The number of doses of quinine sold amounted to 135,313 as against 148,384 of the previous year. This decrease in the sale of quinine is probably due to the price of a powder having been raised from 3 pies to 4 pies.

Highway robbery and casualties.

218. There were no cases of highway robbery of mails during the year under review. There was one case of loss of life of a Postal runner in the following circumstances. A runner on the Gangaw-Pauk line in August last, while endeavouring to cross a stream on a bamboo raft, was drowned. The mails were recovered by the Thugyi of Mawli village on the same day.

Military pensioners and others.

219. There were five pensioned sepoys on the strength of the Post office at the close of the year. There were also nine European and Eurasian women clerks and one Burmese woman in the employ of the Post office. The latter was Postmistress of the Branch office at Kyônpyaw.

V.—REVENUE AND FINANCE.

I.—Revenue.

220. The following statement exhibits the collection and, where known, the demand, remissions, net demand and the collections under each principal head of Civil Revenue (including Forests) during the past two years:—

Item of Revenue.	1899-1900.				1900-1901.				Increase or decrease of demand.	Increase or decrease of collections.
	Demand.	Remissions.	Net demand.	Collections.	Demand.	Remissions.	Net demand.	Collections.		
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1. Land Revenue ...	1,59,90,115	1,37,842	1,58,52,273	1,58,93,727	1,80,42,896	65,988	1,79,76,908	1,76,35,451	+ 21,24,635	+ 17,41,724

16. Income-tax ...	...	...	...	10,52,561	...	...	...	11,19,800	...	+ 67,239
Total ...				5,74,13,058				6,02,26,719		+ 28,13,661

Land revenue.

221. The area assessed to land revenue in Lower Burma (excluding Thayetmyo district) rose by 242,679 acres to the record total of 7,374,912 acres. In Upper Burma the area assessed is unknown except in the comparatively few districts in which direct land revenue assessments on all the cultivated area and supplementary survey have been introduced. The gross demand of the year rose from Rs. 1,59,90,115 to Rs. 1,80,42,896 or by over 20½ lakhs. About a fourth of this increase was contributed by Meiktila, where the system of direct land revenue assessments on cropped areas combined with a reduction of the rate of *thathameda* was introduced on the 1st July 1900. After Meiktila, Hanthawaddy district with Rs. 3,89,083, Bassein with Rs. 2,34,139 and Toungoo with Rs. 2,00,155 were the largest contributors to the increase in which all districts participated except Bhamo, Myitkyina, Katha, the Lower Chindwin and Shwebo. In these five districts the demand which is partly based on the estimated outturn of the harvest fell owing to the poorer yield per acre and the lower rate at which the Government share of the produce was converted into money. The enhancements in Hanthawaddy and Bassein are chiefly due to the introduction of the revision settlement rates into the Kyauktan subdivision and part of the Kungyangôn township of the former and into the Ngathainggyaung subdivision of the latter district. The increase in Toungoo is the result of the concurrent introduction of settlement rates and of supplementary survey over a part of the district. In Pegu the increase of Rs. 1,42,212 was due in part to enhanced rates consequent on revision settlement in Kawa and Hlègu townships. The increase of Rs. 82,791 in Mandalay and over half the increase of Rs. 41,900 in Minbu were due to the direct assessment for the first time to revenue of non-State land. The increase of Rs. 55,704 in Kyauksè is attributed to extensions of cultivation in consequence of the draining of the Thingdaung swamp and to the remodelling of the Daing canal. The remissions of the year amounted to Rs. 65,988 only against Rs. 1,37,842 in 1899-1900. They were largest in Kyauksè (Rs. 23,842) where the Deputy Commissioner ascribes them to heavy floods at the beginning of the rains in the Zawgyi and

Panlaung rivers and to drought at the end of the season. Many of the irrigation works in the district were also under repair during the year and in consequence large areas suffered from a deficient water-supply. Remissions in Mandalay (Rs. 13,591) though large were less than two thirds of last year's total. The amount outstanding at the end of the year was Rs. 4,34,575 as compared with Rs. 1,14,046 in the preceding year. All but eight districts contributed to this total. The outstandings in the Akyab (Rs. 57,016) and Kyaukpyu (Rs. 36,496) districts were due to the remissness of certain Township Officers in getting in their revenue, the excuse given being the extra work entailed by the census operations. In Hanthawaddy and Bassein the February rains were responsible for a good deal of the outstandings, amounting to Rs. 46,808 and Rs. 35,274, respectively. The people were probably also a little unwilling to pay the enhanced assessments under the new settlements. The large uncollected balance in Minbu (Rs. 42,463) is attributed to the delay in the preparation of the assessment-rolls. The sudden death of the Deputy Commissioner, Major Parsons, early in February and the assessment for the first time to land revenue of the non-State land in Sidôktaya and Ngapè no doubt contributed to the result. The uncollected balance in Meiktila (Rs. 44,075) though large was to be expected in the first year of the new system of assessment. Out of the total outstandings in the province all but Rs. 13,324 were collected by the 30th June 1901. Of this balance nearly one-half belonged to Bassein.

Capitation-tax.

222. The gross demand on account of capitation-tax was Rs. 45,03,983 and the number of persons assessed was 1,081,719, an increase of 15,647. Assessees decreased by 1,486 in Henzada and 1,012 in Thatôn; but increased by 2,815 in Akyab and 2,108 in Pegu. The tax was more easily collected than in past years. The total collections including outstandings amounted to Rs. 44,66,537 against Rs. 43,86,534 in 1899-1900. The increase in the yield of the tax was contributed mainly by Pegu (Rs. 16,807) partly due to the migration from Thatôn and by Akyab (Rs. 10,821) due to the assessment of temporary residents on blank tickets. Remissions were less than in the previous year more especially in the Tharrawaddy and Thôngwa districts. The total amount outstanding at the end of the year was Rs. 1,321, of which Rs. 910 were in Akyab and Rs. 399 in Thôngwa. The number of persons exempted from the tax increased slightly from 107,571 to 108,618.

Fisheries.

223. The gross revenue demand on account of fisheries was Rs. 23,25,017 or Rs. 55,792 less than in the previous year. The largest decreases were in Pegu (Rs. 39,640) where there was a reaction from the high prices of 1899-1900 in consequence of the losses sustained by the lessees, and in Myaungmya (Rs. 38,730) where the total reservation of seven fisheries and the partial reservation of 25 others in pursuance of the recommendations contained in Captain Maxwell's reports on the fisheries of the delta caused a considerable deficit. In Bassein the number of separate fisheries rose from 128 to 285 in consequence of subdivisions. The result was a loss of Rs. 11,000 which was, however, more than made good by the abnormal price (Rs. 28,100) fetched by the Inyè fishery. In Mergui the system of leasing the pearl-beds was abandoned and pumps were licensed at Rs. 400 each, while the right to collect green snails and slugs (*bèche de mer*) was sold separately. The result was a rise in the receipts from Rs. 28,760 to Rs. 41,545. There was also an increase of Rs. 2,403 in the revenue from net licenses in Mergui partly due to the issue of net licenses through thugyis and headmen. The fisheries of the Thatôn district are reported to be gradually silting up. The outstandings at the close of the year amounted to Rs. 32,961, towards which Mandalay contributed Rs. 21,189, Thôngwa Rs. 5,032 and Minbu Rs. 3,144. In Upper Burma the fishery revenue of Mandalay showed a considerable increase, but the year was an unfortunate one for fishermen in most districts. An abnormal rise of the river at the beginning of the year and a failure to rise at the end proved disastrous to many, and remissions in Mandalay, Minbu and Sagaing districts were heavy.

Thathameda.

224. A loss of three lakhs of rupees was caused by the reduction of the rate in the Meiktila district and in the Sidôktaya and Ngapè townships of the Minbu district to Rs. 3 and

Rs. 5, respectively, per household consequent on the direct assessment for the first time to land revenue of non-State land. The number of households assessed to *thathameda*, however, increased from 631,244 to 668,797 and the revenue demand in consequence only fell from Rs. 58,58,524 to Rs. 58,40,756 or by Rs. 17,768. The increase of 37,553 in the number of households assessed was probably due to the return to their old homes of former emigrants to Lower Burma owing to the exceptionally favourable rainfall of the preceding year. The largest increase from 4,619 to 10,137 in the Myitkyina district is due to the inclusion in the present year's figures of the Kachin households paying tribute at Rs. 2-8-0 each. The largest increase of revenue (Rs. 62,375) was contributed by Myingyan, where reduction of rates, amounting to about Rs. 30,000, had in the preceding year to be granted in the Pagan subdivision. Remissions which were little more than two-thirds of the total for 1899-1900 were heaviest in Shwebo, Yamèthin and Myingyan, where also notable increases of revenue took place. These two facts taken together would seem to indicate a too stringent original assessment. Towards the balance of Rs. 12,830 remaining uncollected at the close of the year Pakôkku contributed Rs 2,685, and the Upper Chindwin Rs. 3,239. Rupees 1,424 distributed over seven districts were still uncollected on the 30th June.

Water-rate.

225. The demand on account of water-rate fell from Rs. 2,52,038 to Rs. 1,95,898 or by Rs. 56,140 mainly due to the introduction of land revenue assessment in the Meiktila district where, as in Minbu, water-rate and land revenue are now levied in one consolidated sum. The receipts from Shwebo rose by Rs. 22,505 and the area over which water-rates were levied from 62,763 acres to 83,536 acres. The District Officers, however, seem to have departed from the careful principles of assessment that had been laid down for their guidance and displayed an unfortunate zeal in some instances in the assessment of the water-rate. Yamèthin was the only other district which contributed materially to this head of revenue and there the favourable rainfall and consequent extension of cultivation accounted for the increase of Rs. 10,326. The outstandings amounted to Rs. 26,499 and are attributed to the late preparation of the rolls consequent on the additional work caused by the census.

Miscellaneous land revenue.

226. The total receipts under the various heads grouped together as "Miscellaneous land revenue" amounted to Rs. 11,73,769 or Rs. 21,359 less than in the previous year. Survey fees for *pottas* rose by over 50 per cent., but more than half of the increase was realized in Pegu. There was a decrease of Rs. 21,411 in the receipts under the Village Act and Regulation and of Rs. 15,908 in sandbank and strand bank dues. Royalties and fees on minerals declined from Rs. 8,04,389 in 1899-1900 to Rs. 7,97,102 in 1900-01. The receipts for the year include nearly 2½ lakhs of rupees paid by the Burma Ruby Mines, Limited, which bettered its large production of 1899-1900 by over a lakh, and 42 lakhs from the petroleum fields in the Pakôkku and Magwe districts. The disturbed state of China caused a temporary suspension in the jade-stone trade and Rs. 15,088 were remitted out of the license fee of Rs. 50,724.

Process of collection of revenue.

227. In Lower Burma the number of coercive processes of all kinds issued was 26,503, practically the same number as in the preceding year. Warrants of arrest were fewer by 573 than in 1899-1900 and imprisonments fell from 67 to 29. There was also a satisfactory decrease in the actual number of persons arrested. Attachments of property were more numerous than in the previous year by 456. Complete statistics for Upper Burma are not available, there was, however, a slight decrease in the total number of processes issued, although ten persons were imprisoned as against six in 1899-1900.

Agricultural advances.

228. The amount advanced to agriculturists during the year was Rs. 1,11,580 as against Rs. 2,61,613 in 1899-1900. Of this amount Rs. 23,625 were advanced in Tharrawaddy. With the exception of a second loan of Rs. 1,000 under the Land Improvement Loans Act for the cultivation of rubber in Amherst no advances were made

during the year in the Tenasserim and Arakan divisions or in the Hanthawaddy, Prome and Henzada districts of Lower Burma. In Upper Burma four districts (Magwe, Sagaing, Lower Chindwin and Myingyan) took no advances. The fact that no advances were made in these districts is not creditable to the District Officers concerned. In other districts the people showed a readiness to accept these advances. The original allotment to Burma was two lakhs of rupees, which was subsequently increased by Rs. 70,000, but not one-half of this was disbursed. More advantage should have been taken of the allotments, more especially as the favourable rainfall would have enabled cultivators to derive the maximum benefit from the loans. The very prosperous season experienced in 1899-1900, however, to a large extent dulled the necessity and the appetite for these loans.

Experimental cultivation.

229. Gardens were maintained at Myitkyina, Sima, Sadôn, Sinlumkaba, Tiddim, Haka and Taunggyi. Except at Taunggyi where the garden has been in existence since 1891 the drawback to all gardening at these remote stations is the difficulty of obtaining experienced gardeners. Wheat, potatoes and gram have now become established crops in the Southern Shan States. The want of a railway to carry the produce to the markets in Burma is the only reason which prevents the extensive cultivation of these staples. The orchard of 40 acres at Taunggyi has now been fully planted with European fruit-trees and has become self-supporting. Potatoes are grown largely in the Northern Chin Hills and by the Siyins in the Tiddim subdivision. It is proposed to encourage the cultivation of potatoes in the Haka and Falam subdivisions also by the free issue of seeds to the Chins. The attempt to grow oats near Minkin post proved a failure owing to most of the seeds having been damaged by rain in transit to the Hills. The experiment will be renewed next season. No experiments of importance were conducted in other parts of the province.

C.—Upper and Lower Burma.

Salt revenue.

230. The method of assessing the excise duty on salt by means of a composition rate per vessel used in its manufacture continued in force throughout the year. The rates per cauldron or pot, the description of vessels allowed, and their maximum capacity remained the same as in 1899. During the year fresh careful enquiries were made into out-put with a view to ascertaining how far the incidence of the composition duty per maund fell short of the import duty of one rupee levied on foreign salt. The enquiries resulted in the enhancement all round of rates by 25 per cent. in Lower Burma. The enhanced rates took effect on the 1st January 1901. The question of further enhancement of rates will be considered after the present rates have been in force for one year and after the experimental system of direct taxation and the enquiries now in progress have furnished facts showing the actual incidence of the present rates with greater approach to accuracy. There are no reliable statistics as to the total amount of salt consumed in Burma. One million and eighty-three thousand nine hundred and thirty maunds of foreign salt passed out of bond, or over 10 per cent. less than in 1899, while the estimated local out-put was returned at 567,159 maunds or more than 65,000 maunds less than the production of the previous year. There is, however, no reason to believe that there was an actual decrease in consumption during the year. The amount of foreign salt in the hands of the various dealers throughout the country at any time is considerable, and the low prices prevailing in Rangoon towards the end of 1899 had undoubtedly the effect of inducing the smaller retail dealers to lay in larger stocks than they would otherwise have done, in expectation of a rise. The result was to swell the amount of foreign salt which paid duty in 1899 and to decrease that of the year of report. The total revenue yielded by salt was Rs. 12,79,293 against Rs. 14,47,771 collected in 1899. The revenue demand on account of locally manufactured salt fell from Rs. 2,38,242 in 1899 to Rs. 1,94,164 in 1900, a decrease of Rs. 44,078. The duty realized on imported salt was Rs. 10,83,930 or Rs. 1,24,037 less than in the previous year. The illicit manufacture of salt is now of a very petty nature. With the exception of one case in Minhla, Thayetmyo

district, and one case in Thatôn, the illicit manufacture discovered was confined to the Arakan division. In Akyab five persons were found boiling without a license and in Sandoway 22 cases were detected. There is no reason to believe, that there is any contraband trade in foreign salt. The action of a German line of steam-ships in monopolising both the import and sale of German salt succeeded in placing Germany far ahead of England in the salt market, over 72 per cent. of the total imports during 1900 coming from the former country. The price of imported salt gradually rose during the year, till at the end of October it reached the abnormal rate of Rs. 97 per 1,000 viss (44·3 maunds) for the German and Rs. 3 more for the English article. These rates continued till the end of the year. As a consequence of the high prices prevailing for European salt the import of Madras salt rose by over 250 per cent. Madras salt, though dirty in colour, is strong in quality and with improved processes of manufacture will probably eventually prove a formidable competitor to the European variety. The trade in country salt between Rangoon and the districts in the Tenasserim division continued to expand rapidly during the year under stimulation of the enhanced prices prevailing at the chief port. The exports from Sandoway to Akyab increased largely, while the imports into Moulmein from Ye (Amherst district) fell with the great decrease of out-put there. Bassein imported a small quantity from Tavoy. The imports of salted fish again decreased, while those of *ngapi* remained stationary, the result being a decrease of Rs. 6,370 in the duty realized. The imports of salted fish from India which come duty free almost doubled during the year, but the total quantity is still insignificant.

Stamp revenue.

231. The total net revenue from stamps in 1900-1901 was Rs. 20,18,554 against Rs. 18,77,217 in the previous year. The increase of Rs. 1,41,337 was contributed by all classes of stamps except notarial and impressed labels. The latter produced Rs. 28,387 less than in the previous year, when the total was inflated by the payment of Rs. 33,000 on a single deed of transfer in Rangoon, but the revenue shows a satisfactory increase as compared with 1898-99. The sale of hundis increased by Rs. 4,621, owing, it is said, to the briskness of the trade with India. The sale-proceeds of receipt or one-anna stamps rose from Rs. 1,09,913 to Rs. 1,34,025, the revenue derived from the sale of judicial adhesive stamps by Rs. 25,040, and that from impressed judicial stamps by Rs. 54,153. Much of the increase under the latter head was due to the introduction during the year of the new three-anna copy sheets. The charges incurred in the realization of the stamp revenue amounted to Rs. 64,886 or Rs. 4,698 more than last year. The large saving (Rs. 2,230) effected by the introduction from the 1st April 1900 of the revised rates of discount allowed to stamp vendors were more than counter balanced by the increased refunds under the Stamp and Court Fees Acts. In the more backward districts where the stamps sold are chiefly court-fee stamps vendors were hard hit by the reduction in the rates of discount and in some cases surrendered their licenses. In Kyaukpyu 46 licenses in Form B were cancelled. The number of documents impounded during the year was slightly less than in 1899-1900, but the amount of duty and penalty realized was Rs. 25,107 as compared with Rs. 15,532. Even if the abnormal items of Rs 5,365 realized in Amherst as deficient duty on adjudication under section 32 of the Stamp Act and Rs. 1,735 levied in Prome on account of penalty under section 40 of the Stamp Act (subsequently refunded) be deducted, there is still an increase of Rs. 2,475. The number of prosecutions under the Stamp Act fell from 317 to 292 and the amount of fines imposed from Rs. 3,277 to Rs. 3,105. Except in the Hanthawaddy, Pegu, Tharrawaddy, Prome, and Meiktila districts, no rewards were paid to informers during the year. The rewards paid only amounted to Rs. 240.

Excise.

232. The gross revenue of the Excise department during the year amountedto Rs. 54,82,538, the charges aggregated Rs. 4,59,502, and the net revenue reached a total of Rs. 50,23,036. The corresponding figures for 1899-1900 were Rs. 53,10,221, Rs. 4,52,356, and Rs. 48,57,865. The increase of Rs. 1,72,317, in the gross revenue was small, but this result was not unexpected as reaction was to be looked for after the abnormal

increase of Rs. 5,28,154 in the previous year. The most noticeable gains were contributed by fees for licenses for imported liquors (Rs. 1,41,914) and fees for licenses for the sale of country fermented liquor (Rs. 45,661). Fines and forfeitures under the Excise Act and Rules decreased by Rs. 15,064, and, despite a saving of Rs. 5,535 on establishments, the total expenditure exceeded that of last year by Rs. 7,146, the main reason for this being the increased sums credited to Bengal for opium supplied to Burma.

Liquor.

233. The only change of system worthy of notice made during the year was the prohibition of the employment of females in any capacity whatever within the premises of an hotel bar. The prohibition was temporarily suspended in the case of certain employés in order to allow them to serve out their time under contracts executed before the prohibition was brought into force. The total revenue from liquor was Rs. 27,49,483, or Rs. 2,03,060 more than in the previous year. Three licenses less were issued for the sale of imported liquors, but the license fees rose from Rs. 7,37,564 to Rs. 8,97,478, or 22 per cent. In Rangoon Town there was an increase of Rs. 94,800, due to keen competition between the Rangoon Chinamen and a number of Chinamen from the Straits who attended the auction intending to purchase the licenses of all the Chinese liquor shops in Rangoon. The large increases in Amherst (Rs. 30,347) and Mandalay (Rs. 26,070) were also due to keen competition at the auction sales. There were marked decreases in Tharrawaddy (Rs. 7,250), Myaungmya (Rs. 6,745), Thayetmyo (Rs. 6,030), and the Ruby Mines (Rs. 3,390). The considerable advance from Rs. 8,84,110 to Rs. 9,29,771 in license fees for country fermented liquor (*seinye*) is a matter for congratulation, since this seems to be the least harmful form of liquor indulged in by the people at large. The increases were very general except in Prome, Bassein, Henzada, Myaungmya, and Upper Burma. The license fees for country spirits and *tari* increased by Rs. 4,810 and Rs. 10,202 respectively. The number of breweries and distilleries remained the same as in the previous year. More spirits than in the previous year were issued from both the Moulmein and Toungoo distilleries, and the spirit distilled in Moulmein is reported to be ousting Penang rum from the market. The Mandalay distilleries and brewery declined in favour and outturn.

Opium.

234. The system of opium administration remained the same as in the previous year, but the present system of auctioning licenses is on the eve of abandonment. One fact established during the year was that the number of Burman opium consumers is far larger than was at one time believed to be the case, and the number of such consumers has largely increased and is still increasing. The number of licenses issued was 284 or 50 more than in 1899-1900. Tattooer's licenses increased by 31, but the number of such licenses for the whole of Burma (169) is still very small. Twenty-eight special licenses in Form VI were issued against 13 in the previous year. Sixteen of these special licenses were issued in the Upper Chindwin district, of which 13 were granted to Chinese carpenters working for the Public Works Department in various parts of the district remote from the licensed shop.

The gross receipts from duty and fees on opium decreased slightly, namely, from Rs. 26,56,526 to Rs. 26,42,884. There was a falling off of Rs. 54,776 in license fees and an increase of Rs. 43,004 on the sale proceeds of Government opium to licensed farmers. Almost the whole of the increase under the latter head was contributed by the Akyab district, where, owing to the large increase of registered consumers, the amount of opium issued from the treasury rose from 4,798 seers to 6,568 seers. There was a decrease of about 235 seers in the total amount of confiscated opium actually sold, the districts mainly responsible being Bhamo, Mandalay, and Ruby Mines, with decreases of 452, 83, and 70 seers respectively. The decline in license fees from Rs. 15,90,129, in 1899-1900 to Rs. 15,35,353 in 1900-1901 was not due to any decrease in the number (55) of licensed shops, which remained the same as in the previous year, but to great variations in the prices paid in the two years, the most important of which were decreases at Pegu (Rs. 28,036), Prome (Rs. 14,458), Thôngwa (Rs. 29,000), Bassein (Rs. 30,984), Myaungmya (Rs. 25,300), and Yamèthin (Rs. 22,347),

and substantial increases at Akyab (Rs. 39,750), Rangoon Town (Rs. 20,015), and Mergui (Rs. 32,270). Almost everywhere smuggling is spoken of as an important if not the most important cause of the fluctuations. In many cases successful combination amongst bidders reduced the prices realised for the retail opium licenses. Ganja continues to be prohibited, but it nevertheless finds its way into Burma in considerable quantities as is evidenced by the fact that 26,506 tolas were seized during the year. Very few licenses were issued for ganja and only in very special cases where it was needed for the treatment of elephants.

Working of the Excise and Opium Law.

235. The year was not a satisfactory one as regards the prevention and detection of excise offences. In several districts the special excise establishments did little to justify their continued existence and were either reduced or abolished. The number of persons arrested (4,830) and convicted (4,001) was less than in 1899-1900, while those imprisoned (1,040) rose by 34. The amount of fines imposed was Rs. 1,25,332, out of which Rs. 89,204 or 71 per cent. were realized. The amount paid out as rewards was Rs. 1,10,849 or Rs. 1,712 more than in the previous year. The number of illicit stills suppressed was considerably less than in the previous year, but the quantity of liquor confiscated rose from 13,810 to 15,165 gallons. The quantity of opium confiscated was 263,258 tolas as compared with 213,065 toals in 1899-1900. Of the amount confiscated during the year 79,098 tolas were seized in Rangoon, 14,744 tolas in Thôngwa, 25,827 tolas in Myitkyina, and 41,099 tolas in Yamèthin. Several large seizures of opium were made during the year, the largest being two consignments of 25,000 and 60,000 tolas respectively of Chinese opium (transhipped at Singapore) seized in August on board the B. I. S. N. steamers *Henzada* and *Palitana* by officers of the Customs department. There can be no doubt that the auction system encourages smuggling of both foreign and excise opium. Hope is reposed on a new system which will render the operation of smuggling less lucrative to licensees, or even opposed to their best interests. Twice as much ganja was seized as in the previous year.

Income-tax.

236. The Income-tax Act was extended during the year to five villages in the Toungoo district and to one village in the Henzada district, while six decayed villages in the Tharrawaddy district were removed from its operation. The year was a prosperous one and the net collections rose from Rs. 10,50,575 to Rs. 11,13,537, or nearly 6 per cent., to which "Profits of companies" contributed more than half. Fewer Government servants were assessed to income-tax, but they paid Rs. 10,972 more than in the previous year. The increased receipts are attributable to the re-organization and higher rates of pay of the Burma Commission. There was an increase of 61 in the number of income-tax assessees in the employ of local authorities and they paid Rs. 3,350 more. The increase was chiefly contributed by Rangoon and Amherst. The increase (1,462) in the number of employés of companies and private firms who paid the tax was much higher in proportion than the increase Rs. (2,218) in the receipts. This is explained by the omission from the return for 1899-1900 of the servants in the employment of the Burma Railways Company, although the amount paid by them was shown in the return for that year. The revenue under the head "Tax on securities" declined by Rs. 457 in consequence of the redemption of the Rangoon Municipal Loan of 1881 and the reduction of the 1887 loans of the Municipality and of the Rangoon Port Trust. Three additional companies paid income-tax on their profits and the total payments by companies rose largely by Rs. 33,039 to Rs. 1,36,955. More than half the increase was obtained from trading companies which did an excellent business in consequence of the good harvest. Companies classed as Miscellaneous paid nearly 60 per cent. more, while the Burma Railways Company's contribution rose from Rs. 3,342 to Rs. 10,793. Shipping companies paid less. There was a slight increase as compared with 1899-1900 both in the initial number of assessees and in the initial demand under "Other sources of income." Objections were, however, fewer and less successful and the final demand was Rs. 5,36,212 on 15,381 assessees as compared with the corresponding totals of Rs. 5,19,761 and 15,267 in 1899-1900. The difference between the initial and final demand

was less by Rs. 10,472 than in the preceding year. This fact, coupled with the smaller number of objections, would appear to indicate more careful assessments in the first instance. The amount collected was larger by Rs. 18,151 and, although penalties were heavier, arrears were less. There was a marked decrease from 404 to 254 in the number of warrants issued and in only six cases was property sold. The principal increases in collection were in Rangoon (Rs. 12,905), Mandalay (Rs. 3,233), Toungoo (Rs. 2,633), Akyab, and Prome. In spite of the rapidly expanding population and trade of the Irrawaddy division, there were considerable decreases in every district except Bassein. It is evident that Deputy Commissioners in this division did not take sufficient interest in this branch of the revenue. The Chetty clerks were not a success and the assessment of Chetties calls for improvement. Attempts are being made to induce them to assess themselves on the principles of *thathameda* assessment in Upper Burma, provided that the total payments in any year do not fall short of the receipts of the preceding year.

2.—FINANCE.

237. The following statement exhibits the gross receipts and expenditure of the years 1899-1900 and 1900-01 distributed between Imperial, Provincial, Incorporated Local, Excluded Local and Municipal Funds. The transactions of the Rangoon and Moulmein Municipalities, the Rangoon Port Trust and the Rangoon Pilot Fund are included in these figures although these funds do not band with Government :—

Fund.	1899-1900.		1900-1901.	
	Receipts.	Expenditure.	Receipts.	Expenditure.
	Rs.	Rs.	Rs.	Rs.
Imperial	3,36,93,173	90,26,576	3,72,12,289	1,02,11,878
Provincial	3,47,45,359	3,21,31,047	3,64,79,852	3,49,93,377
Incorporated Local	22,76,311	22,38,507	23,93,855	23,88,061
Excluded Local	25,50,200	25,07,336	30,27,119	28,57,261
Municipalities	53,59,238	54,42,221	66,51,796	56,19,165
Total ...	7,86,24,281	51,3,45,687	8,57,64,911	5,60,69,742

Imperial.

There was a net increase of Rs. 35,19,116 in receipts as compared with the previous year, namely,—

	Rs.
Gross increase	36,37,294
Gross decrease	1,18,178
Net increase ...	35,19,116

The gross increase of Rs. 36,37,294 occurred under the following heads :—

	Rs.
Land revenue	7,45,222
Opium	15,425
Stamps	36,544
Excise	1,95,005
Customs	6,02,005
Assessed taxes	33,003
Forests	1,21,195
Tributes from native States	17,238
State Railways (gross earnings)	18,64,194
Petty increases under other heads	7,463
Total ...	36,37,294

The falling off of Rs. 1,18,178 is distributed as follows:—

	Rs.
Salt	97,950
Miscellaneous	16,276
Petty decreases under other heads	3,952
Total ...	1,18,178
Net increase ...	35,19,116

The increase under *Land revenue* is due to further extension of the area assessed to revenue, to extended introduction of the revision settlement rates, to an improvement in capitation-tax and to an increase in fishery and petroleum revenues. Under *Opium* the increase is due chiefly to the re-opening of the registers of opium-smokers in the Arakan division. The improvement under *Stamps* is partly due to normal growth, and partly to the introduction during the year of the new three-anna copy sheets to replace the system of realization of copying fees in cash. The increase under *Excise* is accounted for chiefly by increase in the consumption of foreign and country liquors. Under *Customs* the increase is attributed to an active import trade following the rich harvest of the paddy-crop of 1900. The increase under *Assessed taxes* represents normal growth of revenue. The improvement under *Forests* is attributed to the favourable floating season, and the continued steady demand coupled with the high price of timber. The increase under *Tributes* is due to smaller remissions by short recovery of tributes. Under *State Railways* (*gross earnings*) the advance is chiefly caused by an unprecedented rise in paddy traffic due to famine in India, by the raising of the fares, the opening of new sections of the railway, and by the prosperity of the people arising from the excellent paddy crops of the year.

The falling off under *Salt* is due to the replacement of foreign salt by the large importation of cheaper Madras-made salt, the excise duty on which was realized in Madras; that under *Miscellaneous* was attributed to smaller receipts from premium on bills than in the previous year.

On the expenditure side, there was a net increase of Rs. 11,85,302, which is made up as follows:—

	Rs.
Increases—	
Refunds and drawbacks	33,487
Forests	1,29,220
General Administration	17,912
Scientific and other minor departments	41,909
State Railways (working expenses)	11,06,591
Petty increases under other heads	23,774
Total ...	13,52,893
Decreases—	
Political	78,393
Territorial and Political pensions	16,032
Military Works	67,081
Petty decreases under other heads	6,085
Total	1,67,591
Net increase ...	11,85,302

The increase under *Refunds and Drawbacks* is due to unusually large refunds of Customs, Excise and Forest revenues and of Tributes. The increase under *Forests* is due to large expenditure on surveys, improvement, protection and demarcation of reserves. The increase under *General Administration* is due to change of officers of the Civil Account Department and to payment of privilege leave allowances and increments of pay. Under *Scientific and other Minor Departments* the increase is chiefly due to the expenditure in connection with Census operations. The increase under *State Railways* is due to the cost of re-laying an extra 10 miles of the Irrawaddy line with 50-lb. rails, to heavy repairs to bridges in consequence of extensive flood damages and to increased consumption and rise in price of coal. The decrease under *Political* is due chiefly to the expenditure on the Burma-China Boundary Commission being less than in the previous year. *Under Territorial and Political Pensions* the decrease is due to

lapses of pensions. Under *Military Works* the expenditure in 1900-1901 was smaller than in the previous year.

Provincial.

238. In the Provincial section the receipts show a net improvement of Rs. 17,34,493, which is made up as follows :—

		Rs.
Increases—		
Land revenue		14,90,445
Stamps		1,09,630
Excise		1,95,005
Assessed taxes		33,003
Forests		1,21,195
Police		16,335
Marine		63,372
Civil Works		55,102
Contributions		46,350
Petty increases under other heads		28,244
	Total ...	21,58,681
Decreases—		
Salt		97,950
Law and Justice—Courts of Law		50,157
Law and Justice—Jails		17,328
Miscellaneous		1,54,356
Minor Works and Navigation		87,299
Petty decreases under other heads		17,098
	Total ...	4,24,188
	Net increase ...	17,34,493

The increases under *Land Revenue, Stamps, Excise, Assessed taxes* and *Forests* were due to the same causes which influenced the receipts in the Imperial section. Under *Police,* the increase is due chiefly to larger receipts from fines in gambling cases, and that under *Marine* to an increase in the receipts from coast light dues. The increase under *Civil Works* is due to an improvement in rents of buildings and to sales of buildings in the Rangoon Construction division. The further extension of the system of collecting revenue through village headmen has caused an increase under *Contributions,* as District Cess Funds in Lower Burma are required to make contributions to Provincial revenues towards the remuneration of village headmen in consideration of the extent to which the present system has been introduced as village headmen are required to perform village police work and do not receive separate remuneration from District Cess Funds. The falling off under *Salt* was due to the same cause which affected the receipts in the Imperial section. The decrease under *Courts of Law* is mainly due to a falling off in the receipts on account of magisterial fines and to the introduction during the year of three-anna copy sheets in payment of copying fees which were formerly realized in cash and credited to this head. Under *Jails* the decrease was due to a falling off in the demand for jail-manufactured articles. The decrease under *Miscellaneous* is due partly to the fact that there were no recoveries on account of famine expenditure in the year under report and partly to the receipts from "Unclaimed deposits" being less than in the previous year. Under *Minor Works and Navigation* the decrease is due to refunds from direct revenue of double assessment of water-rates recovered from land-holders on canals in the Minbu district. On the expenditure side, there was a net increase of Rs. 28,62,330 as detailed below :—

		Rs.
Increases—		
Land revenue		3,06,787
Customs		62,939
Forests		1,29,220
General Administration		49,269
Law and Justice—Courts of Law		1,84,262
Police		3,39,386
Marine		26,495
Education		53,004
Medical		1,09,479
Superannuation allowances and pensions		18,507
Stationery and Printing		22,995
Civil Works		16,38,414
Petty increases under other heads		27,478
	Total ...	29,68,235

Decreases—		Rs.
Law and Justice—Jails		58,374
Miscellaneous		23,290
Minor Works and Navigation		18,943
Petty decreases under other heads		5,298
Total ...		1,05,905
Net increase ...		28,62,330

The increase under *Land revenue* is due to the re-organization of the Burma Commission involving increased charge on account of salaries, the extended introduction of the system of collecting revenue by village headmen, the increased demand for *potta* surveys, the appointment of a Settlement Commissioner, larger outlay on surveys by local parties as well as by the Survey of India Department and extended operations of supplementary survey. Under *Customs* the increase is due to arrear payments of overtime fees, to larger payment of rewards and to the revision of the Customs establishment at an increased charge. The increase under *Forests* has been explained in the Imperial section.

Under *General Administration* the increase is due to the higher rate of salary drawn throughout the year by Commissioners in accordance with the revised scale of pay sanctioned for members of the Burma Commission, also to privilege leave allowances and the deputation of two Commissioners on special duty. The increase under *Courts of Law* is due to the creation at an increased cost of a Chief Court for Lower Burma to replace the Courts of the Recorder and the Judicial Commissioner and the re-organization of the Burma Commission referred to under *Land revenue*. The increase under *Police* is due partly to an additional charge on account of the Rangoon City Police which was constituted as a separate force at an increased cost from the middle of June in the previous year, and partly to the formation of additional companies of Military Police to take up certain posts in the Southern Shan States previously garrisoned by regular troops. The increase under *Marine* is mainly due to larger outlay on the maintenance of launches. Under *Education* the increase is partly attributable to the annual growth of expenditure under grants-in-aid, and partly to the transfer of charges on account of Reformatory schools to this head from *Jails*. The increase under *Medical* is due to a special contribution to the Rangoon Port Trust in connection with plague preventive measures at Rangoon.

Under *Superannuation allowances and Pensions* the increase is due to the aunual growth of expenditure. The increase under *Stationery and Printing* is due partly to the revision of the Government Press establishment at Rangoon, and partly to larger outlay on stores and stock for the Press. Under *Civil Works* the increase is due to the expenditure in connection with the construction of buildings for the Rangoon College and the acquisition of land for the construction of a building for the Chief Court of Lower Burma. It is also due to a larger expenditure during the year on new roads and on works which were under construction at the close of the previous year.

The decrease under *Jails* is partly due to the transfer of Reformatory schools charges to *22, Education*, and partly to smaller expenditure on rations, &c., consequent on the decrease in the jail population. Under *Miscellaneous* the decrease as compared with the previous year is due to adjustment in that year as a loss to Government of a sum of Rs. 12,850, money embezzled from the Mingin sub-treasury of the Upper Chindwin district, as well as to the adjustment of certain amounts written off as expenditure under this head, in connection with the fire in the Mogôk treasury in March 1899.

The decrease under *Minor Works and Navigation* is due to smaller expenditure, principally on the Kanna tank, the Sittang-Kyaikto and Kyaikto-Bilin canals and the Irrawaddy embankment, Myanaung section, which works were nearly completed at the close of the previous year.

Incorporated Local Funds.

239. The transactions of the District Cess and District Funds added to those of the Taunggyi Improvement Fund show a net increase of Rs. 1,17,544

in receipts and of Rs. 1,49,554 in expenditure as compared with the previous year, namely,—

	Receipts.	Expenditure.
	Rs.	Rs.
District Cess Funds	90,079	1,30,989
District Funds	27,599	5,824
Taunggyi Improvement Fund	— 134	12,741
Total ...	1,17,544	1,49,554

The gross improvement in receipts of the District Cess Funds amounted to Rs. 1,17,177 and was composed of—

	Rs.
Land revenue	567
Provincial rates	1,03,318
Police	7,411
Marine	3,399
Education	249
Medical	495
Civil Works	1,738
Total ...	1,17,177

On the other hand, there was a total falling off of Rs. 27,098 under *Post Office*, *Miscellaneous*, *Civil Works by Public Works Officers*, and *Contributions*. The receipts under *Provincial rates*, which represent the 10 per cent. collection on ordinary land revenue in Lower Burma, show an increase in almost all the districts. The increase under *Police* is chiefly due to larger receipts from slaughter-house license-fees, while that under *Marine* is accounted for by a special receipt realized by the sale of the steam-launch *Essy* belonging to the Hanthawaddy District Cess Fund. Under *Civil Works* the increase was due chiefly to larger receipts from ferries. Under *Miscellaneous* the falling off occurs chiefly in the Ma-ubin district owing to the rents realized from the bazaars at Kyaiklat and Pyapôn being credited to the Town Funds established at those places from 1st April 1900.

The net increase of Rs. 1,30,989 in the expenditure was the result of the following increases:—

	Rs.
Post Office	1,454
General Administration	758
Education	12,101
Medical	993
Scientific and other Minor Departments	1,652
Miscellaneous	12,255
Minor Works and Navigation by Public Works Officers... ...	1,227
Civil Works by Civil Officers	43,275
Civil Works by Public Works Officers	35,517
Contributions	46,192
Total ...	1,55,424

partly counterbalanced by the decreases shown below:—

Refunds and Drawbacks	645
Provincial rates	1,738
Police	6,210
Marine	14,691
Superannuation allowances and pensions, &c.	136
Minor Works and Navigation by Civil Officers	1,015
Total ...	24,435
Net increase ...	1,30,989

The increase under *Education* represents steady growth in the charges on account of grants-in-aid. Under *Miscellaneous* the increase is due to a refund of Rs. 10,157 by the Ma-ubin District Cess Fund to the Kyaiklat Town Fund, chiefly on account of Town Fund revenues credited to the District Cess Fund, and to larger payments on account of Conservancy establishment this year. The

outlay under the heads *Civil Works by Civil Officers* and *Civil Works by Public Works Department Officers* fluctuates according to the funds available and the ability of the officers to utilize the available funds. *Contributions from Local to Provincial* are fixed annually by the Local Government in consideration of the extent to which the system of revenue collection by village headmen has been introduced. As mentioned in the reports of previous years, the complete introduction of the system has been calculated to ultimately relieve the District Cess Funds of expenditure to the extent of 35 per cent. of their income for duties formerly paid by District Cess Funds, but which are now performed by village headmen, who receive their remuneration from Provincial revenues. The decrease under *Police* is due to large refunds having been included in the previous year's expenditure. Under *Marine* the decrease is chiefly due to the expenditure incurred in 1899-1900 on the construction of a steam-launch for the Hanthawaddy district.

District Funds.

240. The increase of Rs. 27,599 in the receipts is made up of Rs. 2,190 under *Police*, Rs. 11,221 under *Miscellaneous*, and Rs. 14,188 under *Civil Works*. The increase under *Miscellaneous* is due to larger receipts from bazaars. Under *Civil Works in charge of Civil Officers* the increase is due to larger receipts from lease of tolls at ferries and to a special receipt from the Ruby Mines Company as compensation for damage done by the miners of the company to the roads and drains maintained by the Ruby Mines District Fund. The net increase of Rs. 5,824 in the expenditure results from increases aggregating Rs. 16,867 counterbalanced by decreases amounting to Rs. 11,043 as detailed below:—

	Rs.
Increases—	
Land revenue	4,900
Post Office	5,493
Police	327
Miscellaneous	4,368
Civil Works by Public Works Officers	1,621
Contributions from Provincial to Local	158
Total	16,867
Decreases—	
General Administration	3,658
Civil Works by Civil Officers	7,385
Total	11,043
Net increase	5,824

The figure under *Land revenue* represents the contribution to Provincial revenues towards the cost of the district office establishment in Deputy Commissioners' offices for the office work connected with District Funds. The increase under *Post Office* is attributable to the extended operations of the district post in Upper Burma. Under *Miscellaneous* the increase is due to larger expenditure than in the previous year on Conservancy establishment and contingencies. The expenditure under the head *Civil Works by Civil Officers* varies according to the funds available and the means at the disposal of the officers in charge of spending the amount.

Taunggyi Improvement Fund.

During the year under report the receipts of the fund amounted to Rs. 4,233 and the expenditure to Rs. 22,315. There have been increases under *Police* and *Miscellaneous* and a slight falling off under *Land revenue*. On the expenditure side, the increase is due to heavier outlay on *Civil Works by Civil Officers*. The expenditure was chiefly incurred in the construction of the bazaar at Taunggyi and met from the loan money.

Excluded Local Funds—1900-1901.

241. These comprise the following funds:—

Cantonment, Town, Port, Pilot, Land Sale and Rent, Educational and Rangoon Police Reward Funds. The Rangoon Port Trust is also an excluded Local Fund, but the transactions do not appear in the Government books.

The transactions of these funds during the year under report were as follows:—

Fund.	Opening balance.	Receipts.	Total.	Expenditure.	Closing balance.
	Rs.	Rs.	Rs.	Rs.	Rs.
Cantonment Funds	11,346	2,07,073	2,18,419	2,07,297	11,122
Town Funds	48,047	1,39,726	1,87,773	1,25,803	61,970
Port Funds	2,38,604	2,51,934	4,90,538	1,85,320	3,05,218
Pilot Funds	91,470	3,34,368	4,25,838	2,81,636	1,44,202
Land Sale and Rent Funds ...	25,464	5,30,140	5,55,604	5,35,764	19,840
Syndicate ... General Fund ...	28,697	27,260	55,957	29,797	26,160
Syndicate ... College Fund ...	14,634	58,796	73,430	57,957	15,473
Syndicate ... Collegiate School Fund	15,205	50,650	65,855	52,148	13,707
Rangoon Police Reward Fund ...	454	859	1,313	1,193	120
Rangoon Port Trust	5,15,032	14,26,313	19,41,345	13,80,346	5,60,999
Total ...	9,88,953	30,27,119	40,16,072	28,57,261	11,58,811

The nature of the funds has been described in previous reports.

The total outlay on public works during the year under report was Rs. 4,62,851, namely, from—

	Rs.
Cantonment Funds	20,417
Town Fund	41,362
Port Funds	19,001
Syndicate College Fund	33
Syndicate Collegiate School Fund	265
Rangoon Port Trust	3,81,773
Total ...	4,62,851

The only excluded Local Funds which were indebted either to Government or to the public at the close of the year 1900-1901 are the Mergui Port Fund, which was indebted to Government to the extent of Rs. 35,302, and the Rangoon Port Trust, which was indebted to the public to the extent of Rs. 3,44,041.

There are seven Cantonment Funds, namely, those at Mandalay, Rangoon, Bhamo, Meiktila, Shwebo, Maymyo, and Thayetmyo.

There are four Pilot Funds, namely, those at Rangoon, Akyab, Bassein, and Moulmein. The funds at Bassein and Moulmein were established with effect from 1st April 1900.

There were eight Town Funds at the beginning of the year, but the number was reduced to seven owing to the conversion of the Allanmyo Town Fund into a Municipal Fund with effect from 1st October 1900. Two new funds were constituted with effect from 1st April 1900, one at Pyapôn and the other at Kyaiklat.

Municipal Funds.

242. Excluding the Rangoon and Moulmein Municipalities, which do not bank with Government, there were 39 Municipalities at the beginning of the year under report, but the number was increased to 40, with effect from 1st October 1900, owing to the conversion of the Allanmyo Town Fund into a Municipal Fund.

The transactions of the Municipal Funds as above during the year 1900-1901 were as follows:—

Province.	Opening balance.	Receipts.	Total.	Expenditure.	Closing balance.	
					Treasury.	Civil Surgeon's cash-book.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Lower Burma ...	3,58,352	13,20,907	16,79,259	12,57,014	4,21,258	987
Upper Burma ...	1,31,471	10,52,138	11,83,609	9,54,880	2,28,166	563
Total ...	4,89,823	23,73,045	28,62,868	22,11,894	6,49,424	1,550

The liabilities of the Municipalities as regards loans on the 31st March 1901 were as detailed below :—

	Rs.
Due to Government—	
Prome	41,904
Paungdè	2,317
Mergui	1,060
Yandoon	46,780
Akyab	9,481
Shwegyin	5,666
Sandoway	2,517
Letpadan	3,147
Henzada	8,336
Kyauksè	3,665
Taungdwingyi	1,236
Due to the public—	
Rangoon drainage works	17,25,000
Rangoon drainage works	4,00,000
Rangoon high-pressure water-supply	3,00,000
Rangoon high-level water-works	7,10,000
Rangoon Town Lands reclamation works	6,42,000
Rangoon water-works (Thamaing scheme)	7,90,000
Rangoon public works	3,18,000
Rangoon drainage works	50,000
Moulmein—	
Moulmein street-lighting	80,000

There are two other classes of Trust Funds, namely, Official Assignee's and Cemetery Endowment Funds. These funds do not bank with Government and their accounts are not shown in the Government books.

There are three Educational Endowment Funds, namely, Jardine, Rènoung, and Copleston. These funds do not bank with Government treasuries and their accounts are not shown in the Government books.

Paper Currency.

243. The circulation of notes on the 31st March of each year since the office was first opened in August 1883 has been as follows :—

	Rs.
31st March 1884	20,90,495
31st March 1885	13,36,705
31st March 1886	15,86,780
31st March 1887	32,01,200
31st March 1888	37,42,850
31st March 1889	28,44,310
31st March 1890	28,90,800
31st March 1891	53,11,715
31st March 1892	39,46,175
31st March 1893	66,77,090
31st March 1894	39,75,125
31st March 1895	56,50,720
31st March 1896	49,28,225
31st March 1897	53,57,155
31st March 1898	59,46,620
31st March 1899	58,85,090
31st March 1900	75,89,640
31st March 1901	1,01,51,090

The issues and receipts of notes for the two years 1899-1900 and 1900-1901 have been as follows :—

Year.	Issues. Rs.	Receipts. Rs.
1899-1900	15,27,53,020	15,10,48,470
1900-1901	15,94,74,265	15,69,12,815

The details by denominations are—

Denomination.	Issues.		Receipts.	
	1899-1900.	1900-1901.	1899-1900.	1900-1901.
Rupees—	No.	No.	No.	No.
5	26,930	24,463	27,762	24,265
10	383,442	403,047	373,473	395,181
20	46,845	36,209	49,529	38,229
50	28,529	29,116	28,269	29,456

1,000	43,333	44,380	43,304	43,988
10,000	7,562	7,812	7,502	7,707
Total	773,305	830,014	755,912	812,621

The following table shows the circulation by details of denomination on the 31st March for the two years 1899-1900 and 1900-1901 :—

Year.	5	10	20	50	100	500	1,000	10,000	Pieces.	Value.
										Rs.
31st March 1900.	7,916	83,304	11,911	8,050	36,033	352	1,027	127	148,720	75,89,640
31st March 1901.	8,114	91,170	9,891	7,710	47,280	297	1,419	232	166,113	1,01,51,090

The circulation of notes of the denominations of Rs. 5, Rs. 10, and Rs. 100 shows an increase in comparison with the previous year, particularly in the case of Rs. 100 notes ; while there is a falling off in the circulation of notes of the denominations of Rs. 20 and 50. The increase in the circulation of notes of Rs. 1,000 and Rs. 10,000 on the 31st March 1901 as compared with the corresponding date of the preceding year is chiefly due to the number of notes of these denominations held by the Bank of Bengal, Rangoon, out of notes issued in payment of telegraphic transfers from Calcutta being larger than on the last day of the previous year.

VI.—VITAL STATISTICS AND MEDICAL SERVICES.

Census.

The initial stages.

244. The Census of 1901 was taken on the night of the 1st March (in Burmese chronology the 13th waxing of the month of *Tabaung* in the year 1262), but preliminary arrangements occupied the whole of the twelve months preceding that date. In February 1900 Mr. Risley, the Census Commissioner, visited the province with a view to considering, in communication with the local authorities, the arrangements to be made for the Census, and on the 2nd March—practically a year before the date of the final enumeration—a note on the principal points for consideration that had been prepared by him was discussed in Rangoon in an informal conference held at Government House. There were present on this occasion His Honour the Lieutenant-Governor, the Census Commissioner, the Revenue Secretary to the Government of Burma, and the Superintendent of Census Operations. The various points raised in Mr. Risley's note were gone into *seriatim*, doubtful questions were discussed and settled, and a rough provisional division of the area of the province into "ordinary" and "special" tracts was decided upon. The outcome of the deliberations then undertaken took the form of a letter (No. 112-3C.—1, dated the 6th April 1900) from the Revenue Secretary to Government to all Deputy Commissioners. This letter dealt with the initiation of the preliminary operations, gave general instructions as to the division of the area of the province into well ascertained Census units, defined the expressions "Charge," "Circle," "Block," "Charge Superintendent," "Supervisor," "Enumerator," and the like, laid down what classes of the community were ordinarily to be selected as Census officers, communicated orders regarding non-synchronous and other "special" areas, and finally prescribed, as a first step towards the end to be attained, the preparation of a District Census register, which came to be known later as the "General village (or town) register." This register corresponded more or less with the "Subdivisional register" prescribed at the 1891 Census, and was designed, like that register, to give a comprehensive and detailed view of the Census arrangements for each district.

Special tracts.

245. As regards special tracts, namely, those in which the ordinary Census procedure could not be applied, a threefold classification was adopted. First in order came the ordinary non-synchronous areas, where the inhabitants were wild, widely scattered, and illiterate, but where the conditions were such that, by extending the operations over a longer period than in the ordinary tracts, by dispensing with a final check, and by importing a specially trained agency for enumeration, it was believed that results could be obtained as full and very nearly as reliable as those secured in the synchronous areas. Next came the "Estimated" tracts, those so backward that even the modified procedure just described seemed likely to fail of its object. In these it was decided to make no regular enumeration, but merely in the first place to count the number of inhabited houses, next to ascertain the average number of persons per inhabited house by carefully enumerating a certain number of typical villages, and then, by applying this average to the total obtained by the first process, to calculate the population of the entire area. Lastly there were the still more backward regions, in which political or other considerations urged the expediency of a total abstention from interference even as slight as would be involved in a rough calculation of the kind alluded to. They were known as the "Omitted" tracts and were left altogether outside the scope of the operations.

Of the special tracts the most important were the Shan States and Chin Hills. During the closing months of 1899 and the early part of 1900, the Local Government were in correspondence with the Superintendents of the Northern and Southern Shan States and of the Chin Hills with regard to the procedure to be adopted in the enumeration of their charges, and by the date of the informal conference held on the 2nd March all three of the officers had expressed their opinions on the various questions at issue and their replies were considered at the conference. The matter was not finally disposed of until several further communi-

cations had passed, but by August a Census scheme for all three charges had been sketched out. In the end it was decided that the greater portion of the Northern and Southern Shan States and the whole of the Chin Hills, except the portion adjoining the Pakôkku district, which is administered by a separate Assistant Superintendent, should be treated as non-synchronous tracts and be enumerated on the standard form of schedule during the cold weather of 1900-1901. The areas to be "estimated" were Karenni in the Southern Shan States, the Pakôkku Chin Hills, and what are known as the "Kachin districts" of the Northern Shan States. Only a portion of the above areas had come within the scope of the previous Census. The Chin Hills had on the last occasion been wholly untouched, and in the Shan States all that had been attempted was a rough count which, though fuller than that obtained by the 1901 "estimating" system, was not by many degrees as full as the non-synchronous Census on the standard schedule. The only wholly "omitted" areas were the trans-Salween States of the Northern Shan States and West Mang Lön, which is a cis-Salween State, but more than ordinarily backward and rugged.

The matter of the non-synchronous enumeration of the less civilized portions of Burma proper was not finally settled till some time after the arrangements for the Shan States and the Chin Hills had been finally completed. The only district the whole of which was thus specially dealt with was the Arakan Hill Tracts. Of the following districts, portions only came within the non-synchronous category :—

Akyab.	Amherst.	Mergui.	Katha.
Kyaukpyu.	Thatôn.	Bhamo.	Ruby Mines.
Pegu.	Tavoy.	Myitkyina.	Upper Chindwin.

The only estimated area in Upper Burma proper was the wilder portion of the Kachin region in the Upper Chindwin and Myitkyina districts. No part of the regularly administered province was wholly omitted from the operations.

Code of Census Procedure.

246. The preparation of the General Village Register occupied the attention of District Officers for several months after the issue of the Revenue Secretary's letter of the 6th April. In June the compilation of a manual for the guidance of officers concerned with the Census was commenced. With a view to uniformity in general treatment, the main lines of the procedure to be followed before, at, and after the final enumeration of the 1st March had been sketched out by the Census Commissioner in a publication known as the Imperial Code of Census Procedure. Each Provincial Superintendent took the Imperial Code as his model, reproduced literally so much of it as was applicable to the whole of India, introduced into the rest such modifications as local conditions demanded, and published the result as his Provincial Code of Census Procedure. The Code was issued in instalments, each chapter being distributed with a covering circular to the officers concerned shortly before the stage with which it dealt had been reached.

Definitions.

247. As regards the definitions in the Code, the expressions "Charge Superintendent," "Supervisor," and "Enumerator," "Charge," "Circle," and "Block" had almost precisely the same meaning attached to them as at the 1891 Census. The charge was ordinarily a township and was controlled by the Charge Superintendent, the highest grade of Census Officer formally appointed under the Act (Act X of 1900), who was as a rule either a Township Officer or an Inspector of Land Records. Each charge consisted of a number of circles, for each of which a Supervisor was responsible. Clerks, revenue surveyors, thugyis, and the more intelligent of the rural officials were usually selected for the control of circles. Each circle was composed of so many blocks (from 10 to 15 ordinarily) in charge of an Enumerator, with whom the actual duty of recording the population on the schedules rested. The Enumerators were ordinarily village headmen, ten-house *gaungs* or block elders. Practically all village officials who were capable of carrying out the duties of Enumerator were employed. Where Government officers were not available the services of non-officials had to be made use of. Each block was enumerated in a separate enumeration book. For the purposes of the Census a "house" was defined as a building to which a separate number had been affixed for Census purposes.

A "village" was in the Code a village as defined in the Village Act and Regulation. A Census town was either a municipality, a cantonment, a town as defined in the Towns Act or Regulation, or any other collection of houses with 5,000 or more permanent inhabitants that it was decided to look upon as possessing real urban characteristics. A total of fifty such urban areas were treated as towns for the purposes of the Census. There were two cities (*i.e.*, towns of not less than 100,000 inhabitants), namely, Rangoon and Mandalay. A special register for towns was prescribed in Chapter III of the Code. By the end of the rains the Village and Town registers had been practically completed.

Circle lists, house-numbering, house-lists, &c.

248. Towards the end of August orders were issued, directing the preparation of circle lists and circle maps for the use of Supervisors at the Census. The circle list was a synopsis of the Census arrangements made for the circle, serving for the smaller area much the same purpose as the General Village register served for the district. The map supplemented the knowledge conveyed to the Supervisor by the circle list. Lists and maps were prepared in the district office and distributed thence to Supervisors. They had for the most part been issued to Supervisors soon after the business of house-numbering had been taken in hand. This latter stage of the operations was reached about October or November. In the matter of house-numbering, Enumerators were guided by Supervisors and Supervisors by instructions contained in Chapter I of a small pamphlet issued in English and Burmese towards the close of September, known as the Charge Superintendents' and Supervisors' Manual. The first chapter of this pamphlet dealt with the circle list, house-numbering, the house-list, and the distribution of enumeration books, and carried matters up to the date for the commencement of the preliminary enumeration. The house-list was a list prepared by the Enumerator after house-numbering had been finished. It was virtually a rough index to his enumeration book and, when completed, gave a list of all the households for which he was responsible. It was eventually copied by him into his enumeration book and called the block-list. The schedules, with the covers of the enumeration books, were printed in Burmese and Shan. All other forms were, when this was necessary, translated into Burmese.

Training of Census officers. Experimental enumeration.

249. By the end of 1900 all Census Officers had been duly appointed under the Act (X of 1900) and had received their declarations of appointment. During the closing months of the year a large number of them were receiving a practical lesson in Census work by means of an experimental enumeration, which was held partly for the purposes of training, but mainly in order to supply a number of entries sufficient to enable the Census Abstraction office to test thoroughly a system of abstraction by slips which it had been decided to introduce at the March enumeration. To this end 40 bound books of schedules capable of containing 100 entries each were distributed to each district to be filled up with actual entries by selected Enumerators under the eye of their Supervisors exactly as they would have been filled at the regular enumeration. By this means it was provided that a certain proportion at any rate of the lower grades of Census officers in each district should have the elements of their business drilled into them. The books, after being filled up, were returned to the Abstraction office, where they were made use of for purposes of abstraction.

Forms and stationery.

250. The distribution of the schedules and other forms required for the Census itself began in September and continued on into January. Each Enumerator received pen, ink, and blotting paper, together with an enumeration book consisting of as many pages of the general schedule as he needed and a block-list (into which he copied the house-list referred to above). The schedule and block-list were stitched into a brown paper cover, on the inside of which were printed, among other things, the Enumerators' instructions and a specimen schedule for his guidance. The duty of binding the schedules into books of the required size rested with the Supervisors. In some cases, however, this work was done in the district office.

The preliminary enumeration.

251. The preliminary enumeration was started in January in rural tracts and early in February in towns. The 15th January was the date on which it was supposed to begin outside urban areas. The duties of Enumerators at the preliminary count consisted in going round their blocks daily and recording in the columns of the schedules in their enumeration books particulars regarding the inhabitants of each of the houses in their blocks, till all the houses had been thus dealt with. In doing this they were required to follow step by step the instructions printed inside the cover of their enumeration books. For their part the duties of Supervisors at this stage were indicated in the second chapter of the Supervisors' Manual, which was distributed early in November. Briefly, these duties were to watch over and control the Enumerators' work and to give Enumerators additional guidance in regard to certain specified points not dealt with in detail in the instructions printed inside the cover. All writing at the preliminary enumeration was done in black ink. No real difficulty was experienced in ascertaining from the people the particulars required for entry in the schedules.

Testing the preliminary record. Census holidays.

252. In the interval between the completion of the preliminary enumeration and the night of the 1st March the preliminary record obtained in the manner described above was checked by Supervisors, Charge Superintendents, and such other responsible officers of Government as could be spared for this duty. Roughly this period covered the last twenty days of February. The 12th and the 13th February were gazetted as Census holidays in rural areas in order to afford Government officers an opportunity of giving two whole days undivided attention to this business of checking. Similarly in Rangoon, on the 18th, 19th, 20th, and 21st February all Government offices were closed and the exertions of all available officers were concentrated on the work of scrutinizing and testing the preliminary record.

The final enumeration.

253. On the night of the 1st March the final stage of the operations was reached. Between dusk and midnight the Enumerator went the round of his block and, with pen and red ink, brought his enumeration book up to date, striking out those persons already shown in his book who were not present on the occasion of his nocturnal visit and adding those who were then present but had not been shown in the preliminary record. Here again practically all that he required to know was printed in the shape of a few plainly worded rules inside the cover of his enumeration book. Charge Superintendents and Supervisors were expected to exercise as much supervision as possible over the work of the Enumerators during the few hours the enumeration was in progress. No special difficulty was experienced at the final enumeration. The attitude of the people was satisfactory.

Preparation of the provisional totals.

254. Inside the end cover of each enumeration book was printed a form designed to show the number of houses contained in the block and book, and the total number of males and females shown as present at the final enumeration. This form, which was known as the Enumerator's abstract, it was the Enumerator's duty to fill up on the morning of the 2nd March. The entry of the totals was accomplished in the presence of the Supervisor. After all the abstracts for the circle had been thus prepared and duly checked, the Supervisor calculated from them the total number of houses, of males and of females in his circle, and entered the result in a circle summary, which he transmitted with due expedition to his Charge Superintendent. The Charge Superintendent in his turn condensed all the circle summaries for his charge into a charge summary and despatched this as soon as possible to the district headquarters. Here the district summary was compiled from the various charge summaries, and telegrams embodying its contents (that is to say, giving for the whole district (*a*) the total number of houses, (*b*) the total number of males, (*c*) the total number of females, (*d*) the total number of persons of both sexes were despatched forthwith to the Census Commissioner, Calcutta, and to the Superintendent, Census Operations, Rangoon. Steps had been taken several months before the final enumeration to see that no

time was wasted in carrying out the procedure described, and the measures adopted enabled the Deputy Commissioners of all the districts in the province, except Salween, to despatch their telegrams giving provisional totals to the Census Commissioner and to the Provincial Superintendent by the 11th March. The first district telegram was received from Magwe on the 4th March. The provisional totals for the province were as follows :—

Males	5,323,910
Females	5,144,280
Total ...	10,468,190

The above figures comprise the population of areas which did not come within the scope of the 1891 Census. A general idea of the growth of population in Burma proper can, however, be obtained from the following :—

1891, Final figures.	1901, Provisional totals.	Increase or decrease.
7,770,894	9,239,730	+ 1,468,836

This shows that, calculated on the provisional figures for 1901, the actual rate of increase in the province, exclusive of the Shan States and the Chin Hills, is 18·9 per cent.

The work of abstraction.

255. As soon as the final enumeration was completed, the enumeration books for each district were sent, with district, charge, and circle summaries and circle lists, to the Abstraction office in Rangoon. After being numbered and registered in the record-room, the enumeration books were made over to the office for abstraction. The system adopted for obtaining the required data from the schedules was that known as the slip system of abstraction. Its most characteristic feature was the process by which each individual person enumerated was represented for abstraction purposes by two slips or pieces of paper about the size of a *carte de visite* photograph. The colour of the slips denoted the religion of the person concerned, their shape (according as corners were or were not cut off), his or her sex and civil condition. On the slips were copied in an abbreviated form the entries made against the person in the enumeration book, some on one slip some on the other. Thus, after having been dealt with as above, the population of each block assumed the form of two bundles of slips of different shapes and colours with different particulars regarding age, occupation, birthplace, &c., noted on them. These bundles were then sorted by the Abstraction staff now in one way now in another, according as it was desired to ascertain this, that, or the other set of facts for the Census tables, and the result of the sorting was entered in its appropriate column in a printed form called a tabulation sheet. The last stage of the work consisted in compiling the various tabulation sheets into the Imperial and Provincial Tables. This was the duty of the Compilation department. There can be no question that the system was an improvement on the method of abstraction adopted at the 1891 Census. Compilation was approaching completion when in November 1901 the Abstraction office moved from Rangoon to Maymyo.

Vital Statistics of the General Population.

Vital statistics.

256. As indicated by the returns for 1900, some slight general improvement more particularly in rural tracts has been made in registration. In many of the more important towns the registration of both birth and death statistics would appear not to receive the attention the subject demands, as however possible inaccuracies occur in the estimated population, the results can be more accurately judged in the next year's report when the recent census figures will be available. The areas within which registration of births and deaths are carried out remain almost the same as in last year. The results obtained in Upper Burma are sufficiently encouraging and when somewhat longer trial has been made the extension of the system including

the registration of births in rural tracts, may be found possible. Both in Upper and Lower Burma there is a continued need of careful supervision.

Principal diseases.

257. The mortality from cholera was 3,440 as compared with 4,942 in the previous year and is quite below the average for the past ten years. The deaths from smallpox have fallen in number in the Lower Province when compared with the high figures of the previous year, but the mortality is still comparatively high and vaccination is as yet not nearly so popular as it ought to become. Smallpox was not prevalent to the same extent as cholera. Three thousand and fourteen deaths were registered during the year under this cause against 5,891 in 1899. The outbreak was more prevalent in the Irrawaddy and Tenasserim divisions.

The greatest mortality was as usual due to fevers which carried off 49,888 souls in Lower Burma and 19,875 in Upper Burma against 51,177 and 19,406 respectively during 1899. The number of quinine packets issued to Postmasters was 1,337 and 1,639 to other officers as compared with 1,527 to the former and 998 to the latter in the previous year.

Immigration and Emigration.

258. The following table shows the number of immigrants and emigrants who passed through the principal ports of the province during the past two years :—

	1899-1900.		1900-1901.	
	Emigrants.	Immigrants.	Emigrants.	Immigrants.
Akyab	16,974	16,242	19,811	11,193
Rangoon	86,819	149,922	98,328	151,285
Moulmein	1,894	858	2,397	666

The number of emigrants from each of the above ports was much in excess of the number in 1899-1900. The number of immigrants into Rangoon exceeded the number in 1899-1900 by 1,363, whereas the immigrants into Akyab and Moulmein declined by 5,049 and 192 respectively.

Medical.

General.

259. Three new dispensaries were opened and one was closed. There were 113 institutions working on the 31st December 1900.

The aggregate number of patients treated in these dispensaries was 36,095 in-door and 822,594 out-door as compared with 34,749 and 783,290 during 1899. Of the in-patients 26,540 or 74 per cent. were "cured," 3,806 or 11 per cent. were "relieved," 1,621 or 4 per cent. were "discharged otherwise" and 2,724 or 8 per cent. "died." The corresponding ratios for the previous year were 74, 12, 4 and 8 per cent., respectively.

The average daily attendance during the year increased from 1,447 to 1,483.

The number of women and children treated were 142,588 and 186,830 or 17 and 22 per cent., respectively, against the same percentage in the previous year. Endeavours are being made to provide separate accommodation and special arrangements for the examination of women, and municpalities are being urged to employ nurses, preferably those educated at the Dufferin Hospital.

Principal diseases.

260. As usual malarial fevers were predominant. There was also a large increase under dysentery, worms, diseases of the eye, diarrhœa, dyspepsia, other diseases of the digestive system, soft chancre and local injuries.

Surgical operations.

261. The number of surgical operations performed during the year has increased, but the ratio of success is practically the same as last year.

Financial.

262. The receipts during the year including Rs. 39,192, the opening balance, amounted to Rs. 7,48,535 against Rs. 36,587 and Rs. 6,13,801, respectively. The amount contributed by Government towards hospital expenditure exceeded that given in the previous year by Rs. 34,991. The increase is chiefly due to the construction of new hospitals with auxiliary buildings.

Railway, military police, and private hospitals and Dufferin Maternity.

263. The number of patients treated in these institutions during the year was 117,913 including 16,981 in-door patients. As in the case of civil medical institutions, malarial fever heads the list. Next to it in order come ulcers, other diseases of the digestive and the respiratory systems. Three hundred and thirty-four cases of confinements were attended to in the Dufferin Hospital. The statistics of the Dufferin and private hospitals are for the first time included in this report.

Sanitation.

264 During the year under review Prome was the only municipal town where anything appreciable was expended on water-supply or drainage.

Schemes for the improvement of the water-supply at Mandalay, Rangoon, Paungdè, Akyab, Moulmein and Meiktila were drawn up.

As regards drainage several Town Committees were advised to draw up schemes and when these are approved definite sums of money will be set aside annually to carry out the scheme piecemeal.

Occurrence of plague.

265. The prevalence of plague in India, more especially in Calcutta, which is only four days' journey by sea from Rangoon, gave rise to much apprehension, but happily, though four imported cases were reported, no indigenous case of the disease occurred during the year. Two of these cases were undoubtedly cases of plague. The precautionary measures adopted are practically those advised by the Venice Sanitary Convention.

The segregation camp is situated on the right bank of the Rangoon river, some 6 miles from the port, and occupying an area of about 18 acres. The buildings are of wooden-make with wooden floors, thatched roof and strong mat-walling, affording accommodation for 10 Europeans and 750 Natives. The average daily population of the camp during the year was 417, the daily average number of sick 7·8 and the death rate 5·5 per cent. The chief causes of admission were fever (381) and cholera (26). Fourteen of these cases of cholera were admitted direct from the ships and the remainder either connected with these or incubating the disease on arrival in camp. The camp arrangements were, on the whole, most satisfactory.

Vaccination.

General results.

266. Though a slight increase was made in the average number of Vaccinators and Native Superintendents employed, the amount of work done fell from 490,887 in 1899-1900 to 410,461 in 1900-1901. This decrease is nearly equally distributed over all districts and may very probably be due to closer supervision over the staff, but is perhaps more correctly attributable to Vaccinators being sent up for trial for falsifying their returns.

Dispensary vaccination.

267. The number of primary vaccinations rose from 6,033 to 6,653, while the number of re-vaccinations fell from 6,594 to 2,797. The percentage of successful primary vaccination was again considerably lower than the average for the whole province. In the Northern Shan States and Chin Hills the percentage was as low as 22·49 and 28·39 respectively. The percentage of successful re-vaccination was 47·59

Vaccination in Rangoon.

268. A reference to the marginally noted figures show a falling off in the quantity and quality of work done, within the Rangoon Municipality. The present Health Officer attributes this state of things to a number of causes, chief among which are—(*i*) inadequacy of staff and of supervision, and (*ii*) the want of an efficient clerk.

Year.	Primary.	Re-vaccination.	Percentage.		Average number vaccinated per vaccinator.
			Primary vaccination.	Re-vaccination.	
1896-97	15,054	5,593	90·07	58·27	5,162
1897-98	8,368	3,679	91·01	74·01	2,409
1898-99	5,692	6,140	96·91	80·42	2,366
1899-1900	2,491	4,053	98·64	71·53	1,309
1900-1901	2,265	2,677	75·76	61·00	988

269. The amount of inspection work performed by Civil Surgeons and Native Superintendents of Vaccination is quite inadequate.

Verification of results.

270. There was an increase in the total cost of the department of Rs. 5,170-1-11 as compared with that of the previous year. This increase is due to—

Finance.

(*a*) increase in the average number of vaccinators employed ;
(*b*) higher rates of pay and travelling allowance drawn by Vaccinators and Native Superintendents of Vaccination ;
(*c*) employment of a Hospital Assistant at Rangoon on Vaccination depôt for about five months ; and
(*d*) increase in contingent charges.

Of the total expenditure, Local Funds bore 52 per cent. and the balance was met from Provincial and Municipal Funds. The average cost of each successful case varied from Rs. 1-7-0 in the Rangoon Municipality and annas 9-2 in the Salween Hill Tracts, to annas 1-3 in Shwebo, annas 1-9 in Sagaing, annas 1-10 in Henzada, and annas 1-11 in Thayetmyo districts.

271. Besides the manufacture of lymph in the Rangoon and Taunggyi Vaccine depôts and purchase from Bangalore, it was also prepared in small quantities at Akyab, Bassein, Mandalay and Moulmein.

Animal lymph.

VII.—INSTRUCTION.

Education.

Quinquennial conference.

272. The Quinquennial Conference was held in November and December 1900 and in January 1901 at Rangoon, Moulmein, and Mandalay respectively. The results are shown in the fifth edition of the Education Code under which work will be carried on for the next five years.

Primary and Secondary education.

273. The question of providing the necessary funds for the extension of Primary education was taken up by the Government, and arrangements have been made which, it is hoped, will place Primary education on a better footing without injuring Secondary education, which does not draw upon public funds too largely, when the size of the province is considered.

Inspection and control.

274. Inspection and control have been effective, and the Educational officers have worked with the greatest sympathy and in the closest touch with the Managers of Anglo-Vernacular schools.

Hostels.
Inter-school rules.
Discipline.

275. Discipline has been effective. The inter-school rules have largely contributed to the welfare of schools in efficiency and in finance, and hostels and boarding establishments have done much to supply that supervision over pupils that unfortunately parents are slow to exercise.

General statistics of institutions, and of the numbers attending them.

276. The total number of institutions, public and private, has risen from 17,050 to 17,599, and the pupils from 287,987 to 307,076. The public institutions show a decrease of one, *i.e.*, from 4,482 to 4,481; but the pupils attending them have increased by 8,924.

Finance.

277. The total expenditure has risen from Rs. 16,07,948 to Rs. 17,56,798, including fees, which show a very satisfactory increase of Rs. 32,421. The net Government expenditure shows an increase of Rs. 1,14,883, due to increases on female education, including training schools for women; special schools for training masters; law school; engineering and survey schools; industrial schools and kindergarten schools; scholarships; buildings; miscellaneous, *i.e.*, petty construction and repairs by municipalities and superintendence.

The very satisfactory increase in fees is due almost entirely to schools under private management which, under the rules in force, have collected Rs. 37,054 more than last year.

The percentage of expenditure of public funds, fees and private funds, is 68, 20, and 12 against 67, 20, and 13 last year.

Buildings show a large increase, owing to the new Rangoon College building; the school for Shan *Sawbwa* at Taunggyi; and additions to the Government school of engineering at Insein.

Educational Syndicate.

278. Proposals have been submitted to the Secretary of State for India, for the handing over of the Rangoon College and Collegiate School to the Government; for a revision of the staff of the college, and the conditions of appointment of Lecturers. Final orders are awaited.

The Educational Syndicate submitted proposals, which are under discussion, for the establishment of a Burma University.

The general body met twice, and the executive committee ten times during the year. Mr. Pope, whose term as President had been renewed on January 27th, 1899, was succeeded on January 27th, 1901, by the Hon'b'e F. S. Copleston, Chief Judge of the Chief Court of Lower Burma.

Collegiate education.

279. The number of colleges remains the same—one first grade and one second grade under the Baptist Mission. The attendance shows an increase of 25. There are no colleges for law, engineering, medicine, teaching, or agriculture. The Rangoon College passed 6 out of 12 students for the B.A. and 22 out of 52 for the F.A. The Baptist College passed 1 out of 3 for the F.A

Upper and Lower Secondary education.

280. In every branch, except Middle Vernacular for girls, there has been marked progress. The loss in this is only apparent and is due to the fact that some schools under Missionary management that were Middle Vernacular have become Middle Anglo-Vernacular. There are 296 schools for boys with an attendance of 27,046, and 33 schools for girls with an attendance of 2,954: the increase is 10 schools and 2,395 boys, a decrease of 3 schools for girls, but an increase of 204 pupils.

The passes in Upper and Lower Secondary are satisfactory, but the Vernacular passes are better than the Anglo-Vernacular, having risen from 793 last year to 866 this, 129 being girls.

The Vernacular Ninth Standard was 9 against 2 the year before. The total expenditure on Secondary education was Rs. 5,95,343 for boys and Rs. 1,18,780 for girls, towards which Government contributed Rs. 2,62,786 and Rs. 43,641 respectively.

Primary education.

281. The number of Primary schools is 12 less, but the attendance has increased by 8,285; the passes have risen from 49,745 to 57,718, and of these 12,910 are girls.

Primary education represents Anglo-Vernacular and Vernacular work among Europeans and Eurasians, Burmans, Karens, (*Sgau, Pwo, Bghai*, and *Paku*) Mahomedans, Tamils, Telegus, Kachins, Shans, Chins, Talaings, Chinese, and Ponnas.

The total expenditure on Primary education is Rs. 3,37,043 against Rs. 2,94,494 last year. Boys' schools cost Rs. 2,56,740 and girls Rs. 80,303.

Heavy *pro rata* reduction in grants not only injured existing Primary education, but checked its spread. Proposals are under consideration for extending Primary education, and finding the funds, without which it will be impossible to spread it.

Special instruction.

282. Special attention has been paid to the establishment, equipment, and organization of training schools for men and women. In the first and second year Normal school and Pupil Teacher examinations, the following are the passes: Anglo-Vernacular Secondary, 26 out of 46; Anglo Vernacular Primary, 30 out of 32; Vernacular Secondary, 75 out of 99; Vernacular Primary, 7 out of 16, Pupil Teachers for Vernacular Secondary, 270 out of 449. In the final tests 215 men and 63 women passed out of 702 men and 128 women respectively.

The number of training schools is the same as last year; but the attendance has increased by 52 men and decreased by 49 women.

Twenty-seven Anglo-Vernacular schools teach drawing with an attendance of 2,396.

Drill for boys and calisthenics for girls are popular. A beginning has been made in the education of the blind.

The Government School of Engineering, Insein, continues to do well and supplies each year trained Upper and Lower Subordinates for the Public Works Department.

The Law class is at present small, but the changes made in the rules for Advocates will tend to increase the numbers.

Survey schools have increased by one in number and the average attendance has been 446 against 411 last year. The cost to Government has been Rs. 26,305 from provincial funds, and Rs. 7,348 from fees, which have increased by Rs. 865.

Of the students who were examined 44 per cent. passed in arithmetic, 72 per cent. in surveying, and only 15 per cent. in revenue law. One hundred and twenty-five qualified students received appointments at the Dufferin Hospital; there were 24 students against 33 last year, of whom 17 completed their course and passed the required examinations.

The apprentices in mechanical engineering continue to receive a good training; 53 were at the Insein Railway Workshops, 32 were apprenticed to recognized workshops in Rangoon, Moulmein, Akyab, and Mandalay.

We have no recognized schools for commercial instruction.

The Patamabyan examination continues to be popular; 82 monks and laymen passed the various grades out of 209 who went up.

Female education.

283. There is a small change in the method of classification this year. Boys reading in girls' schools have hitherto been included; they are now excluded.

There are 336 schools solely for girls, with an attendance of 8,582. Twenty-six thousand two hundred and one girls attended boys' schools to which girls are admitted.

Private schools show an attendance of 3,361, making the total attendance 38,144.

Special classes.

284. There are 28 schools attended by Europeans against 26 last year, with an attendance of 2,006 against 1,931. None passed the B.A. Five passed the F.A. and 24 the Entrance. Eight gained Middle English, 11 junior University, and two senior University scholarships.

The cost rose from Rs. 1,54,355 to Rs. 1,65,200, fees showing an increase of Rs. 10,511.

For Karen education there are 15 Anglo-Vernacular schools with 1,125 boys and 503 girls, and 585 Vernacular schools with 17,175 boys and 5,973 girls. No Karen passed either the B.A. or F.A. Two passed the Entrance.

Tamil and Telugu education advances slowly; so do special schools for Mahommedans. Work among Shans, Chins, Kachins, and Talaings is gaining ground steadily.

We have two schools specially for Chinese, namely, the Government School at Bhamo, and the Roman Catholic Mission St. Joseph's School at Mandalay.

Private schools.

285. The bulk of these schools are purely for religious instruction, the managers for various reasons, especially ignorance, do not wish to have any secular education.

There are 13,118 schools with an attendance of 147,682.

Text-books.

286. This is the first year in which the Text-Book Committee has worked under its new constitution. It shows a very good outturn of work. The Vernacular text-books prepared by the Editor and his staff have changed the face of Vernacular education during the last 12 years.

Juvenile offenders.

287. The Reformatory School at Insein was transferred from the jail to the Educational Department on the 1st April 1900. The number of inmates at the beginning of the year was 98. Twenty-five boys were admitted and 31 discharged. The health of the boys has been good: 17 boys were admitted into hospital against 43 in 1899. The cost per head of average strength decreased from Rs. 136-9-7 to Rs. 130-13-3 in the year under review. Of the 83 boys discharged during the past three years, only 9 were engaged in the trade which they were taught while in the Reformatory School.

Literature and the Press.

288. One hundred and fifteen publications were registered under Act XXV of 1867 as compared with 119 in the previous year. Of these, 101 were original and 14 re-publications, 11 being intended for educational purposes. Of the remaining 104 non-educational works, 13 were classified under the head "Drama," 17 under "Language," 1 under "Law," 2 under "Medicine," 14 under "Miscellaneous," 3 under "Poetry," 49 under "Religion," and 5 under "Science." Of the 115 publications registered during the year under report, 12 were published in English, 3 in English and Burmese, 41 in Burmese, 48 in Pâli-Burmese, 1 in Tamil-English, 1 in Bengali, 5 in Sgau-Karen, 1 in Guzarati and 3 in Pâli.

Arts and Sciences.

Nil.

VIII.—ARCHÆOLOGY.

289. A list of 127 pagodas and temples at Pagan was prepared by the Government Archæologist during the year. It has since been published together with a plan showing the locality of each shrine. They are now being looked after by ten caretakers at a cost of Rs. 83 per annum. Arrangements are being made for the conservation in the same way of the Shwezigôn, Mozudaw, and Paungdaw-u pagodas at Tagaung, Ruby Mines district.

The Kalyani inscriptions at Pegu have been placed in a shed built by the Public Works Department, and two other inscribed stones have been erected under masonry sheds: namely, one near the Gôkteik railway bridge, and the other near the English cemetery at Sagaing. The inscription reported last year as having been found at Tagaung in the ruins of an ancient pagoda, has been set up on one face of a new pagoda built by the villagers on the same site to enshrine the 18 images of Gautama Buddha with the rubies and other stones found there at the same time. This creditable action on the part of the villagers obviated the proposal to erect a masonry shed there to preserve the inscription.

The following additional inscriptions were discovered and copied, and they are being deciphered and prepared for publication :—

From the Mandalay district	10
From the Sagaing district	12
From the Meiktila district	3
From the Kyauksè district	5
From the Myittha district	5
From the Minzu district	2
From the Paukmyaing district	4
From the Lèwe district	1
From the Natogyi district	1
From the Taungtha district	4
From the Pagan district	12
From the Pakôkku district	6
From the Pakangyi district	12
Total ...	77

Besides these, nine palm leaf copies of inscriptions obtained at Pagan were transcribed.

IX.—MISCELLANEOUS.

Ecclesiastical.

290. The Lord Bishop laid the foundation stone of the Town Church at Mandalay on the 16th February 1901. The work of construction is being pushed forward.

The building of the Memorial Church in Fort Dufferin was resumed. The original plan was modified to meet the requirements according to change of conditions.

The building of a church at Maymyo is still in abeyance, pending the settlement of the question of locating British troops at that station. The building of churches at Myingyan and Minbu is being carried out.

Some of the Mission buildings at Shwebo were destroyed by fire. The new Mission Church at Shwebo is sufficiently advanced to be used for services, and also for school purposes until funds are available for the construction of a new school building.

A "Home of Rest" for working girls was built at Maymyo, in connection with the Girls' Friendly Society; the whole of the cost being met by private contributions.

A scheme is on foot to establish a Church of England boarding and day school for European and Eurasian girls at Maymyo. A site has been granted and application has been made for a grant-in-aid.

The locality of the cemetery at Maymyo having been found unsuitable, owing to the expansion of the station, a new cemetery with an area of over four acres has been provided.

The Lord Bishop of the Diocese proceeded on furlough for six months to England, after making over charge to his Commissary.

One junior chaplain proceeded to England on sick leave, two junior chaplains proceeded on furlough, one junior chaplain was transferred to the Lahore diocese, one senior chaplain retired on pension and two chaplains on probation were appointed.

One chaplain was appointed to the Additional Clergy Society and was posted to Mandalay town. The Additional Clergy Society's chaplains, with the exception of the Chaplain of East Rangoon, receive grants-in-aid from Government. One of the S. P. G. Missionaries at Toungoo, and the S. P. G. Missionary at Mandalay, until the arrival of a chaplain of the Additional Clergy Society, also received grants-in-aid for ministering to English congregations.

On the retirement during the year of the Venerable Archdeacon Chard, the Reverend J. P. Dyer, M.A., Senior Chaplain, was appointed Archdeacon of the Diocese and Bishop's Commissary.

Stationery.

291. As in previous years, the stationery required for Government use was procured from the Superintendent of Stationery, Calcutta, at a cost of Rs. 2,92,154, which, compared with Rs. 2,98,481 in 1899-1900, shows a decrease of Rs. 6,327. With the exception of paper of high grades, of which comparatively small supplies are needed, the paper used is of Indian manufacture. These papers are improving in finish and quality, and are well suited to all ordinary official purposes.

INDEX TO PART III.

BURMA STATISTICAL RETURNS.

I.—Statistics of Physical, Political, and Fiscal Geography.

A.—Physical Geography.

	Page.
1.—Area cultivated and uncultivated, Lower Burma	95

II.—STATISTICS OF PROTECTION.

A.—LEGISLATIVE.

[No. 13.] *1.—Statement of Acts passed by the Legislature of Burma in the year 1900 and duly assented to as required by law.*

No., year, and title of Act.	By whom introduced.	Object and character of Act.	Date of assent.
I of 1900. The Rangoon Water-works Act, Amendment Act.	The Hon'ble Mr. Richard.	The chief object of the Act is to lighten the incidence of the water-rates on the poorer classes by allowing *free of further charge a minimum* water supply of 50 gallons a day to each house for which the water-tax is paid. The opportunity was also taken to allow 3,000 gallons (instead of the 1,500 gallons previously allowed) free of further charge, for every rupee paid for water-tax, and to reduce the further charges for water used *for domestic purposes* in excess of the quantity allowed free for the water-tax by substituting a charge of one rupee for every 3,000 gallons for the charge of one rupee for every 1,500 gallons specified in section 8 of the Act.	Lieutenant-Governor's assent 24th March 1900. Governor-General's assent 20th April 1900
II of 1900. The Burma Vaccination Law, Amendment Act.	The Hon'ble Mr. Bayne	The object of the Act is to lessen the public danger arising from the dissemination of small-pox by migratory coolies who catch the disease in Burman villages and bring it to Burman towns. The Act is supplementary to the Vaccination Act, 1880, and authorizes the immediate vaccination of any unprotected inmate of a lodging-house or coolie-barrack, and the service of a notice on any unprotected person requiring him to be vaccinated within seven days.	Lieutenant-Governor's assent 24th March 1900. Governor-General's assent 20th April 1900.

[No. 14.] *2.—Statement of Bills proposed or pending in the Legislature of Burma in the year 1900.*

Title of Bill.	By whom proposed.	Object and character of Bill.	Fate, result, or present position of the proposed Bill.
The Burma Military Police Act Amendment Bill.	The Hon'ble Mr. Bayne	The object of the Bill is to provide for the arrest of Military Police Officers without warrant for certain offences and for their confinement in the quarter-guard. These powers are necessary for the maintenance of discipline as the military police are scattered in isolated posts in various parts of the country. Similar powers had been previously exercised until doubt was raised as to their legality.	Passed into law as Burma Act II of 1901.
The (Lower) Burma Land and Revenue Act Amendment Bill.	The Hon'ble Mr. Norton.	The Bill makes it clear that it is penal under section 39 of the Act for a salt manufacturer to use a cauldron larger than that permitted by his license, and was introduced in consequence of a decision of the Judicial Commissioner, Lower Burma.	Passed into law as Burma Act I of 1901.
The Burma Towns Law Amendment Bill.	The Hon'ble Mr. Mathews.	The Bill inserts in section 5 of the Upper Burma Towns Regulation, 1891, and in section 5 of the Lower Burma Towns Act, 1892, a clause imposing an obligation on headmen of wards to collect and furnish supplies and transport for troops and police in or near towns. Experience has shown that executive orders are insufficient for the purpose, and the statutory obligation imposed by the Bill already exists in the case of Burman villages under the similar village enactments.	Passed into law as Burma Act II of 1901.

[No. 15.] *3.—Statement of Draft Bills and Regulations submitted by the Chief Administrative Authority of Burma for the consideration of the Legislature of India during the year 1900.*

Title of Bill.	By whom proposed.	Object and character of Bill.	Fate, result, or present position of the proposed Bill.
IV of 1900. A Regulation to amend the Upper Burma Land and Revenue Regulation, 1889.	Lieutenant-Governor...	This Regulation makes it clear that it is penal, under section 39 of the Regulation, for a salt manufacturer to use a cauldron larger than that permitted by his license and was introduced in consequence of a decision of the Judicial Commissioner, Lower Burma, on the similar section of the Lower Burma Act.	Passed into law as Regulation IV of 1900.

[No. 15.] *3.—Statement of Draft Bills and Regulations submitted by the Chief Administrative Authority of Burma for the consideration of the Legislature of India during the year 1900* —concluded.

Title of Bill.	By w hom proposed.	Object and character of Bill.	Fate, result, or present position of the proposed Bill.
VIII of 1900.			
A Regulation to amend the Upper Burma Civil Courts Regulation, 1896.	Lieutenant-Governor ...	This R gulation removes difficulties which had arisen owing to the fact that the Divi ional Court had no civil original jurisdiction and in consequence of which it was d o u b t-ed whether the decrees of that Court under the Indian Divorce Act, 1869, could be executed or appealed from. The amendment is effected, together with certain drafting alterations, by substituting for section 10 of the amended Regulation a section similar to section 25 of the Lower Burma Courts Act, 1900.	Passed into law as Regulation VIII of 1900.
